ORDER (Proposed)

WHEREAS, expeditious compliance with the Phase II EVR and ISD requirements adopted by the California Air Resources Board (CARB) is beneficial to the public in that compliance will further reduce gasoline vapor emissions that form ozone;

WHEREAS, the South Coast Air Basin is in serious non-attainment of the federal health-based standard for ozone;

THEREFORE, pursuant to District Rule 806(b), and the Stipulations between the Executive Officer and each of the Respondents, individually listed in the attached Exhibit, the Hearing Board of the South Coast Air Quality Management District orders each listed Respondent to cease receiving, dispensing and storing gasoline at its Gasoline Dispensing Facility ("GDF"), or, in the alternative, comply with the following conditions:

1. Install all required CARB certified Phase II EVR equipment and any September 1, 2009 required ISD equipment; and conduct all required testing of that equipment as required by the applicable CARB Executive Order and Rule 461(c)(3) by the earliest feasible date but no later than December 31, 2009.

2. Within 5 calendar days after full compliance has been achieved at the GDF, Respondent shall notify the District as to the date it fully complied with condition 1 in the manner specified by the District.

Prior to the final compliance deadline, the District may agree in writing to extend the December 31, 2009 deadline up to March 31, 2010.

The Hearing Board shall retain jurisdiction over this matter until July 31, 2010 at which time this Order for Abatement, if it has not been properly extended, shall expire.

IT IS SO ORDERED.
