**Subject:** 2007 Plan Amendment DEIR

Dear Mr. Coleman:

SCAQMD staff has noted that the proposed 2007 Plan Amendment to the Merged Central Business District and West End Redevelopment Project Area (SCH #2007031120), planned to occur over a period of 20 – 30 years, has no specific projects proposed for implementation currently, and that the individual projects will be subject to CEQA review as and when they come on line.

SCAQMD staff has only one comment which should be incorporated in the Final EIR.

Tables 11 and 12 on pages 47 and 48 of the DEIR are missing the PM 2.5 significance thresholds for both construction and operation. Both are 55 pounds per day. Please include this information in the Final EIR as well as the respective emissions from the URBEMIS 2007 output printout from Appendix E in Tables 13 and 14.
