

BOARD MEETING DATE: April 7, 2023

AGENDA NO. 21

REPORT: Mobile Source Committee

SYNOPSIS: The Mobile Source Committee held on Friday, March 17, 2023.
The following is a summary of the meeting.

RECOMMENDED ACTION:
Receive and file.

Holly J. Mitchell, Vice Chair
Mobile Source Committee

SLR:ak

Committee Members

Present: Supervisor Holly J. Mitchell
Supervisor V. Manuel Perez
Councilmember Carlos Rodriguez

Absent: Board Member Gideon Kracov/Chair
Mayor Larry McCallon
Councilmember Nithya Raman

Call to Order

Supervisor Mitchell called the meeting to order at 9:00 a.m.

For additional details of the Mobile Source Committee Meeting, please refer to the [Webcast](#).

ROLL CALL

INFORMATIONAL ITEM:

1. Upcoming State Implementation Plan Work

Sarah Rees, Deputy Executive Officer, Planning, Rule Development and Implementation, provided an update on upcoming State Implementation Plan revisions related to the 2012 annual PM2.5 standard and contingency measures.

Councilmember Rodriguez asked about U.S. EPA's near-road monitoring requirements in relation to the 2016 AQMP. Dr. Rees responded that near-road monitors were installed in 2015. However, at the time the 2016 AQMP was adopted, the near-road monitors had not yet collected sufficient data. Dr. Rees commented that timely action by U.S. EPA on the 2016 AQMP PM2.5 plan would have avoided the current situation of having to withdraw and develop a new plan. Refer to [Webcast](#) beginning at 22:15.

Councilmember Rodriguez inquired regarding the background level of PM2.5 in the South Coast Air Basin if all anthropogenic sources were removed. Dr. Rees responded that the background level would be in the range of 4-6 $\mu\text{g}/\text{m}^3$. Refer to [Webcast](#) beginning at 23:30.

Supervisor Mitchell asked when staff expects to perform an initial assessment of the contingency measure guidance. Dr. Rees noted that upon preliminary review U.S. EPA incorporated some elements at the suggestion of staff, however more review is needed to see what effort is needed to implement the draft guidance if it becomes final. Dr. Rees also noted that there is a 30-day public comment period. Refer to [Webcast](#) beginning at 24:33.

Adrian Martinez, Earthjustice, noted multiple complexities associated with the PM2.5 plan and requested that staff consider speeding up the public process in light of upcoming CARB and South Coast AQMD rulemakings as they relate to the PM2.5 plan. Refer to the [Webcast](#) beginning at 27:10.

Harvey Eder, Public Solar Power Coalition, expressed support for solar technology. Refer to [Webcast](#) beginning at 30:18.

Supervisor Perez inquired whether the draft contingency measure guidance provides an achievable path forward. Dr. Rees explained that there appears to be workable paths forward, however staff is still reviewing the draft guidance. Refer to [Webcast](#) beginning at 38:31.

WRITTEN REPORTS (Items 2-4):

2. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program

Wayne Nastri, Executive Officer, requested to make a correction to the written report. Ian MacMillan, Assistant Deputy Executive Officer, Planning, Rule Development and Implementation stated that 42,000 points listed as the total amount of points earned is instead the total compliance obligation for all reports received. The total points earned was instead 178,000 points for those reports filed by March 2, 2023. For additional details, please refer to the [Webcast](#) beginning at 34:10.

Councilmember Rodriguez asked if all the WAIRE POP issues were resolved to allow for AWRs to be submitted, and if any operator was unable to submit a report due to software issues, and whether a grace period was needed. Mr. MacMillan confirmed that anyone who wanted to submit a report was able to do so and staff is not aware of any issues that prevented warehouse operators from reporting or submitting fees. Further an extension was previously provided in late January through March 2 to allow a software patch to be developed and deployed. For additional details, please refer to the [Webcast](#) beginning at 35:55.

3. Rule 2202 Activity Report: Rule 2202 Summary Status Report

This item was received and filed.

4. Monthly Report on Environmental Justice Initiatives: CEQA Document Commenting Update

This item was received and filed.

OTHER MATTERS:

5. Other Business

There was no other business to report.

6. Public Comment Period

There was no public comment to report.

7. Next Meeting Date

The next regular Mobile Source Committee meeting is scheduled for Friday, April 21, 2023 at 9:00 a.m.

Adjournment

The meeting adjourned at 9:42 a.m.

Rule 2305 Implementation Status Report:
Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program

February 1, 2023 to March 2, 2023¹

1. Implementation and Outreach Activities:

Activity	Since Last Report	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909 396-3140) and Helpdesk (waire-program@aqmd.gov)	610	3,489
Views of Compliance Training Videos (outside of webinars)	251	4,994
Emails Sent with Information About WAIRE Program Resources	11,495	~42,001
Visits to www.aqmd.gov/waire	3,084	~31,874
Presentations to Stakeholders	0	142

2. Highlights of Recent Implementation Activities

Staff focused on working with warehouse operators as they prepared to file their first Annual WAIRE Reports (AWRs) through the WAIRE Program Online Portal (POP). In January, unforeseen issues were identified in WAIRE POP that affected many users. AWRs were subsequently allowed to be submitted through March 2 as issues to WAIRE POP were immediately addressed and deployed on February 1, 2023. One additional upgrade to WAIRE POP was made available for a small subset of users (warehouse facility owners and landowners voluntarily earning WAIRE Points) on February 23, 2023.

As of March 2, 2023, 456 warehouse operators had submitted their AWRs. At the reporting deadline, 165 of those operators still needed to submit their fees (including mitigation fees, as applicable). An additional 46 warehouse operators had also initiated AWRs in WAIRE POP, but had not yet filed their report. Approximately 1,019 warehouses were expected to file an AWR as a Phase 1 warehouse (having a warehouse size greater than or equal to 250,000 square feet) by the required deadline. As stated in the First Annual WAIRE Report, Phase 1 facilities were anticipated to have a WAIRE Points Compliance Obligation of about 61,000 points. The 456 operators who have already submitted an AWR reported that they earned about 178,000 points.² Approximately \$8 million of those points were earned through mitigation fees, of which about \$3 million had been submitted by the deadline. Staff will continue to reach out to warehouse

¹ Most monthly reports to Mobile Source Committee cover activities in the previous calendar month. As the compliance deadline for Phase 1 ended March 2, this report also includes the first two days of March.

² This information is subject to auditing and may vary after auditing has been completed.

operators to ensure they are fully complying with the rule and will also report back in the future as data from AWRs is analyzed and audited.

WAIRE Program staff conducted WAIRE Program Compliance Webinar #7 on February 15, 2023. Staff presented an overview of the AWR and provided information on the WAIRE POP AWR web forms and functionality. Training materials provided in this webinar are available here: <http://www.aqmd.gov/home/rules-compliance/compliance/waire-program/training-videos>. Approximately 140 people participated in the webinar. Questions from attendees focused on truck trip counting and how to input WAIRE Points earned from actions and investments from the WAIRE Menu into WAIRE POP. Participants also inquired about applicability of warehouse operations and specific warehouse operations scenarios.

Staff has continued targeted outreach to Phase 1 facilities (warehouses \geq 250,000 square feet) that had not yet submitted an Initial Site Information Report (ISIR) and has continued to respond to WAIRE Program emails and hotline calls. These efforts included conducting virtual consultation sessions to various stakeholders to broaden outreach efforts and provide technical support as stakeholders prepared for the initial Annual WAIRE Report (AWR) submittal.

Staff conducted targeted in-person outreach, focusing on the AB 617 designated community of East Los Angeles, Boyle Heights, West Commerce (ELABHWC). Staff conducted site visits to 16 warehouse buildings in the ELABHWC community boundary to disseminate Rule 2305 program information, collect contact information for warehouse owners/operators, advise onsite personnel of Rule 2305 requirements, and provide technical assistance if needed. Staff previously visited warehouses in the San Bernardino/Muscoy community and will continue to prioritize site visits in all AB 617 communities in the future.

Staff met with several warehouse owners/operators virtually to discuss reported information identified as business confidential. This feedback will be used to develop an approach for addressing business confidentiality concerns when data reported through the WAIRE Program becomes publicly accessible later during implementation of the program via the online F.I.N.D. tool. Ongoing WAIRE Program implementation also included continuing review of rule related reports (e.g., the Warehouse Operations Notifications (WONs) and ISIRs).

Anticipated Activities in March

- Continue to conduct outreach to Phase 1 and Phase 2 warehouse operators to advise of Rule 2305 requirements, including tracking truck trips and earning WAIRE Points for the 2022 and 2023 compliance period.
- Continue to analyze data submitted through R2305 reports (e.g., WONs, ISIRs, AWRs, early action AWRs).
- Continue to develop an approach for addressing business confidentiality concerns and making WAIRE Program data publicly accessible via the online F.I.N.D. tool on the South Coast AQMD website.
- Update the WAIRE Implementation Guidelines to include an appendix regarding the approved policy for campus style report filings, anticipated to be active for 2023 compliance period report submittals.
- Continue to enhance WAIRE POP to support improved functionality (e.g., report amendments).

- Notes:**
1. ECRP Compliance Option.
 2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.
 3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.
 4. Totals may vary slightly due to rounding.

BOARD MEETING DATE: April 7, 2023

AGENDA NO.

REPORT: Lead Agency Projects and Environmental Documents Received

SYNOPSIS: This report provides a listing of CEQA documents received by South Coast AQMD between February 1, 2023 and February 28, 2023, and those projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

COMMITTEE: Mobile Source, March 17, 2023, Reviewed

RECOMMENDED ACTION:
Receive and file.

Wayne Nastri
Executive Officer

SR:MK:MM:SW:ET

CEQA Document Receipt and Review Logs (Attachments A and B) – Each month, South Coast AQMD receives numerous CEQA documents from other public agencies on projects that could adversely affect air quality. A listing of all documents received during the reporting period February 1, 2023 to February 28, 2023 is included in Attachment A. A total of 49 CEQA documents were received during this reporting period and 7 comment letters were sent. A list of active projects for which South Coast AQMD staff is continuing to evaluate or prepare comments for December 2022 and January 2023 reporting period is included as Attachment B.

The Intergovernmental Review function, which consists of reviewing and commenting on the adequacy of the air quality analysis in CEQA documents prepared by other lead agencies, is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4. As required by the Environmental Justice Program Enhancements for FY 2002-03, approved by the Board in October 2002, each attachment notes proposed projects where South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. South Coast

AQMD has established an internal central contact to receive information on projects with potential air quality-related environmental justice concerns. The public may contact South Coast AQMD about projects of concern by the following means: in writing via fax, email, or standard letters; through telephone communication; and as part of oral comments at South Coast AQMD meetings or other meetings where South Coast AQMD staff is present. The attachments also identify, for each project, the dates of the public comment period and the public hearing date, if applicable. Interested parties should rely on the lead agencies themselves for definitive information regarding public comment periods and hearings as these dates are occasionally modified by the lead agency.

In January 2006, the Board approved the Workplan for the Chairman's Clean Port Initiatives. One action item of the Chairman's Initiatives was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In response to describing goods movement, CEQA documents (Attachments A and B) are organized to group projects of interest into the following categories: goods movement projects; schools; landfills and wastewater projects; airports; general land use projects, etc. In response to the mitigation component, guidance information on mitigation measures was compiled into a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases. These mitigation measure tables are on the CEQA webpages portion of South Coast AQMD's website at: <http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies>. Staff will continue compiling tables of mitigation measures for other emission sources.

Staff focuses on reviewing and preparing comments for projects: where South Coast AQMD is a responsible agency; that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); where environmental justice concerns have been raised; and which a lead or responsible agency has specifically requested South Coast AQMD review. If staff provided written comments to the lead agency as noted in the column "Comment Status," there is a link to the "South Coast AQMD Letter" under the Project Description. In addition, if staff testified at a hearing for the proposed project, a notation is provided under the "Comment Status." If there is no notation, then staff did not provide testimony at a hearing for the proposed project.

During the period of February 1, 2023 to February 28, 2023, South Coast AQMD received 49 CEQA documents which are listed in the Attachment A. In addition, there are 7 documents from earlier that either have been reviewed or are still under review. Those are listed in the Attachment B. The current status of the total 56 documents from Attachment A and B are summarized as follows:

- 7 comment letters were sent;
- 27 documents were reviewed, but no comments were made;
- 22 documents are currently under review.

(The above statistics are from February 1, 2023 to February 28, 2023 and may not include the most recent “Comment Status” updates in Attachments A and B.)

Copies of all comment letters sent to lead agencies can be found on South Coast AQMD’s CEQA webpage at the following internet address:

<http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>.

South Coast AQMD Lead Agency Projects (Attachment C) – Pursuant to CEQA, South Coast AQMD periodically acts as lead agency for stationary source permit projects. Under CEQA, the lead agency is responsible for determining the type of CEQA document to be prepared if the proposal for action is considered to be a “project” as defined by CEQA. For example, an Environmental Impact Report (EIR) is prepared when South Coast AQMD, as lead agency, finds substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if South Coast AQMD determines that the project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are written statements describing the reasons why projects will not have a significant adverse effect on the environment and, therefore, do not require the preparation of an EIR.

Attachment C to this report summarizes the active projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation. As noted in Attachment C, South Coast AQMD continued working on the CEQA documents for two active projects during February 2023.

INCOMING CEQA DOCUMENTS LOG
February 1, 2023 to February 28, 2023

SOUTH COAST AQMD LOG-IN NUMBER PROJECT TITLE	PROJECT DESCRIPTION	TYPE OF DOC.	LEAD AGENCY	COMMENT STATUS
Goods Movement LAC230207-16 Star-Kist Cannery Facility Project	Staff provided comments on the Recirculated Mitigated Negative Declaration for the project, which can be accessed at: http://www.aqmd.gov/docs/default-source/ceqa/comment-letters/2021/december/LAC211104-04.pdf . The project consists of demolition of an existing 2,254 square foot building for future development of cargo support uses on 14 acres. The project is located on the southeast corner of Ways Street and Bass Street within the Port of Los Angeles in the designated AB 617 Wilmington, Carson, West Long Beach community. Reference LAC211104-04, and LAC191217-01. Comment Period: N/A Public Hearing: 2/9/2023	Final Initial Study/Mitigated Negative Declaration	City of Los Angeles Harbor Department	Document reviewed - No comments sent for this document received
Warehouse & Distribution Centers LAC230201-03 Green Trucking Facility and Container Storage Project	The project consists of demolition of existing buildings and equipment and construction of a 210,940 square foot storage yard facility. The project is located on the northwest corner of Harbor Avenue and West 17th Street in the designated AB 617 Wilmington, Carson, West Long Beach community. LAC221227-03 Comment Period: N/A Public Hearing: N/A	Response to Comments	City of Long Beach	Document reviewed - No comments sent for this document received
Warehouse & Distribution Centers LAC230214-03 Irwindale Gateway Specific Plan	The project consists of construction of three warehouses totaling 954,796 square feet, 28,000 square feet of office uses, and 253,736 square feet of landscaping uses on 68.1 acres. The project is located bounded by Live Oak Lane to the north and east, Live Oak Avenue to the south, and Interstate 605 to the west. Comment Period: 2/10/2023 - 3/18/2023 Public Hearing: 3/3/2023	Notice of Preparation	City of Irwindale	** Under review, may submit written comments
Warehouse & Distribution Centers LAC230214-05 East End Studios ADLA	The project consists of demolition of two warehouses totaling 622,000 square feet and construction of a 674,175 square foot production studio campus on 14.6 acres. The project is located on the southeast corner of Alameda Street and 6th Street. Comment Period: 2/9/2023 - 3/10/2023 Public Hearing: 2/23/2023	Notice of Preparation	City of Los Angeles	** Under review, may submit written comments

*Sorted by Land Use Type (in order of land uses most commonly associated with air quality impacts), followed by County, then date received.

- Project has potential environmental justice concerns due to the nature and/or location of the project.

** Disposition may change prior to Governing Board Meeting

Documents received by the CEQA Intergovernmental Review program but not requiring review are not included in this report.

PROJECTS THROUGH FEBRUARY 28, 2023**

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke, and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs.	Quemetco	Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received. Staff held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Written comments submitted relative to the Draft EIR and oral comments made at the community meetings, along with responses will be included in the Final EIR which is currently being prepared by the consultant.	Trinity Consultants
Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing flares.	Sunshine Canyon Landfill	Subsequent Environmental Impact Report (SEIR)	South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are currently being addressed by the consultant.
