PUBLIC MEETING FOR EXIDE PERMIT MODIFICATION

The South Coast Air Quality Management District (SCAQMD) is holding a community meeting to provide information related to a proposed revision to the Title V Permit for Exide Technologies located at 2700 S. Indiana Street, Vernon, CA 90058.

The proposed permit revision is for the installation of new and the improvement of the existing air pollution control equipment in order for Exide to implement their Risk Reduction Plan as required by SCAQMD rules. SCAQMD rules require large lead-acid battery recycling facilities to meet strict standards to protect public health by reducing lead, arsenic, benzene, and 1,3-butadiene exposure and air pollution.

At the community meeting, there will be an opportunity to learn more about the proposed Permit revision for Exide and the new air pollution control equipment to implement the risk reduction measures in the plan.

Tuesday, November 25, 2014

6:00 p.m.

**Bishop Mora Salesian High School
Multipurpose Room (above football field)
960 S. Soto Street
Los Angeles, CA 90023**

The SCAQMD is the government agency responsible for controlling air pollution from facilities operating in our region and for protecting public health associated with their air pollution emissions.
