AGENDA NO. 23

REPORT: California Air Resources Board Monthly Meeting

SYNOPSIS: The California Air Resources Board held a meeting on October 13, 2022 and October 27, 2022. The following is a summary of the meetings.

RECOMMENDED ACTION:
Receive and file.

Gideon Kracov, Member
South Coast AQMD Governing Board

ft

The California Air Resources Board (CARB or Board) held a public meeting on October 13, 2022 in Sacramento, California at the California Environmental Protection Agency Headquarters Building. The key item presented is summarized below.

DISCUSSION ITEM

22-13-1: Public Meeting to Consider Assembly Bill 617 Community Air Protection Program - Arvin/Lamont Community Emissions Reduction Program

The Board approved the Community Emissions Reduction Program (CERP) for the Arvin/Lamont community in Kern County and directed CARB staff to work with the San Joaquin Valley Air Pollution Control District to take additional actions to strengthen implementation of the CERP. CERPs are developed pursuant to Assembly Bill (AB) 617 (C. Garcia, Chapter 136, 2017) and the Community Air Protection Program, and focus on reducing cumulative exposure to air pollution in individual communities. The Arvin/Lamont community has long been overburdened by emissions from industrial sources, agricultural operations, oil production and extraction, dust, and heavy-duty truck traffic. Many neighborhoods are near farmland, making pesticide

exposure a top community priority. The Arvin/Lamont community CERP includes measures to provide investments in residential and agricultural equipment replacement, to address pesticides and oil well impacts on the community, and to re-route heavy-duty diesels trucks away from sensitive populations. CARB staff evaluated the CERP and determined it meets the criteria established in AB 617 and the Community Air Protection Program Blueprint, reflects community priorities, and will reduce air pollution emissions and exposure in the community.

The Board held a public meeting on October 27, 2022 in Sacramento, California at the California Environmental Protection Agency Headquarters Building. The key item presented is summarized below.

DISCUSSION ITEM

22-14-1: Public Hearing to Consider the Proposed Advanced Clean Fleets Regulation

The Board hosted the first of two planned hearings to consider the proposed Advanced Clean Fleets (ACF) regulation. No action was taken by the Board at this first meeting. The ACF regulation is part of CARB's comprehensive strategy to accelerate the widespread adoption of zero-emission vehicles (ZEV) in the medium- and heavy-duty truck sector and for light-duty package delivery vehicles. Since mobile sources are the greatest contributor to emissions of criteria pollutants and greenhouse gases (GHG) in California, accounting for about 80 percent of ozone precursor emissions and approximately 37 percent of statewide GHG emissions, the ACF regulation is critical to meeting California's public health and climate goals and meeting State and federal air quality standards. The proposed regulation includes several key components that would primarily require State and local government fleets, drayage trucks, high priority fleets, and federal fleets to phase in medium- and heavy-duty ZEVs, and light-duty package delivery ZEVs. The proposed ACF regulation would begin with certain fleets deploying ZEVs starting in 2024 and would establish a clear end date for medium- and heavy-duty internal combustion engine vehicle sales in 2040. The Board directed staff to consider recommended and any other necessary modifications to the draft regulatory language, and bring the final proposed ACF regulation back to the Board for its consideration at a subsequent hearing.
