# COMMUNITY MEETING

## ALL AMERICAN ASPHALT

The South Coast Air Quality Management District (South Coast AQMD) will host a community meeting on air quality issues related to All American Asphalt (AAA) located in Irvine, CA.

South Coast AQMD has been conducting an on-going investigation concerning the AAA hot mix and batch plant. The facility is located within a few miles of multiple residential communities. South Coast AQMD's investigation seeks to address numerous complaints lodged by local residents, who have identified asphalt and burnt rubber-type odors from the facility.

The meeting will include an update on South Coast AQMD permits and air monitoring data, as well as review and discussion of air monitoring data presentations by other researchers. There also will be an opportunity for the public to ask questions and/or provide comment.

Additional information on South Coast AQMD's investigation related to All American Asphalt can be found at:
