

BOARD MEETING DATE: September 2, 2022

AGENDA NO. 24

REPORT: Mobile Source Committee

SYNOPSIS: The Mobile Source Committee held a remote meeting on Friday, August 19, 2022. The following is a summary of the meeting.

RECOMMENDED ACTION:  
Receive and file.

Gideon Kracov, Chair  
Mobile Source Committee

SLR:ak

---

### **Committee Members**

Present: Board Member Gideon Kracov/Chair  
Mayor Larry McCallon  
Council Member Nithya Raman

Absent: Supervisor Sheila Kuehl/Vice Chair  
Supervisor V. Manuel Perez  
Mayor Carlos Rodriguez

### **Call to Order**

Chair Kracov called the meeting to order at 9:00 a.m.

For additional details of the Mobile Source Committee Meeting, please refer to the Webcast at: [Webcast](#)

### **INFORMATIONAL ITEM:**

#### **1. Voluntary Reclassification of Coachella Valley for the 2008 8-hour Ozone Standard**

Dr. Sang-Mi Lee, Planning and Rules Manager/Planning, Rule Development & Implementation, provided a summary on the Voluntary reclassification of Coachella Valley for the 2008 8-hour ozone standard.

Chair Kracov inquired if the control strategy regarding Coachella Valley's attainment of the 2008 ozone standard will be brought back to the committee and staff responded affirmatively. For additional details, please refer to the [Webcast](#) beginning at 19:33.

Council Member Raman asked clarifying questions regarding which agency will be developing this new plan and how existing and future transportation plans will be impacted. Staff responded that South Coast AQMD will develop the new plan and that existing projects will continue to move forward under existing Motor Vehicle Emissions Budgets (MVEB), but no new projects are allowed until new budgets are established under the reclassification. For additional details, please refer to the [Webcast](#) beginning at 20:24.

Mayor McCallon raised concerns on meeting the 70 ppb ozone standard in 2037. For additional details, please refer to the [Webcast](#) beginning at 22:40.

Public commenters included Rongsheng Luo, SCAG, who emphasized the importance of updating the MVEB, and Dan McGivney, SoCalGas, who requested clarification that the \$26 billion worth of transportation projects applies to the whole SCAG region, not just Coachella Valley. For additional details, please refer to the [Webcast](#) beginning at 23:40.

## **2. Update on Indirect Source Rules**

Ian MacMillan, Assistant Deputy Executive Officer/Planning/Rule Development & Implementation, provided a status update on Proposed Rules (PR) 2304 - Indirect Source Rule (ISR) for Commercial Marine Ports and 2306 - Indirect Source Rule for New Intermodal Facilities.

Council Member Raman requested clarifications on the divergence between the 2008 EPA locomotive fleet projections and the 2021 CARB locomotive fleet projections. She also questioned if similar discrepancies will impact projections for the PR 2306 rulemaking. Staff responded that the observed discrepancies between U.S. EPA and CARB projections are due to remanufacturing of existing locomotives instead of purchasing new cleaner locomotives due to the lower cost of remanufacturing. Executive Officer Wayne Natri added the need for in-use authority to limit remanufacturing of locomotives. For additional details, please refer to the [Webcast](#) beginning at 52:19.

Mayor McCallon commented that some older locomotive chassis are not compatible with newer engines, and it is up to the rail operators to decide whether or not to invest on new locomotives. Mayor McCallon also highlighted Metrolink's decision to use renewable diesel with Tier 4 passenger locomotives, and the technology's capability to lower criteria pollutants. Staff highlighted that there are differences in

the composition of fleets between Metrolink and Class 1 railroads and that renewable diesel is part of Staff's technology assessments. For additional information, please refer to the [Webcast](#) beginning at 57:36.

Chair Kracov asked staff on the current schedule for the release of environmental documents for California High Speed Rail (HSR) for the Colton Intermodal Facility. Staff responded that based on a recent meeting with California HSR staff that the environmental documents will be delayed from the previous scheduled timeframe of late 2022. For additional details, please refer to the [Webcast](#) beginning at 1:02:30.

Fernando Gaytan (Earthjustice), Chris Chavez (Coalition for Clean Air), Yassi Kavezade (Sierra Club – My Generation Campaign) made the following comments:

- Expressed concerns about public health impacts and requested that a health expert be assigned to measure and track health outcomes during ISR development and implementation
- Need to maintain ISR rulemaking on parallel track with CARB rulemaking
- Expressed concern with piecemeal approach on port ISR and possibility of delaying rulemaking
- Support more frequent staff updates to Mobile Source Committee
- Prioritizing ZE technology for ISR rulemaking
- Concern for the delayed adoption of cleaner emission technologies for trucks and locomotives

For additional details, please refer to the [Webcast](#) beginning 1:04:30.

Todd Campbell, Clean Energy, expressed support for indirect source rules and commented on the importance of consideration for natural gas trucks as part of the emission reduction strategy. For additional details, please refer to the [Webcast](#) beginning 1:04:24.

Chair Kracov confirmed staff's ongoing discussions with U.S. EPA on federal sources such as ships and locomotives and encouraged industry partners to invest in cleaner technologies. For additional details, please refer to the [Webcast](#) beginning 1:16:05.

Chair Kracov requested feedback from stakeholders and Committee Members on revising frequency of ISR updates. Mr. Nastri recommended quarterly staff updates. Mayor McCallon expressed support for staff's recommendation. Council Member Raman expressed concerns for potential delays in rulemaking linked to staffing shortages and requested staff to keep a line of communication open to the committee members in case of further potential delays. The Committee expressed support for staff's recommendation to move to quarterly updates with for the condition that staff would come before the Committee prior to making any determination that the rules

need to be delayed or changed on the Board calendar. For additional details, please refer to the [Webcast](#) beginning 1:20:45.

**WRITTEN REPORTS:**

**3. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program**

This item was received and filed.

**4. Rule 2202 Activity Report: Rule 2202 Summary Status Report**

This item was received and filed.

**5. Monthly Report on Environmental Justice Initiatives: CEQA Document Commenting Update**

This item was received and filed.

**OTHER MATTERS:**

**6. Other Business**

There was no other business to report.

**7. Public Comment Period**

Yassi Kavezade and Angie Balderas (Sierra Club) encouraged the Committee members to participate in a community visit/tour of the Inland Empire. For additional information, please refer to the [Webcast](#) beginning at 1:28:20

**8. Next Meeting Date**

The next regular Mobile Source Committee meeting is scheduled for Friday, September 16, 2022.

**Adjournment**

The meeting adjourned at 10:30 a.m.

**Attachments**

1. Attendance Record
2. Rule 2305 Implementation Status Report
3. Rule 2202 Activity Report – Written Report
4. Monthly Report on Environmental Justice Initiatives: CEQA Document Commenting Update – Written Report

**Rule 2305 Implementation Status Report:**  
**Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program**

*June 1, 2022 to July 31, 2022*

**1. Implementation and Outreach Activities:**

Activity	Past 2 Months	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909 396-3140) and Helpdesk ( <a href="mailto:waire-program@aqmd.gov">waire-program@aqmd.gov</a> )	466	1,585
Views of Compliance Training Videos (outside of webinars)	375	1,963
Emails Sent with Information About WAIRE Program Resources*	1,474	~21,000
Visits to <a href="http://www.aqmd.gov/waire">www.aqmd.gov/waire</a>	4,646	~19,000
Presentations to Stakeholders	32**	130

*\*Including responses to media inquiries.*

*\*\* City of Murrieta, GXO Logistics, Inc., Riverside County Board of Supervisors, Corman Leigh Properties, Prologis, PLM Fleet, Pechanga Development Corporation, City of Rancho Cucamonga, City of San Jacinto, Sebastian Solutions, National Association for Industrial and Office Parks (NAIOP), City of Ontario, City of Beaumont, City of Moreno Valley.*

**2. Highlights of Recent Implementation Activities**

WAIRE Program staff conducted WAIRE Program Compliance Webinar #6 on June 10, 2022. Staff presented an overview of the Initial Site Information Report (ISIR) and provided information on the WAIRE Program Online Portal (WAIRE POP) ISIR web forms and functionality. Approximately 148 people participated in the virtual webinar meeting. Questions from attendees focused on counting truck trips and how to input site information and compliance actions and investments into WAIRE POP. Participants also inquired about applicability of warehouse operations and specific warehouse operations scenarios.

Warehouse operators operating in Phase 1 Warehouses ( $\geq 250,000$  square feet) were required to submit an Initial Site Information Report (ISIR) by July 5, 2022, through the WAIRE POP. Report data included the actual truck trips in the previous 12-months, the number of truck trips anticipated for the current compliance period, potential onsite equipment, and anticipated actions to meet the WAIRE Points Compliance Obligation (WPCO). Staff is continuing to process, validate, and analyze submitted data, and is concurrently reaching out to warehouse operators for clarification and ensure that all reports are submitted.

The WAIRE Program Compliance Team continues their efforts in outreaching to warehouse operators and owners on the requirements of Rule 2305. The Legislative, Public Affairs & Media

Office and WAIRE Program Compliance Team continued to conduct informational presentations to various groups and individuals to broaden outreach efforts and respond to WAIRE Program emails and hotline calls.

**Anticipated Activity in August**

- Continue to conduct outreach to Phase 1 warehouse operators to advise of Rule 2305 requirements, including tracking truck trips and earning WAIRE Points for the 2022 compliance period
- Continue to conduct outreach to warehouse owners to update their Warehouse Owner Notification (WON) submissions, as needed
- Continue to analyze data submitted in the WON and ISIR reports
- Begin development of first Annual Report on WAIRE Program Implementation, with anticipated presentation to Mobile Source Committee in October 2022
- Continue to develop an approach for making WAIRE Program data publicly accessible via the online F.I.N.D. database on the South Coast AQMD's website

21865 Copley Drive, Diamond Bar, CA 91765-4182  
(909) 396-2000 • www.aqmd.gov

Item #3

## Rule 2202 Summary Status Report

Activity for January 1, 2022 – July 31, 2022

Employee Commute Reduction Program (ECRP)	
# of Submittals:	200

Emission Reduction Strategies (ERS)	
# of Submittals:	244

Air Quality Investment Program (AQIP) Exclusively		
County	# of Facilities	\$ Amount
Los Angeles	36	\$ 218,452
Orange	3	\$ 11,309
Riverside	0	\$ 0
San Bernardino	1	\$ 10,234
<b>TOTAL:</b>	<b>40</b>	<b>\$ 239,995</b>

ECRP w/AQIP Combination		
County	# of Facilities	\$ Amount
Los Angeles	1	\$ 24,213
Orange	0	\$ 0
Riverside	1	\$ 51
San Bernardino	0	\$ 0
<b>TOTAL:</b>	<b>2</b>	<b>\$ 24,264</b>

### Total Active Sites as of July 31, 2022

ECRP (AVR Surveys)			TOTAL Submittals w/Surveys	AQIP	ERS	TOTAL
ECRP <sup>1</sup>	AQIP <sup>2</sup>	ERS <sup>3</sup>				
511	10	98	619	104	621	1,344
38.02%	0.74%	7.29%	46.06%	7.74%	46.21%	100% <sup>4</sup>

### Total Peak Window Employees as of July 31, 2022

ECRP (AVR Surveys)			TOTAL Submittals w/Surveys	AQIP	ERS	TOTAL
ECRP <sup>1</sup>	AQIP <sup>2</sup>	ERS <sup>3</sup>				
360,735	3,487	20,753	384,975	14,469	256,048	655,492
55.03%	0.53%	3.17%	58.73%	2.21%	39.06%	100% <sup>4</sup>

- Notes:**
1. ECRP Compliance Option.
  2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.
  3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.
  4. Totals may vary slightly due to rounding.

BOARD MEETING DATE: September 2, 2022

AGENDA NO.

REPORT: Lead Agency Projects and Environmental Documents Received

SYNOPSIS: This report provides a listing of CEQA documents received by South Coast AQMD between July 1, 2022 and July 31, 2022, and those projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

COMMITTEE: Mobile Source, August 19, 2022, Reviewed

RECOMMENDED ACTION:  
Receive and file.

Wayne Natri  
Executive Officer

SR:MK:MM:SW:MC

---

**CEQA Document Receipt and Review Logs (Attachments A and B)** – Each month, South Coast AQMD receives numerous CEQA documents from other public agencies on projects that could adversely affect air quality. A listing of all documents received during the reporting period July 1, 2022 to July 31, 2022 is included in Attachment A. A list of active projects for which South Coast AQMD staff is continuing to evaluate or prepare comments for the June reporting period is included as Attachment B. A total of 46 CEQA documents were received during this reporting period and 13 comment letters were sent.

The Intergovernmental Review function, which consists of reviewing and commenting on the adequacy of the air quality analysis in CEQA documents prepared by other lead agencies, is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4. As required by the Environmental Justice Program Enhancements for FY 2002-03, approved by the Board in October 2002, each attachment notes proposed projects where South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. South Coast AQMD has established an internal central contact to receive information on projects

with potential air quality-related environmental justice concerns. The public may contact South Coast AQMD about projects of concern by the following means: in writing via fax, email, or standard letters; through telephone communication; and as part of oral comments at South Coast AQMD meetings or other meetings where South Coast AQMD staff is present. The attachments also identify, for each project, the dates of the public comment period and the public hearing date, if applicable. Interested parties should rely on the lead agencies themselves for definitive information regarding public comment periods and hearings as these dates are occasionally modified by the lead agency.

In January 2006, the Board approved the Workplan for the Chairman's Clean Port Initiatives. One action item of the Chairman's Initiatives was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In response to describing goods movement, CEQA documents (Attachments A and B) are organized to group projects of interest into the following categories: goods movement projects; schools; landfills and wastewater projects; airports; general land use projects, etc. In response to the mitigation component, guidance information on mitigation measures was compiled into a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases. These mitigation measure tables are on the CEQA webpages portion of South Coast AQMD's website at: <http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies>. Staff will continue compiling tables of mitigation measures for other emission sources.

Staff focuses on reviewing and preparing comments for projects: where South Coast AQMD is a responsible agency; that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); where environmental justice concerns have been raised; and which a lead or responsible agency has specifically requested South Coast AQMD review. If staff provided written comments to the lead agency as noted in the column "Comment Status," there is a link to the "South Coast AQMD Letter" under the Project Description. In addition, if staff testified at a hearing for the proposed project, a notation is provided under the "Comment Status." If there is no notation, then staff did not provide testimony at a hearing for the proposed project.

During the period of July 1, 2022 to July 31, 2022, South Coast AQMD received 46 CEQA documents. Of the 53 documents listed in Attachments A and B:

- 13 comment letters were sent;
- 30 documents were reviewed, but no comments were made;
- 10 documents are currently under review;
- 0 documents did not require comments (e.g., public notices);
- 0 documents were not reviewed; and
- 0 documents were screened without additional review.

(The above statistics are from July 1, 2022 to July 31, 2022 and may not include the most recent “Comment Status” updates in Attachments A and B.)

Copies of all comment letters sent to lead agencies can be found on South Coast AQMD’s CEQA webpage at the following internet address:

<http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>.

**South Coast AQMD Lead Agency Projects (Attachment C)** – Pursuant to CEQA, South Coast AQMD periodically acts as lead agency for stationary source permit projects. Under CEQA, the lead agency is responsible for determining the type of CEQA document to be prepared if the proposal for action is considered to be a “project” as defined by CEQA. For example, an Environmental Impact Report (EIR) is prepared when South Coast AQMD, as lead agency, finds substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if South Coast AQMD determines that the project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are written statements describing the reasons why projects will not have a significant adverse effect on the environment and, therefore, do not require the preparation of an EIR.

Attachment C to this report summarizes the active projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation. As noted in Attachment C, South Coast AQMD continued working on the CEQA documents for two active projects during July.

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke, and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs.	Quemetco	Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received.  Staff held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Written comments submitted relative to the Draft EIR and oral comments made at the community meetings, along with responses will be included in the Final EIR which is currently being prepared by the consultant.	Trinity Consultants
Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing flares.	Sunshine Canyon Landfill	Subsequent Environmental Impact Report (SEIR)	South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are to be addressed by the consultant.	SCS Engineers
