HYBRID MOBILE SOURCE COMMITTEE MEETING

Committee Members

Board Member Gideon Kracov, Chair
Supervisor Holly J. Mitchell, Vice Chair
Mayor Larry McCallon
Supervisor V. Manuel Perez
Council Member Nithya Raman
Council Member Carlos Rodriguez

March 17, 2023 ♦ 9:00 a.m.

TELECONFERENCE LOCATIONS:

Yorba Linda Public Library
Study Room 2
4852 Lakeview Avenue
Yorba Linda, CA 92886

Office of Supervisor V. Manuel Perez
73710 Fred Waring Drive
Suite 222
Palm Desert, CA 92260

Kenneth Hahn Hall of Administration
500 W. Temple Street
HOA Room 374-A
Los Angeles, CA 90012

Los Angeles City Hall
200 N. Spring Street, Room 415
(Conference Room)
Los Angeles, CA 90012

A meeting of the South Coast Air Quality Management District Mobile Source Committee will be held at 9:00 a.m. on Friday, March 17, 2023, through a hybrid format of in-person attendance in the Dr. William A. Burke Auditorium at the South Coast AQMD Headquarters, 21865 Copley Drive, Diamond Bar, California, and/or virtual attendance via videoconferencing and by telephone. Please follow the instructions below to join the meeting remotely.

Given health and safety concerns, seating may be limited, and the meeting format may be changed to full remote via webcast. Please refer to South Coast AQMD's website for information regarding the format of the meeting, updates if the meeting is changed to a full remote via webcast format, and details on how to participate:

<http://www.aqmd.gov/home/news-events/meeting-agendas-minutes>

Face Coverings

In accordance with state and local public health department guidelines, wearing a mask is based on personal preference for people attending the meeting at South Coast AQMD Headquarters.

Cleaning the air that we breathe...

**Audience will be allowed to provide public comment in person
or through Zoom connection or telephone.**

PUBLIC COMMENT WILL STILL BE TAKEN

AGENDA

Members of the public may address this body concerning any agenda item before or during consideration of that item (Gov't. Code Section 54954.3(a)). If you wish to speak, raise your hand on Zoom or press Star 9 if participating by telephone. All agendas for regular meetings are posted at South Coast AQMD Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of the regular meeting. Speakers may be limited to three (3) minutes total for all items on the agenda.

CALL TO ORDER

ROLL CALL

INFORMATIONAL ITEM (Item 1)

**1. Upcoming State Implementation Plan Work
(No Motion Required)**

Staff will present an update on key State Implementation Plan (SIP) activities staff is working on in the upcoming year. Two key items include development of a new PM2.5 Plan for the 2012 annual standard as well as the development of contingency measures related to multiple air quality standards.

Sarah Rees, Ph.D.
Deputy Executive
Officer

WRITTEN REPORTS (Items 2-4)

**2. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program
(No Motion Required)**

The report provides summary information on WAIRE implementation in January 2023, including warehouse reporting, other compliance activities, training and outreach, as well as anticipated future activities.

Ian MacMillan
Assistant Deputy
Executive Officer

3. **Rule 2202 Activity Report: Rule 2202 Summary Status Report** Ian MacMillan
(No Motion Required)
The Rule 2202 Summary Status Report summarizes activities for the period of February 1, 2023 to February 28, 2023. The report identifies the plan submittal activities by option type and lists Air Quality Investment Program funds collected by county.
4. **Lead Agency Projects and Environmental Documents Received** Sarah Rees
(No Motion Required)
This report provides a listing of CEQA documents received by South Coast AQMD in February 2023, and those projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

OTHER MATTERS

5. **Other Business**
Any member of the Committee, or its staff, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Gov't. Code Section 54954.2)
6. **Public Comment Period**
At the end of the regular meeting agenda, an opportunity is provided for the public to speak on any subject within the Committee's authority that is not on the agenda. Speakers may be limited to three (3) minutes each.
7. **Next Meeting Date:** Friday, April 21, 2023 at 9:00 a.m.

ADJOURNMENT

Americans with Disabilities Act and Language Accessibility

Disability and language-related accommodations can be requested to allow participation in the Mobile Source Committee meeting. The agenda will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov't Code Section 54954.2(a)). In addition, other documents may be requested in alternative formats and languages. Any disability or language-related accommodation must be requested as soon as practicable. Requests will be accommodated unless providing the accommodation would result in a fundamental alteration or undue burden to the South Coast AQMD. Please contact Angela Kim at (909) 396-2590 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to akim@aqmd.gov.

Document Availability

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the agenda is posted, are available by contacting Angela Kim at (909) 396-2590 or send the request to akim@aqmd.gov.

INSTRUCTIONS FOR ELECTRONIC PARTICIPATION

Instructions for Participating in a Virtual Meeting as an Attendee

As an attendee, you will have the opportunity to virtually raise your hand and provide public comment.

Before joining the call, please silence your other communication devices such as your cell or desk phone. This will prevent any feedback or interruptions during the meeting.

Please note: During the meeting, all participants will be placed on Mute by the host. You will not be able to mute or unmute your lines manually.

After each agenda item, the Chairman will announce public comment.

A countdown timer will be displayed on the screen for each public comment.

If interpretation is needed, more time will be allotted.

Once you raise your hand to provide public comment, your name will be added to the speaker list. Your name will be called when it is your turn to comment. The host will then unmute your line.

Directions for Video ZOOM on a DESKTOP/LAPTOP:

- If you would like to make a public comment, please click on the “Raise Hand” button on the bottom of the screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for Video Zoom on a SMARTPHONE:

- If you would like to make a public comment, please click on the “Raise Hand” button on the bottom of your screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for TELEPHONE line only:

- If you would like to make public comment, please dial *9 on your keypad to signal that you would like to comment.

Upcoming State Implementation Plan Work

South Coast AQMD
Mobile Source Committee

March 17, 2023

1

1

Outline

- Annual PM2.5 National Ambient Air Quality Standard Revised Plan for the South Coast Air Basin
- Contingency Measures

2

2

Annual PM2.5 National Ambient Air Quality Standard Plan for the South Coast Air Basin

3

3

Need for a Revised Plan

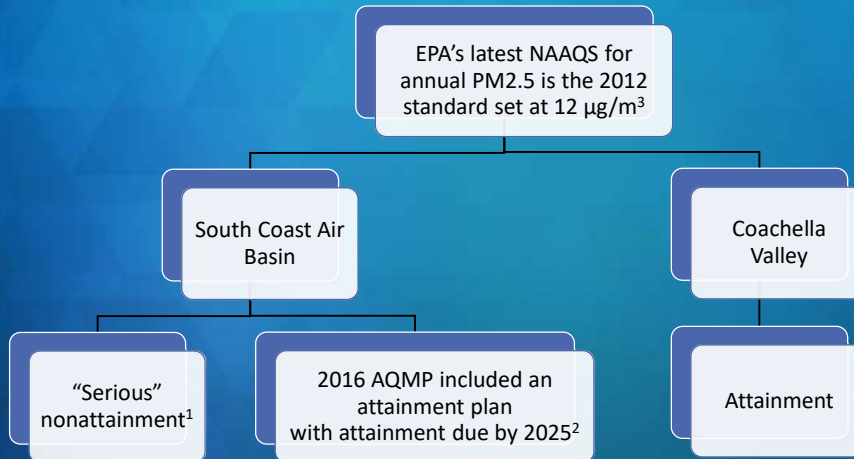

- South Coast AQMD submitted a plan to meet the annual PM2.5 standard to EPA for approval in 2017 – part of the 2016 AQMP
 - EPA failed to take action on that plan
- Since that time we have been collecting data from near-road monitors as required by EPA's rules
 - Currently the highest levels of PM2.5 are at a near-road site
 - The plan submitted in 2017 did not account for near-road monitoring data
- EPA was recently sued for failure to act on the plan
- EPA has indicated that the plan is no longer approvable as it does not account for the near-road data

Need to develop and submit a new plan to avoid a disapproval which would trigger FIP and sanctions

4

4

Annual PM2.5 Standard Background

¹ Reclassification from "moderate" to "serious" approved by U.S. EPA effective December 9, 2020 (85 FR 71264)

² U.S. EPA is considering a new standard in the range of 9-10 µg/m³. If a new standard goes into effect, an additional plan will be required.

5

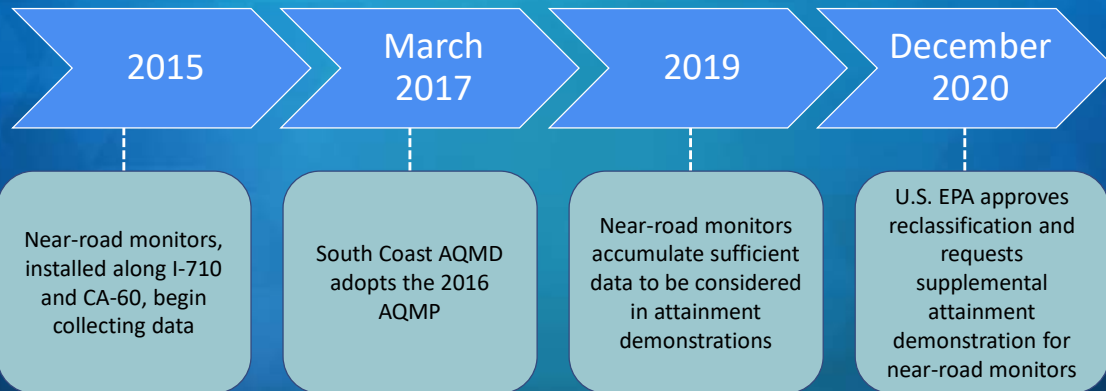

Annual PM2.5 Trend in the South Coast Air Basin

*Data likely to be approved as exceptional events by U.S. EPA were removed.

6

Near-Road Monitors

Based on 2019-2021 data, the CA-60 monitor has the highest PM_{2.5} level (14.2 µg/m³) in the Basin

7

7

Challenges for Revised Annual PM_{2.5} Plan

- Need for NO_x emission reductions
 - Shortfall of emission reductions for attainment of the ozone standard by 2023
 - NO_x control strategy in 2022 AQMP will help, but insufficient by itself
- Need for both direct PM_{2.5} and precursor emission reductions
 - U.S. EPA recently proposed strengthening the annual PM_{2.5} standard to between 9 and 10 µg/m³
 - Reducing emissions to attain the 12 µg/m³ standard will assist with attainment of the new standard

8

8

8

Preliminary Control Concepts

- Pursue co-benefits of the 2022 AQMP control strategy for ozone attainment
- Controls on directly emitted PM2.5 and its precursors will be needed
- Demonstrate attainment by 2030

9

9

SIP Development Public Process

Summer/Fall 2023
• AQMP & STMPR Advisory Group Meetings

Fall 2023
• Regional Workshops
• CEQA Scoping Meeting

Spring 2024
• Regional Public Hearings

Spring 2024
• Public Hearing for South Coast AQMD Board adoption

Spring 2024
• Public Hearing for CARB adoption and submittal to EPA

10

10

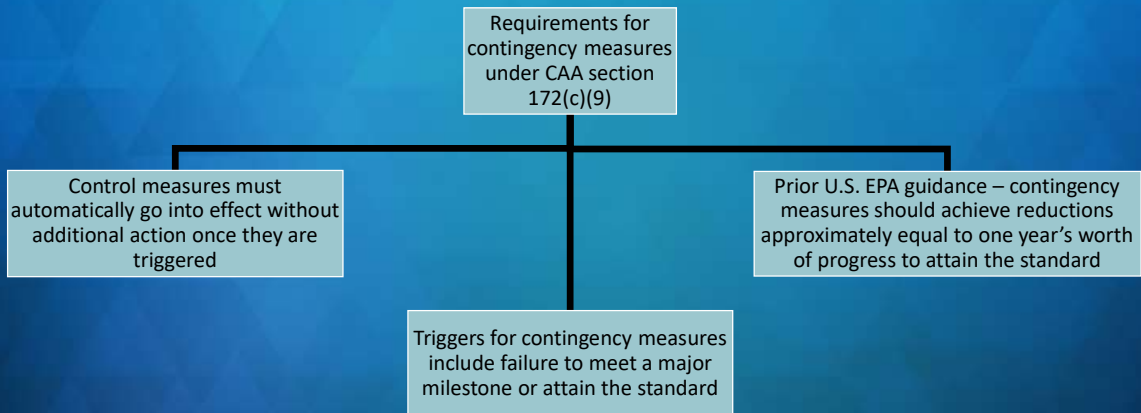

9

Contingency Measures

11

11

Contingency Measure Background

12

12

Recent Development Led by Court Decisions

*Bahr v. U.S. EPA**

- EPA historically allowed ongoing implementation of adopted rules and programs that bring excess reductions to be used as a contingency measure
- The court decided that adopted measures cannot be relied on as contingency unless the measure includes a triggering mechanism

Association of Irrigated Residents v. U.S. EPA^

- EPA allowed excess emission reductions from ongoing implementation of rules and programs to be counted toward the one-year's worth of reduction
- The court decided that the contingency measure must account for entirety of reductions, which is approximately 3% of base year emissions

*Bahr v. U.S. Environmental Protection Agency, 836 F.3d 1218 (9th Cir. 2016)

^Association of Irrigated Residents v. U.S. Environmental Protection Agency, 10 F. 4th 937 (9th Cir. 2021)

13

13

Contingency Measure Challenges

Given the maturity of existing air programs, there are no identifiable measures that can achieve one year's worth of progress

- Already required to take all feasible measures
- No single control measure in 2016 & 2022 AQMPs achieves the required reductions

EPA currently revising national contingency measure guidance

- The new guidance may provide a path forward, but until finalized this is unclear

14

14

Adopted and Proposed Contingency Measures

Rule 445 amended in June 2020 and October 2020 to include contingency provisions for all PM2.5 and ozone standards in the South Coast Air Basin

U.S. EPA approved Rule 445 as contingency measure satisfying the “serious” and “moderate” area requirements for the 2006 24-hour and 2012 annual PM2.5 standards, respectively*

U.S. EPA has not approved contingency measure for ozone standards

* 87 FR 12866

15

15

2008 Ozone Standard for Coachella Valley

South Coast AQMD will review EPA's guidance for contingency measures once it becomes available

16

16

12

Summary

- Basin is currently in “serious” nonattainment of the 2012 annual PM2.5 standard
- Withdrawing the 2016 AQMP “serious” area plan will avoid disapproval by EPA and allow more time to meet the standard
- New plan will be comprehensive and include controls that go beyond the NOx control strategy in the 2022 AQMP
- Staff will need to develop contingency measures that are surplus to the attainment control strategy for ozone and PM2.5, potentially before EPA’s guidance is issued to meet the April 2024 deadline for Coachella Valley

Rule 2305 Implementation Status Report:
Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program

February 1, 2023 to March 2, 2023¹

1. Implementation and Outreach Activities:

Activity	Since Last Report	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909 396-3140) and Helpdesk (waire-program@aqmd.gov)	610	3,489
Views of Compliance Training Videos (outside of webinars)	251	4,994
Emails Sent with Information About WAIRE Program Resources	11,495	~42,001
Visits to www.aqmd.gov/waire	3,084	~31,874
Presentations to Stakeholders	0	142

2. Highlights of Recent Implementation Activities

Staff focused on working with warehouse operators as they prepared to file their first Annual WAIRE Reports (AWRs) through the WAIRE Program Online Portal (POP). In January, unforeseen issues were identified in WAIRE POP that affected many users. AWRs were subsequently allowed to be submitted through March 2 as issues to WAIRE POP were immediately addressed and deployed on February 1, 2023. One additional upgrade to WAIRE POP was made available for a small subset of users (warehouse facility owners and landowners voluntarily earning WAIRE Points) on February 23, 2023.

As of March 2, 2023, 456 warehouse operators had submitted their AWRs. At the reporting deadline, 165 of those operators still needed to submit their fees (including mitigation fees, as applicable). An additional 46 warehouse operators had also initiated AWRs in WAIRE POP, but had not yet filed their report. Approximately 1,019 warehouses were expected to file an AWR as a Phase 1 warehouse (having a warehouse size greater than or equal to 250,000 square feet) by the required deadline. As stated in the First Annual WAIRE Report, Phase 1 facilities were anticipated to have a WAIRE Points Compliance Obligation of about 61,000 points. The 456 operators who have already submitted an AWR reported that they earned about 42,000 points. Approximately \$8 million of those points were earned through mitigation fees, of which about \$3 million had been submitted by the deadline. Staff will continue to reach out to warehouse operators to ensure they are fully complying with the rule and will also report back in the future as data from AWRs is analyzed and audited.

¹ Most monthly reports to Mobile Source Committee cover activities in the previous calendar month. As the compliance deadline for Phase 1 ended March 2, this report also includes the first two days of March.

WAIRE Program staff conducted WAIRE Program Compliance Webinar #7 on February 15, 2023. Staff presented an overview of the AWR and provided information on the WAIRE POP AWR web forms and functionality. Training materials provided in this webinar are available here: <http://www.aqmd.gov/home/rules-compliance/compliance/waire-program/training-videos>. Approximately 140 people participated in the webinar. Questions from attendees focused on truck trip counting and how to input WAIRE Points earned from actions and investments from the WAIRE Menu into WAIRE POP. Participants also inquired about applicability of warehouse operations and specific warehouse operations scenarios.

Staff has continued targeted outreach to Phase 1 facilities (warehouses \geq 250,000 square feet) that had not yet submitted an Initial Site Information Report (ISIR) and has continued to respond to WAIRE Program emails and hotline calls. These efforts included conducting virtual consultation sessions to various stakeholders to broaden outreach efforts and provide technical support as stakeholders prepared for the initial Annual WAIRE Report (AWR) submittal.

Staff conducted targeted in-person outreach, focusing on the AB 617 designated community of East Los Angeles, Boyle Heights, West Commerce (ELABHWC). Staff conducted site visits to 16 warehouse buildings in the ELABHWC community boundary to disseminate Rule 2305 program information, collect contact information for warehouse owners/operators, advise onsite personnel of Rule 2305 requirements, and provide technical assistance if needed. Staff previously visited warehouses in the San Bernardino/Muscoy community and will continue to prioritize site visits in all AB 617 communities in the future.

Staff met with several warehouse owners/operators virtually to discuss reported information identified as business confidential. This feedback will be used to develop an approach for addressing business confidentiality concerns when data reported through the WAIRE Program becomes publicly accessible later during implementation of the program via the online F.I.N.D. tool. Ongoing WAIRE Program implementation also included continuing review of rule related reports (e.g., the Warehouse Operations Notifications (WONs) and ISIRs).

Anticipated Activities in March

- Continue to conduct outreach to Phase 1 and Phase 2 warehouse operators to advise of Rule 2305 requirements, including tracking truck trips and earning WAIRE Points for the 2022 and 2023 compliance period.
- Continue to analyze data submitted through R2305 reports (e.g., WONs, ISIRs, AWRs, early action AWRs).
- Continue to develop an approach for addressing business confidentiality concerns and making WAIRE Program data publicly accessible via the online F.I.N.D. tool on the South Coast AQMD website.
- Update the WAIRE Implementation Guidelines to include an appendix regarding the approved policy for campus style report filings, anticipated to be active for 2023 compliance period report submittals.
- Continue to enhance WAIRE POP to support improved functionality (e.g., report amendments).

- Notes:**
1. ECRP Compliance Option.
 2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.
 3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.
 4. Totals may vary slightly due to rounding.

BOARD MEETING DATE: April 7, 2023

AGENDA NO.

REPORT: Lead Agency Projects and Environmental Documents Received

SYNOPSIS: This report provides a listing of CEQA documents received by South Coast AQMD between February 1, 2023 and February 28, 2023, and those projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

COMMITTEE: Mobile Source, March 17, 2023, Reviewed

RECOMMENDED ACTION:
Receive and file.

Wayne Nastri
Executive Officer

SR:MK:MM:SW:ET

CEQA Document Receipt and Review Logs (Attachments A and B) – Each month, South Coast AQMD receives numerous CEQA documents from other public agencies on projects that could adversely affect air quality. A listing of all documents received during the reporting period February 1, 2023 to February 28, 2023 is included in Attachment A. A total of 49 CEQA documents were received during this reporting period and 7 comment letters were sent. A list of active projects for which South Coast AQMD staff is continuing to evaluate or prepare comments for December 2022 and January 2023 reporting period is included as Attachment B.

The Intergovernmental Review function, which consists of reviewing and commenting on the adequacy of the air quality analysis in CEQA documents prepared by other lead agencies, is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4. As required by the Environmental Justice Program Enhancements for FY 2002-03, approved by the Board in October 2002, each attachment notes proposed projects where South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. South Coast

AQMD has established an internal central contact to receive information on projects with potential air quality-related environmental justice concerns. The public may contact South Coast AQMD about projects of concern by the following means: in writing via fax, email, or standard letters; through telephone communication; and as part of oral comments at South Coast AQMD meetings or other meetings where South Coast AQMD staff is present. The attachments also identify, for each project, the dates of the public comment period and the public hearing date, if applicable. Interested parties should rely on the lead agencies themselves for definitive information regarding public comment periods and hearings as these dates are occasionally modified by the lead agency.

In January 2006, the Board approved the Workplan for the Chairman's Clean Port Initiatives. One action item of the Chairman's Initiatives was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In response to describing goods movement, CEQA documents (Attachments A and B) are organized to group projects of interest into the following categories: goods movement projects; schools; landfills and wastewater projects; airports; general land use projects, etc. In response to the mitigation component, guidance information on mitigation measures was compiled into a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases. These mitigation measure tables are on the CEQA webpages portion of South Coast AQMD's website at: <http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies>. Staff will continue compiling tables of mitigation measures for other emission sources.

Staff focuses on reviewing and preparing comments for projects: where South Coast AQMD is a responsible agency; that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); where environmental justice concerns have been raised; and which a lead or responsible agency has specifically requested South Coast AQMD review. If staff provided written comments to the lead agency as noted in the column "Comment Status," there is a link to the "South Coast AQMD Letter" under the Project Description. In addition, if staff testified at a hearing for the proposed project, a notation is provided under the "Comment Status." If there is no notation, then staff did not provide testimony at a hearing for the proposed project.

During the period of February 1, 2023 to February 28, 2023, South Coast AQMD received 49 CEQA documents which are listed in the Attachment A. In addition, there are 7 documents from earlier that either have been reviewed or are still under review. Those are listed in the Attachment B. The current status of the total 56 documents from Attachment A and B are summarized as follows:

- 7 comment letters were sent;
- 27 documents were reviewed, but no comments were made;
- 22 documents are currently under review.

(The above statistics are from February 1, 2023 to February 28, 2023 and may not include the most recent “Comment Status” updates in Attachments A and B.)

Copies of all comment letters sent to lead agencies can be found on South Coast AQMD’s CEQA webpage at the following internet address:

<http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>.

South Coast AQMD Lead Agency Projects (Attachment C) – Pursuant to CEQA, South Coast AQMD periodically acts as lead agency for stationary source permit projects. Under CEQA, the lead agency is responsible for determining the type of CEQA document to be prepared if the proposal for action is considered to be a “project” as defined by CEQA. For example, an Environmental Impact Report (EIR) is prepared when South Coast AQMD, as lead agency, finds substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if South Coast AQMD determines that the project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are written statements describing the reasons why projects will not have a significant adverse effect on the environment and, therefore, do not require the preparation of an EIR.

Attachment C to this report summarizes the active projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation. As noted in Attachment C, South Coast AQMD continued working on the CEQA documents for two active projects during February 2023.

ACTIVE SOUTH COAST AQMD LEAD AGENCY
PROJECTS THROUGH FEBRUARY 28, 2023

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
<p>Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke, and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs.</p>	<p>Quemetco</p>	<p>Environmental Impact Report (EIR)</p>	<p>The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received.</p> <p>Staff held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Written comments submitted relative to the Draft EIR and oral comments made at the community meetings, along with responses will be included in the Final EIR which is currently being prepared by the consultant.</p>	<p>Trinity Consultants</p>
<p>Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing flares.</p>	<p>Sunshine Canyon Landfill</p>	<p>Subsequent Environmental Impact Report (SEIR)</p>	<p>South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are currently being addressed by the consultant.</p>	<p>SCS Engineers</p>
