HYBRID MOBILE SOURCE COMMITTEE MEETING

Committee Members

Board Member Gideon Kracov, Committee Chair Supervisor Holly J. Mitchell, Committee Vice Chair Mayor Larry McCallon Supervisor V. Manuel Perez Councilmember Nithya Raman Councilmember Carlos Rodriguez

October 20, 2023 \$ 9:00 a.m.

TELECONFERENCE LOCATIONS:

Yorba Linda Public Library Study Room 2 4852 Lakeview Avenue Yorba Linda, CA 92886

Los Angeles City Hall 200 N. Spring Street, Room 415 (Conference Room) Los Angeles, CA 90012 County of Riverside Assessor-County Clerk-Recorder 41002 County Center Dr., Suite 230 Temecula, CA 92591

Kenneth Hahn Hall of Administration 500 W. Temple Street HOA Room 374-A Los Angeles, CA 90012

A meeting of the South Coast Air Quality Management District Mobile Source Committee will be held at 9:00 a.m. on Friday, October 20, 2023, through a hybrid format of in-person attendance in the Dr. William A. Burke Auditorium at the South Coast AQMD Headquarters, 21865 Copley Drive, Diamond Bar, California, and remote attendance via videoconferencing and by telephone. Please follow the instructions below to join the meeting remotely.

Please refer to the South Coast AQMD's website for information regarding the format of the meeting, updates if the meeting is changed to a full remote via webcast format, and details on how to participate: http://www.aqmd.gov/home/news-events/meeting-agendas-minutes

ELECTRONIC PARTICIPATION INFORMATION

Audience will be allowed to provide public comment in person or through Zoom connection or telephone.

PUBLIC COMMENT WILL STILL BE TAKEN

AGENDA

Members of the public may address this body concerning any agenda item before or during consideration of that item (Gov't. Code Section 54954.3(a)). If you wish to speak, raise your hand on Zoom or press Star 9 if participating by telephone. All agendas for regular meetings are posted at South Coast AQMD Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of the regular meeting. Speakers may be limited to three (3) minutes total for all items on the agenda.

CALL TO ORDER

ROLL CALL

INFORMATIONAL ITEMS (Items 1-2)

1. Status Update on South Coast Air Basin Attainment Plan for the 2012 Annual PM2.5 Standard

(No Motion Required)

Staff will provide an update on the development of the Plan to meet the 2012 Annual PM2.5 air quality standard, including specific plan elements required by U.S. EPA.

Sang-Mi Lee Planning & Rules Manager

2. Annual Report on AB 2766 Funds from Motor Vehicle Registration Fees for Fiscal Year 2021-2022

(No Motion Required)

Staff will present a summary of AB 2766 Program activities for Fiscal Year 2021-2022.

Lane Garcia
Program Supervisor

WRITTEN REPORTS (Items 3-5)

3. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program (No Motion Required)

This report summarizes the status of WAIRE Program implementation for the period of September 1, 2023 to September 30, 2023, including training, outreach, implementation and compliance activities as well as anticipated actions for the following month.

Ian MacMillan
Assistant Deputy
Executive Officer

4. Rule 2202 Activity Report: Rule 2202 Summary Status Report (No Motion Required)

Status Report summarizes activities for the period of January 1, 2023 to September 30, 2023. The report identifies the plan submittal activities by option type and lists Air Quality Investment Program funds collected by county.

Ian MacMillan Assistant Deputy Executive Officer

5. Intergovernmental Review of Environmental Documents and CEQA Lead Agency Projects (No Motion Required)

Dr. Sarah L. Rees Deputy Executive Officer

This report provides a listing of environmental documents prepared by other public agencies seeking review by South Coast AQMD between September 1, 2023 and September 30, 2023, and proposed projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

OTHER MATTERS

6. Other Business

Any member of the Committee, or its staff, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Gov't. Code Section 54954.2)

7. Public Comment Period

At the end of the regular meeting agenda, an opportunity is provided for the public to speak on any subject within the Committee's authority that is not on the agenda. Speakers may be limited to three (3) minutes each.

8. Next Meeting Date: Friday, November 17, 2023 at 9:00 a.m.

ADJOURNMENT

Americans with Disabilities Act and Language Accessibility

Disability and language-related accommodations can be requested to allow participation in the Mobile Source Committee meeting. The agenda will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov't Code Section 54954.2(a)). In addition, other documents may be requested in alternative formats and languages. Any disability or language-related accommodation must be requested as soon as practicable. Requests will be accommodated unless providing the accommodation would result in a fundamental alteration or undue burden to the South Coast AQMD. Please contact Jacob Allen at (909) 396-2282 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to jallen2@agmd.gov.

Document Availability

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the agenda is posted, are available by contacting Jacob Allen at (909) 396-2282 or send the request to jallen2@aqmd.gov.

INSTRUCTIONS FOR ELECTRONIC PARTICIPATION

Instructions for Participating in a Virtual Meeting as an Attendee

As an attendee, you will have the opportunity to virtually raise your hand and provide public comment.

Before joining the call, please silence your other communication devices such as your cell or desk phone. This will prevent any feedback or interruptions during the meeting.

Please note: During the meeting, all participants will be placed on Mute by the host. You will not be able to mute or unmute your lines manually.

After each agenda item, the Chairman will announce public comment.

A countdown timer will be displayed on the screen for each public comment.

If interpretation is needed, more time will be allotted.

Once you raise your hand to provide public comment, your name will be added to the speaker list. Your name will be called when it is your turn to comment. The host will then unmute your line.

Directions for Video ZOOM on a DESKTOP/LAPTOP:

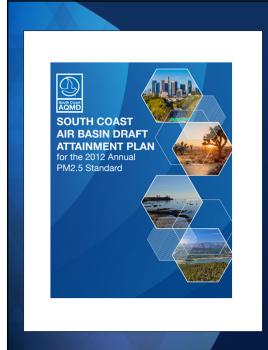

- If you would like to make a public comment, please click on the "Raise Hand" button on the bottom of the screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for Video Zoom on a SMARTPHONE:

- If you would like to make a public comment, please click on the "Raise Hand" button on the bottom of your screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for TELEPHONE line only:

• If you would like to make public comment, please dial *9 on your keypad to signal that you would like to comment.

Status Update on South Coast Air Basin Attainment Plan for the 2012 Annual PM2.5 Standard

Mobile Source Committee
October 20, 2023

1

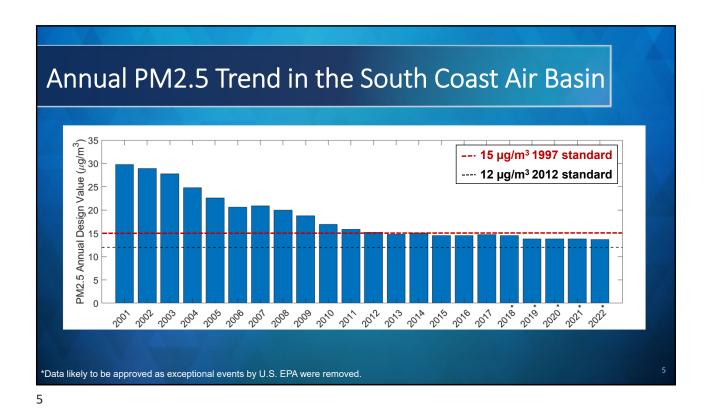

Summary

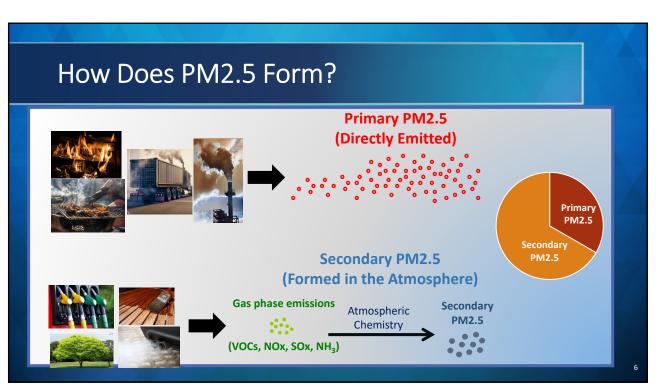

- South Coast AQMD is developing a new plan to demonstrate attainment of the annual PM2.5 standard for the South Coast Air Basin
- Staff presented the need to develop a new PM2.5 plan in March 2023 Mobile Source Committee
- Since then, staff updated the emissions inventory and modeling platform and developed an innovative approach for attainment demonstration
- The updated approach indicates a continued NOx strategy is needed for ozone attainment and is critical to meet the PM2.5 standard
- Only limited PM2.5 and ammonia controls may be needed to meet U.S. EPA's requirements

PM2.5 is particulate matter less than 2.5 μm in diameter
 Linked to adverse cardiovascular and respiratory health effects (premature death, asthma, lung cancer, etc.)
 Evidence suggests link to metabolic system, nervous system, cognition, and reproductive and developmental effects
 Exposure to PM2.5 drives majority of public health costs due to air pollution in our region

,

Annual PM2.5 Standard

U.S. EPA's latest NAAQS for annual PM2.5 is the 2012 standard set at 12 $\mu g/m^3$

South Coast Air Basin is in "serious" nonattainment¹
2016 AQMP included an attainment plan with attainment due by 2025²

Coachella Valley is in attainment of this standard

- ¹ Reclassification from "moderate" to "serious" approved by U.S. EPA effective December 9, 2020 (85 FR 71264)
- ² U.S. EPA is considering a new standard in the range of 9-10 μg/m³. If a new standard goes into effect, an additional plan will be required.

7

Need to Develop Revised PM2.5 Plan

Near-Road Station

 As of 1/1/2020, Near-Road monitors accumulated sufficient data to be used in attainment demonstration

EPA was legally challenged for failure to act on the Plan in 2023

 The submitted plan was withdrawn to avoid potential disapproval A new attainment plan is needed to to reflect more recent emissions and demographics This PM plan will demonstrate attainment of the 2012 annual PM2.5 standard in 2030 for the South Coast Air Basin

8

PM2.5 Precursors

- PM2.5 is both directly emitted and formed secondarily via reactions of precursors in the atmosphere
- U.S. EPA requires direct PM2.5 and all precursors to meet SIP planning requirements

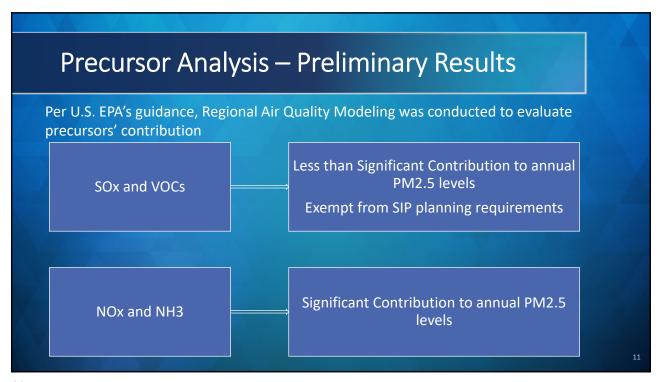

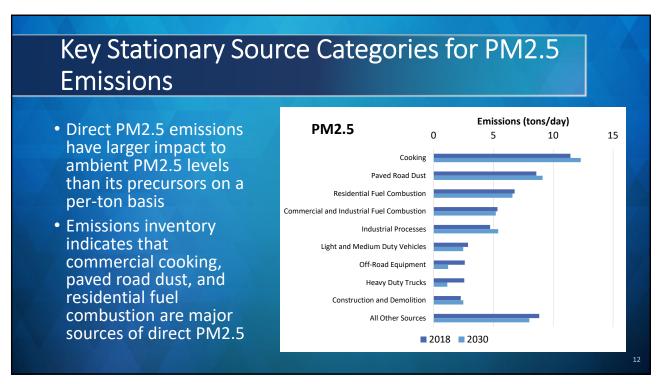

9

Precursor Demonstration

Can demonstrate that a particular precursor does not contribute to PM2.5 levels significantly in the nonattainment area

Successful demonstration waives all SIP planning requirements such as Best Available Control Measure (BACM), control measure and contingency measure

Best Available Control Measure (BACM) and Most Stringent Measure (MSM)

BACM

- Required for all "serious" areas
- The maximum degree of emissions reduction achievable from a source or source category
- Must be implemented within 4 years of reclassification, December 9, 2024
- If cannot be implemented by the due date due to technological and economic infeasibility, no longer BACM

MSM

- Required for "serious" areas that request up to 5 year extension for attainment
- The maximum degree of emission reduction that has been **required or achieved** from a source or source category in any other attainment plans or in any other states
- Must be implemented no later than 1 year prior to attainment date, December 31, 2029
- If cannot be implemented by the due date due to technological and economic infeasibility, no longer MSM

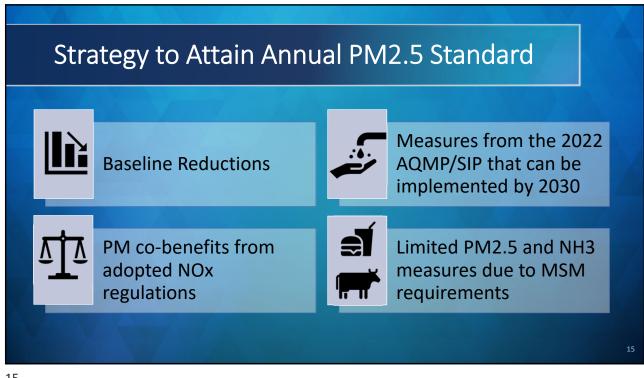

13

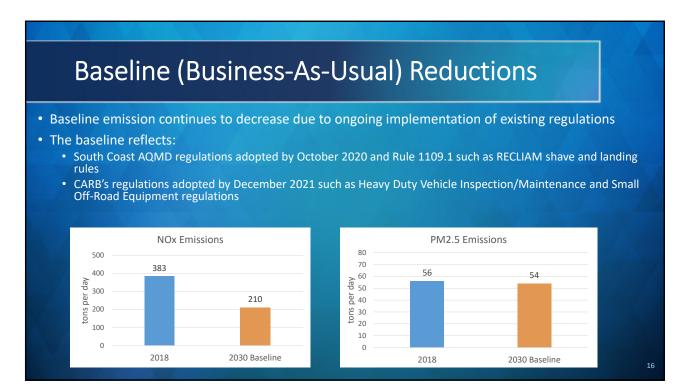

13

Control Measures Identified as MSM

- While MSM evaluation is still under development, two examples of potential MSM are listed below
- If identified as MSM, South Coast AQMD is required to pursue rulemaking and implement the measures by December 31, 2029

Control Measure	Target Pollutant	Description	Applicable Rule
Further Emission Reductions from Wood Burning Fireplaces and Wood Stoves	PM2.5	Clean wood burning devices and curtailment	Rule 445
Further Emission Reductions from Commercial Cooking	PM2.5	Lower applicability threshold for chain- driven charbroilers to match the stringency in SJVAPCD Rule 4692	Rule 1138

Measures from the 2022 AQMP/SIP that can be Implemented by 2030

South Coast AQMD Stationary Sources

- Zero emission building measures*
- Transition to zero and low NOx in large combustion source measures, including reductions from Emergency Standby Engines

South Coast AQMD Mobile Sources

- Incentive programs for mobile sources
- On-going implementation of facility based measures

CARB Mobile Sources

- Various on-road and off-road measures such as
 - Advanced Clean Fleet Regulation
 - Zero Emissions Trucks Measure
 - Advanced Clean Cars part II
 - Tier 5 Off-Road Vehicles and Equipment
 - In-Use Locomotive Regulations
 - In-Use Off-Road Diesel-Fueled Fleets Regulation
 - Transport Refrigeration Unit Regulation II
 - Commercial Harbor Craft Amendments
 - Cargo Handling Equipment Amendments

* Residential and Commercial Space and Water heating measures are overlapped with CARB's commitments

17

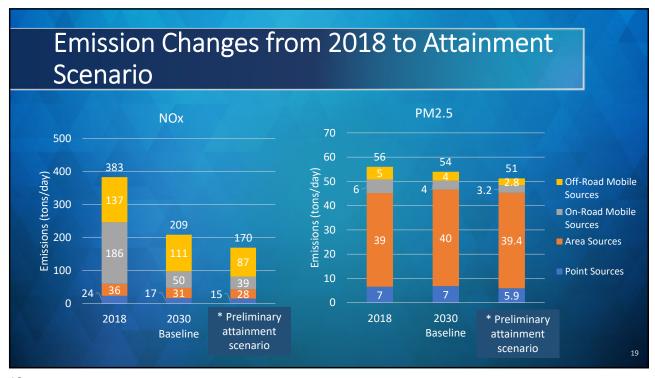

Other Measures

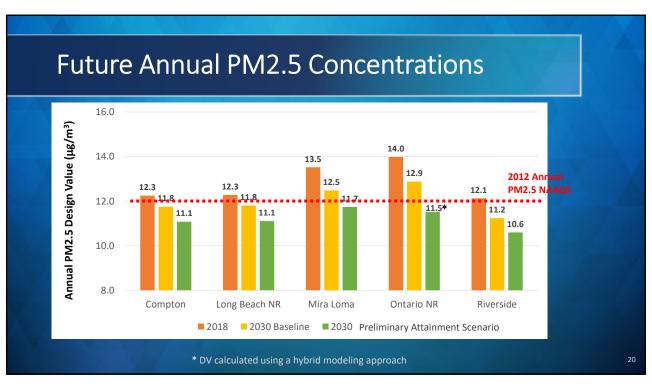

PM co-benefits from adopted NOx regulations

 Shutdown or improved efficiency from facilities subject to NOx regulations

Limited PM2.5 and NH3 measures

- Identified from BACM/MSM
- Required to implement by U.S. EPA

Looking Forward – U.S. EPA's Proposed Annual PM2.5 NAAQS

- In January 2023, the U.S. EPA proposed a stronger annual PM2.5 standard, aiming for 9 and 10 μ g/m³. This rule is still pending finalization.
- South Coast Air Basin is expected to be designated as nonattainment with the this new standard, with attainment likely by the mid-2030s
- The 2022 AQMP strategy will not be sufficient. Achieving the new standard will require direct PM2.5 reductions alongside continued NOx reduction efforts.

21

21

SIP Development Public Process Summer 2024 Spring-Fall 2023 Early 2024 Early 2024 Spring 2024 CARB adoption • AQMP & • Release of a Regional Public Hearing and submittal STMPR Draft Plan for for South Coast Public to EPA Advisory Group **Public Review** AQMD Board Hearings Meetings adoption and Comments

Conclusion

- Staff is continuing to develop the Plan to attain the annual PM2.5 national air quality standard
- Recent analysis has refined staff's approach to control measures for this Plan
 - Some limited new control measures will still be required to satisfy U.S. EPA requirements to be no less stringent than other areas
 - Previously adopted control measures in the 2022 AQMP are anticipated to provide sufficient reductions to attain the standard by 2030
- Work on the PM2.5 Plan will continue and will be available for Board consideration in the first half of 2024
- Once U.S. EPA finalizes its next PM2.5 standard, a new plan with additional controls will be required

23

BACKGROUND

- · Adopted in 1990
- DMV collects \$6 per vehicle surcharge on annual registration fees:
 - \$2 → Carl Moyer Program
 - \$1.60 → Local Government Subvention Fund (this program)
 - \$1.20 → MSRC Discretionary Fund
 - \$1.20 → South Coast AQMD Program Funds
- 162 local governments receive quarterly distribution based on population
- · Local governments annually report spending and emission reductions
 - 11 project categories available
- South Coast AQMD compiles data for subvention fund Annual Report

ANNUAL TRAINING & OUTREACH

- Online training sessions throughout January & February
 - Project Eligibility
 - Selection of Projects with Quantifiable Reductions
 - · Accounting Requirements
- · Encourage fund leveraging
- Ongoing technical assistance to cities and counties
- · Council of Governments Briefings

9

GOING FORWARD

- Submit FY 2021-22 Annual Report to CARB
- Implement and continue enhancing the web-based reporting tool for annual reports
- Continue to work with cities to implement updated Resource Guide (July 2023)
- Continue to advise local governments on project eligibility, including:
 - · Vehicle purchases
 - EV Charging Infrastructure
 - Telecommuting

AB 2766 Motor Vehicle Fee Subvention Fund Program Resource Guide CARB Criteria and Guidelines for the Use of Motor Vehicle Registration Fees AB 2766 Funds Report from Motor Vehicle Registration Fees - Previous Years Annual Reports

Please visit: http://www.aqmd.gov/home/programs/local-government

EXECUTIVE SUMMARY

During Fiscal Year 2021-22, 162 local governments in the South Coast Air Quality Management District (South Coast AQMD) were eligible to receive AB 2766 Subvention Funds. These jurisdictions were subvened \$21.1 million to implement projects that reduce mobile source emissions. From their AB 2766 fund balances, local governments spent \$17.0 million in this fiscal year. The two highest spending categories were Transportation Demand Management and Alternative Fuels/Electric Vehicles, which claimed a combined total of 53% of the \$17.0 million program expenditures. The two project categories yielding the highest portion of emission reductions for this fiscal reporting cycle were Transportation Demand Management and Traffic Management with 83% of the quantified emission reductions. In total, local governments implemented 315 projects of which 196 reported quantified emission reductions.

I. BACKGROUND

On-road motor vehicles, including cars, trucks and buses, represent one of the major sources of air pollution in the South Coast AQMD jurisdiction. Vehicle emissions from exhaust contribute to unhealthful levels of ozone, particulate matter, and toxic air contaminants. To protect public health, Assembly Bill 2766 was signed into law in September 1990. Section 44223 of the Health &Safety (H&S) Code authorized a \$2 motor vehicle registration fee surcharge, effective April 1991, to fund the implementation of programs designed to reduce air pollution from motor vehicles and to implement the California Clean Air Act of 1988. H&S Code Section 44225 authorized a subsequent increase in this fee to \$4, effective April 1992. In 2004, an additional \$2 surcharge was added pursuant to H&S Code 44229 to provide a long-term source of funding for expansion of the Carl Moyer Memorial Air Quality Standards Attainment Program and to incentivize early introduction of clean air technology such as cleaner diesel engines; a Lower-Emission School Bus Program; and accelerated vehicle repair and retirement programs.

AB 2766 requires that the first \$4 of these fees be subvened to South Coast AQMD for the purpose of funding three programs with a prescribed allocation as follows:

- 40% to the Local Government Subvention Fund Program. These funds are distributed on a
 quarterly basis to South Coast Air District cities and counties based upon their prorated share of
 population to implement projects that reduce emissions from mobile sources.
- 30% to the South Coast AQMD Program Fund. This fund provides for agency planning, monitoring, research and other activities that reduce mobile source emissions.
- 30% to the Discretionary Fund Program. This fund is administered by the Mobile Source Air Pollution Reduction Review Committee (MSRC), which awards money to project proponents that also reduce motor vehicle emissions.

AB 2766 funded projects have many additional benefits including increasing transportation alternatives, relieving traffic congestion, conserving energy resources and reducing greenhouse gas emissions.

In December 2022, the South Coast AQMD adopted the 2022 Air Quality Management Plan (AQMP) as the blueprint for attainment of the federal ozone air quality standard in the South Coast AQMD jurisdiction area by 2037. The 2022 AQMP brought renewed focus to the role that mobile source

emissions play in attainment of this standard and includes control measures that will require a widespread transition to zero emission vehicles and equipment for nearly all emission sources. Future mobile source control measures are identified in the AQMP as well as planning opportunities available for South Coast AQMD cities and counties to align transportation policy, infrastructure planning, and emission control goals.

The California Air Resources Board (CARB) is also taking many actions to eliminate tailpipe emissions, including adopting the Innovative Clean Transit regulations in December 2018; the Advanced Clean Cars II regulations in August 2022; and the Advanced Clean Fleets regulation in April 2023, among others. These regulations include zero emission vehicle requirements and will substantially reduce mobile source pollution across the state. The AB 2766 subvention funds can be useful for local jurisdictions to meet these requirements and air quality goals, and fund recipient jurisdictions spend approximately 90% of the disbursement received each year.

The South Coast AQMD's AB 2766 staff actively works with local governments to align their planning efforts with policy objectives of the AB 2766 Subvention Fund Program and the AQMP blueprint designed to meet State and Federal Clean Air Act attainment standards.

II. REPORTING

This Annual Report solely addresses the AB 2766 funds subvened to local governments by accounting for financial expenditures, emissions reduced, and the cost-effectiveness of projects implemented through the AB 2766 Subvention Fund Program during FY 2021-22.

AB 2766 fees are collected by the DMV and subvened to the South Coast AQMD on a monthly basis. The South Coast AQMD Finance Division disburses the AB 2766 revenues to local governments quarterly. During FY 2021-22, 162 local governments were eligible to receive AB 2766 funds (see Attachment A). Pursuant to H&S Code 44243(b)(1), newly incorporated cities may receive subvention funds, provided they adopt and transmit to the South Coast AQMD the required ordinance within 90 days of official incorporation.

The city or county receiving such AB 2766 funds is required to deposit them into an air quality improvement trust fund for expenditures to reduce air pollution from motor vehicles, pursuant to H&S Code 44243(b)(1)(c). Fund recipients complete and submit an annual report to the South Coast AQMD identifying the revenues received, project expenditures, emissions reduced, and cost-effectiveness of each project implemented during the preceding fiscal reporting cycle.

South Coast AQMD staff provides technical assistance and project eligibility guidance to fund recipients according to AB 2766 criteria and guidelines established by the CARB. Staff receives, reviews, and evaluates the AB 2766 reports submitted and consolidates the results into this Annual Report. In addition, H&S Code Sections 44244.1 sets forth auditing requirements that are conducted every two years. The audit is conducted by an independent auditor who evaluates whether local governments adhered to program guidelines, and not the degree of efficacy in reducing air pollution. Audit

determinations confirming that recipients have expended revenues contrary to statute will have the opportunity to refund the program or shall upon required public hearing(s), result in the inappropriate expense amount withheld from future revenue distribution and then redistributed among the remaining recipients. A local government can also request to have future funds withheld without going through a public hearing process. Local jurisdictions are encouraged to pre-designate funds for specific projects that may be implemented in the future.

AB 2766 financial and project reporting from local governments occurs cyclically following notification from South Coast AQMD that the program tools are available. As the implementing agency, South Coast AQMD coordinates the update of program resources with CARB to facilitate local government report submittals.

CARB and South Coast AQMD have a Memorandum of Understanding dated July 31, 2019 that enables South Coast AQMD to directly manage the reporting process and submit the relevant data to CARB in a timely fashion. South Coast AQMD's AB 2766 Annual Report is shared with CARB upon completion.

III. PROGRAM GUIDANCE

Purpose

As directed by the Governing Board in 1998, the South Coast AQMD's AB 2766 staff serves as a resource to cities and counties by providing guidance in project identification, development, quantification, and reporting. Special emphasis is placed on the selection of cost-effective, quantifiable mobile source emission reduction projects that meet the needs of the local jurisdiction and that advance the objectives of the AQMP.

An AB 2766 Subvention Fund Program Resource Guide (hereafter, the Resource Guide), developed by the South Coast AQMD, is available to provide assistance in identifying projects that are eligible for AB 2766 funding. The Resource Guide outlines project eligibility requirements, provides program updates, policies, and guidelines to assist local jurisdictions that receive AB 2766 funds. Project descriptions and examples provided in the Resource Guide are consistent with CARB's Criteria and Guidelines for the Use of Motor Vehicle Registration Fees, which focuses on strategies that directly reduce mobile source emissions.

The Resource Guide was updated in July 2023 to improve clarity, address the availability of cleaner technologies for Light-Duty, Medium-Duty and Heavy-Duty Vehicles (LDVs), and support the direction of CARB's EV goals and requirements. For example, eligible LDVs must be plug-in hybrid electric vehicles or zero emission vehicles starting on July 1, 2024. The AB 2766 Resource Guide can be found at: http://www.aqmd.gov/docs/default-source/transportation/ab2766-motor-vehicle-subvention-fund-program/ab2766-resource-guide.pdf.

Activities

South Coast AQMD staff reviews the AB 2766 program data and collaborates with CARB staff on ways to improve the process for local governments to report their AB 2766-funded project results. South Coast AQMD staff conducts technical training sessions for local government and Councils of Government (COG) representatives to provide an overview of program updates, guidelines, policies, and responds to inquiries related to local projects/programs.

Staff conducted sixteen (16) AB 2766 remote technical training sessions and held open office hours during January/February 2023, at which 163 local government representatives participated on behalf of 123 of the 162 subvention fund recipient jurisdictions. Training included an overview of the program's authorizing legislation; prior year project reporting; emission reductions and financial summaries; and a detailed review of program guidelines developed by CARB and South Coast AQMD. Expenditure limitations, preferred projects that provide quantifiable, cost-effective emission reductions, common reporting errors, and administrative tips were of key focus during the trainings. Requirements related to the financial administration of AB 2766 dollars were reviewed in detail, with emphasis on fund accounting and auditing guidelines.

During training, staff guided attendees through project categories and instructed local government representatives on how to identify and calculate emission reductions and cost effectiveness. Training also included detailed instructions on the new South Coast AQMD AB 2766 reporting software which was developed for local governments to submit their subvention fund reports to the South Coast AQMD. During the previous program cycle, local governments were introduced to the new reporting tool called the AB2766 Report Portal, which greatly simplified the uploading process of AB 2766 Annual Report information. This recently developed system allows local jurisdictions to easily input data and monitor the status of South Coast AQMD's review. Use of this web-based application is now in its second program cycle and has fostered enhanced AB 2766 program efficiency, time savings, as well as record retention and accessibility for South Coast AQMD staff and participating local jurisdictions.

On an on-going basis, South Coast AQMD staff assists local governments with project/program selection, emission reduction calculations and guidance on use of the Portal system for future project planning. South Coast AQMD staff has received and evaluated the FY 2021-22 Annual Reports submitted by the 162 participating local jurisdictions. The results are summarized in the Program Data section of this report.

Local Government Coordination

Local governments may contribute a portion of their AB 2766 subvention funds to their respective COGs to pool resources for implementation of eligible projects. In expending these funds, COGs must adhere to the same project eligibility requirements and guidelines as recipient jurisdictions when implementing air quality projects funded by AB 2766 dollars. For monitoring purposes, COGs are asked to provide summary reports to their member cities as well as to the South Coast AQMD, including

descriptions of AB 2766 projects along with funding amounts. COG summary reports should align with local jurisdiction reporting to South Coast AQMD. Table 1 provides a summary of the projects and programs implemented by COGs using AB 2766 funds received from their member cities.

Table 1
Summary of COG Activities

COG Name	Expenditure Amount*	Project Description**
Coachella Valley	\$427,083	Regional PM Street Sweeping Program using alternative fuel equipment to sweep approximately 23,178 curb miles to remove roadway dust.
Western Riverside	\$109,981	Clean Cities Coalition activities/outreach promoting emission reductions from motor vehicles through alternative fuel and advanced technology vehicles; AQMP Outreach and Western Riverside County Active Transportation Plan development.
Gateway Cities	\$61,166	Development of the Air Quality/Active Transportation elements of the Gateway Cities Strategic Transportation Plan (STP).

^{*}Expenditure amounts as reported by COG member cities.

IV. PROGRAM DATA

Project Categories

The Resource Guide summarizes CARB's guidance for the use of the AB 2766 funds and identifies appropriate strategies that, through careful planning and design, will cost effectively and efficiently reduce emissions from mobile sources. The following list identifies eleven AB 2766 Project Categories and provides examples of projects that meet the criteria and guidelines established by CARB:

1. Alternative Fuels/Electric Vehicles¹

- Purchasing/leasing alternative fuel vehicles (automobiles, vans, shuttles or buses)
 powered by compressed natural gas, propane, non-diesel hybrids that meet specific
 CARB certification standards, as well as zero emission fuel cell and battery electric
 vehicles.
- Projects that assist local jurisdictions with fleet conversions or repowering from conventional gas to an alternative fuel engine meeting CARB certification standards.

^{**}Project descriptions provided by COG to the COG member cities.

¹AB 2766 funding can be used to assist local governments in their compliance with regulations such as CARB's Advanced Clean Cars II and Advanced Clean Fleets regulation, as well as South Coast AQMD mobile source fleet rules (e.g., Rule 1191) and Rule 2202.

• Installation of alternative fuel (including hydrogen) and electric charging infrastructure that supports the use of alternative fuel and zero emission vehicles; and, purchasing alternative fuel or electricity for up to three years after vehicle purchase.

2. Vehicle Emissions Abatement

- Purchasing/leasing the cleanest available diesel engines when alternative fuel engines
 or zero emission technologies are not available and/or repowering of heavy-duty
 engines with the cleanest available engines.
- Installation of particulate trap retrofits for engines and/or retirement and replacement of dirty off-road engines with newer, cleaner engines.
- Participation in a certified Vehicle Scrapping Program.
- Purchasing/leasing of electric ride-on commercial lawn mowers.

3. Land Use

- Planning, designing, and constructing/installing facilities that discourage and decrease the use of automobiles.
- Providing adequate or expanding existing pedestrian facilities that make it easier for people to walk, bicycle, or use public transit.
- Developing Air Quality Action Plans, Strategic Transportation Plans or an Air Quality Element of a General Plan.
- Funding CEQA related studies that will identify surplus mobile source mitigation
 measures or project alternatives resulting in reduced emissions or VMT as required
 by SB 743. However, funding is not to be used to replace funds otherwise available to
 perform CEQA related activities.

4. Public Transportation

- Introducing, marketing or implementing new or extended transit services or rail feeder operations, and the operations thereof up to 3 years.
- Constructing, installing or enhancing public transportation facilities designed to provide new or extended services or to increase passenger safety.
- Installing equipment that contains public transit information and fare subsidies.
- Providing transit fare discounts and subsidies.

5. Traffic Management and Signal Coordination

- Implementing projects/programs that monitor and control travel conditions.
- Installing corridor signal synchronization systems; design and installation of
 pedestrian islands, turning lanes, pedestrian traffic controls and/or changeable
 message signs that reduce idling and improve traffic flow, and/or mobilization of
 freeway tow truck services.

6. Transportation Demand Management (TDM)

- Implementing projects that reduce the demand for automobile use by encouraging behavioral changes regarding travel modes, i.e., encourage carpooling, vanpooling, biking, walking, use of public transit, telecommuting, or implementation of compressed work week schedules.
- Designing, developing, and implementing programs that focus on reducing trips to special event centers or other attractions.
- Creation and enhancement of Park and Ride facilities.

7. Market Based Strategies

 Developing and implementing incentives and disincentives that encourage behavioral changes resulting in emission reductions such as introduction of user fees or congestion charges to encourage behavioral changes for consumers to use less congesting or less polluting forms of transportation and/or implementation of parking strategies.

8. Bicycles

- Implementing projects that encourage the use of bicycles by employees and residents; bike share and/or purchasing programs, bike loan programs (electric bikes and standard) for police officers, community members, and the general public.
- Designing, developing and/or installing bike lanes, paths and bikeways or
 establishing new bicycle corridors physically separated from motor vehicle traffic;
 making bicycle facility enhancements/improvements by installing bicycle lockers,
 bike signals or bus bike racks.

9. PM Reduction Strategies

• Implementing measures that reduce or prevent deposits of dust and other materials from build-up on roadway surfaces such as paving of dirt roads and shoulders; purchasing/leasing South Coast AQMD Rule 1186.1 compliant street sweepers.

10. Public Education

- Long-term/short-term, routine, regularly scheduled, intermittent or frequent information brochures, videos, printed materials that provide a focused message which targets behavioral changes resulting in mobile source emission reductions and reduced reliance on motor vehicles.
- Marketing of demonstration or pilot projects, coordinating promotional events or programs to educate schools or the public about transportation alternatives, and the relationship between motor vehicles and air pollution.

11. Miscellaneous Projects

 Designing, developing and/or implementing projects or programs that reduce mobile source emissions, but are not specifically listed or identified in the AB 2766 Resource Guide. Projects that result in emission reductions, but use a manual or alternative CARB-approved methodology to calculate emission reductions. Specific details on the type of project being implemented, cost-effectiveness and emission reductions achieved as well as data/explanation on the CARB-approved methodology used in the calculations/analysis must be provided and deemed acceptable.

NOTE: Research and Development (R&D) projects are allowable AB 2766 expenditures. However, the expenditure(s) must not exceed 10% of the AB 2766 funds received for the reporting cycle. Total funds used for Public Education and CEQA related studies, and R&D funds, must not exceed the 10% expenditure threshold.

Project Funding & Quantification

A financial summary of funds spent by local governments in the South Coast AQMD region during FY 2021-22 is provided in Table 2, and the financial summary for the last five reporting cycles is shown in Table 3. Local governments can carry over fund balances indefinitely, which allows them the flexibility to accumulate funding for future projects or to secure additional co-funding. In FY 2021-22, local governments spent less subvention funds on mobile source emission reduction projects (\$17.0 million) than the amount received (\$21.1 million), and project spending decreased compared to the last reporting cycle (\$19.1 million) as shown in Table 3. The cities and counties are continuing to pre-designate a larger amount of funds than in previous years which indicates an increased interest in future programs and technology investments.

Tables 2 and 3 show that of the \$67.8 million ending balance reported by local governments in FY 2021-22, approximately \$57.4 million, or 85%, of the ending balance was pre-designated for future projects. This is consistent with the amounts pre-designated in FY 2020-21 (85%). Although there is more than \$67 million in unspent AB 2766 funds available to local jurisdictions, they are expected to face significant costs as new statewide requirements for zero emission vehicles take effect.

Table 3 shows that as reported by recipient jurisdictions, the motor vehicle funds that were subvened to local governments decreased from \$22.9 million in FY 2020-21 to \$21.1 million in this reporting cycle. Local governments spent a lesser percentage (80% or \$17.0 million) of the funds received on AB 2766 projects compared to the prior reporting cycle (83% or \$19.1 million). With guidance from South Coast AQMD's AB 2766 staff, local jurisdictions are continuing to plan and implement clean transportation programs that advance our regional air quality goals.

Table 2
Motor Vehicle (MV) Funds Financial Summary
(As Reported by Local Jurisdictions)

County	Beginning Balance	MV Fees Received	Project Spending	Ending Balance ²	Pre- designated Funds	Funds Remaining
Los Angeles	\$30,551,267	\$12,228,125	\$9,913,164	\$32,787,326	\$28,871,680	\$3,915,646
Orange	\$16,128,050	\$3,870,936	\$2,657,608	\$17,228,605	\$12,443,762	\$4,784,842
Riverside	\$9,942,202	\$3,059,208	\$2,038,327	\$10,808,138	\$9,666,610	\$1,141,528
San Bernardino	\$7,431,376	\$1,991,185	\$2,374,489	\$6,932,066	\$6,461,363	\$470,703
Totals*	\$64,052,895	\$21,149,454	\$16,983,589	\$67,756,135	\$57,443,415	\$10,312,720

^{*}Totals may vary due to rounding.

Table 3
History of Motor Vehicle Funds Financial Summary

Fiscal Year	Beginning Balance	MV Fees Received	Project Spending	Ending Balance	Pre- designated Funds	Funds Remaining
2017-18	\$57,581,172	\$21,773,549	\$18,970,439	\$60,424,838	\$51,324,794	\$9,100,043
2018-19	\$60,119,563	\$22,129,237	\$18,961,319	\$64,393,453	\$56,504,964	\$7,888,489
2019-20	\$62,742,224	\$21,505,465	\$24,471,364	\$60,898,314	\$54,451,852	\$6,446,462
2020-21	\$60,159,059	\$22,895,514	\$19,080,855	\$64,143,099	\$54,593,825	\$9,549,274
2021-22	\$64,052,895	\$21,149,454	\$16,983,589	\$67,756,135	\$57,443,415	\$10,312,720

Table 4 identifies, by county, the number of projects funded by local governments, as well as the number and percentages of projects with quantified emission reductions achieved during FY 2021-22. Los Angeles County, with the majority of the cities in the South Coast AQMD, funded the largest number of AB 2766 projects in the program (169). Orange County had the second highest number of projects funded (59), followed by Riverside County (53) and San Bernardino (34). For this reporting cycle, San Bernardino County has yielded the highest percentage (71%) of quantifiable emission reduction projects.

² The Ending Balance represents the Beginning Balance and MV Fees Received, minus Project Spending. Interest Earned and Administrative Costs are incorporated. Interest Earned and Administrative Costs are fully detailed in Appendix B.

<u>Table 4</u> **Local Government Project Reporting and Emission Reduction Quantification**

County	Number of Local Governments Reporting	Number of Projects Funded	Number of Projects with Emission Reductions Quantified	Percent of Projects with Emission Reductions Quantified
Los Angeles	82	169	108	64%
Orange	35	59	34	58%
Riverside	28	53	30	57%
San Bernardino	17	34	24	71%
Totals	162	315	196	62%

Table 5 shows the number of projects with emission reductions quantified over the last five reporting cycles. The FY 2021-22 report shows 196 projects with emission reductions quantified, which is a decrease from the 214 projects quantified in FY 2020-21. The percentage of quantifiable projects is lower this year (62%), particularly by expenditures (59%). This is due primarily to a reduction in vehicle purchases and traffic signalization projects, along with an increase in non-quantifiable projects such as education, transit planning, AB2766 audits, and alt-fuel/EV infrastructure projects.

Every year, CARB updates and provides the South Coast AQMD with emission reduction calculation methodologies, along with the corresponding emission factors for most of the transportation projects funded through this program. The annual emission reductions, as well as the cost-effectiveness of the projects, are calculated based on those emission factors and local government reporting of project spending. Emission reductions from several types of projects are difficult to quantify or cannot be quantified, such as electric vehicle charging stations, public education, and research and development, therefore CARB has not adopted methodologies for those projects.

<u>Table 5</u> Project Quantification History

Fiscal Year	Number of Projects	Projects with Emission Reductions Quantified	Percent of Projects Quantified	Percent of Expenditures Quantified
2017-18	358	234	66%	69%
2018-19	368	259	71%	78%
2019-20	371	237	64%	62%
2020-21	313	214	68%	73%
2021-22	315	196	62%	59%

Table 6 shows the FY 2021-22 expenditures made in ten of the eleven AB 2766 project categories. Since there were no projects reported in the Market Based Strategies category, this project category is not listed in Table 6. There have been no projects in the Market Based Strategies category since FY 2006-07. Table 6 displays expenditures by category, sorted from the highest to the least in local government spending. The two highest spending categories are the Alternative Fuels/Electric Vehicles and the Transportation Demand Management categories, which together represents 53% or \$9.1 million of the \$17.0 million program expenditures. A significant amount of these funds were spent towards purchasing or leasing of alternative fuel/electric vehicles, installation of alt-fuel/electric vehicle infrastructure, and implementation of employer-based trip reduction programs.

<u>Table 6</u> Expenditures by Project Category

Project Category	Project Spending*	Percent of Spending*	No. of Projects	
Alternative Fuels/Electric Vehicles	\$4,589,567	27%	107	
Transportation Demand Management	\$4,495,597	26%	60	
Traffic Management	\$2,402,879	14%	31	
Land Use	\$1,857,758	11%	11	
PM Reduction Strategies	\$1,316,358	8%	19	
Bicycles	\$788,388	5%	19	
Public Education	\$621,085	4%	16	
Miscellaneous Projects	\$487,973	3%	33	
Public Transportation (Transit & Rail)	\$410,550	2%	18	
Vehicle Emissions Abatement	\$13,434	0.1%	1	
Totals	\$16,983,589	100%	315	

^{*} Totals may vary due to rounding.

Emission Reductions & Cost-Effectiveness

Table 7 summarizes, by county, the number of projects funded, project spending, and the emission reductions achieved. Local governments in Los Angeles County reported the majority of project spending, \$9.9 million, and also achieved the majority of annual emission reductions, 52 tons. During FY 2021-22, a total of 112 tons of emissions were reduced in the South Coast AQMD cities and counties by projects funded with AB 2766 Subvention funds.

<u>Table 7</u> Project Spending and Emissions Reduced

County	No. of Projects	Project	Em	issions R	Reduced ³	(Tons/Y	'ear)
	Funded	Spending	ROG	NOx	PM2.5	CO/7	Totals*
Los Angeles	169	\$9,913,164	11	17	7	17	52
Orange	59	\$2,657,608	5	7	2	8	23
Riverside	53	\$2,038,327	5	6	3	12	28
San Bernardino	34	\$2,374,489	2	3	1	4	10
Totals*	315	\$16,983,589	24	33	14	41	112

^{*} Totals may vary due to rounding.

Table 8 provides emission reduction and cost-effectiveness information⁴ for AB 2766 project categories. The table is ranked by the project category with the largest amount of emissions reduced; and displays the number of projects, number of projects with emission reduction quantified, and the percentage of projects quantified in each category. The last column in Table 8 identifies the total Air Funds cost-effectiveness (dollar per pound) of emissions reduced. The "Air Funds" consist of the AB 2766 Motor Vehicle Fees and, if applicable, funding from the state Carl Moyer Fund Program and the Mobile Source Air Pollution Reduction Review Committee (MSRC) funding pursuant to CARB's methodology.

In this reporting cycle, the Transportation Demand Management project category represents 71% of all emissions reduced, including a total of 158,403 pounds per year. This is an increase in percentage for this category compared to FY 2020-21, which represented 55% of emission reductions (152,110 pounds). This category includes trip reduction subsidies for employees of reporting jurisdictions that receive AB 2766 funds, including telecommuting and subsidies for residents who meet their city program requirements.

The Traffic Management category accounts for 12% of the emissions reduced, with a total of 27,193 pounds per year. This category includes traffic signal synchronization, signal installation, and software updates. The PM Reduction Strategies category comes in third in terms of emission reductions,

³ Emissions reduced account for total reductions (VOC, NOx, PM_{2.5} and CO/7) from Air Fund expenditures. Air Funds consist of the Motor Vehicle Fees and funding from both the state Carl Moyer Program and the AB 2766 Discretionary Fund. See Attachment B: Average Cost-Effectiveness by Project.

⁴ Cost Effectiveness for AB 2766 projects are calculated by first amortizing the Air Funds (AB 2766, MSRC, and Moyer funding) then dividing by the total emission reduction of ROG, NOx, PM2.5, and CO/7. Emission factors tables were provided by CARB in November 2020 and draw from EMFAC2017. This method differs from how the Moyer program assess cost effectiveness, and can be found in the "Methods to Find the Cost-Effectiveness of Funding Air Quality Projects" handbook published by CARB in May 2005: https://www2.arb.ca.gov/sites/default/files/2020-06/Congestion Mitigation Air%20 Quality Improvement Program cost-effectiveness methods may2005.pdf

representing 7% of emissions reduced with a total of 15,823 pounds per year, and includes street sweeping projects.

The cost-effectiveness of all project categories, as shown in Table 8, range from \$2.9 - \$353.2 per pound of emissions reduced. The overall total average cost-effectiveness was computed as \$27.3 per pound of emissions reduced. AB 2766 staff are continuing to provide technical support and program outreach, helping recipient jurisdictions to implement cost-effective and quantifiable emission reduction projects that meet immediate agency needs, while working toward achievement of longer-term AQMP objectives. Local governments are also encouraged to seek and create opportunities to coordinate with neighboring cities, jurisdictions, and COGs to implement projects that will result in shared, mutual emission reduction benefits, while potentially pooling costs and resources. Pre-designation of funds for future project implementation is helping Program Administrators better understand the importance of long-term project planning.

<u>Table 8</u>
Emissions Reduced and Cost-Effectiveness by Project Category

L 11115510.	iis ixcuucci	i anu Cost-E	ilectiveness	by I Toject v	Jacegory	
Project Category	Number of Projects	Number of Projects Quantified	Percent of Projects Quantified	Emissions Reduced ⁵ (lbs./yr.)	Emissions Reduced ⁶ (tons/yr.)	Air Fund Cost- Effectiveness ⁷ (\$/lbs.)
Transportation Demand Management	60	55	92%	158,403	79.2	\$24.39
Traffic Management	31	22	71%	27,193	13.6	\$11.28
PM Reduction Strategies	19	17	89%	15,823	7.9	\$57.85
Miscellaneous Projects	33	3	9%	9,695	4.8	\$2.85
Public Transportation (Transit & Rail)	18	14	78%	5,769	2.9	\$47.38
Alternative Fuels/Electric Vehicles	107	70	65%	5,090	2.5	\$119.78
Bicycles	19	13	68%	980	0.5	\$74.77
Land Use	11	1	9%	40	0.02	\$353.23
Vehicle Emissions Abatement	1	1	100%	31	0.02	\$94.35
Public Education	16	0	0%	-	-	-
Totals	315	196	62%	223,023	112	\$27.29

^{*}Totals may vary due to rounding.

⁵ Emissions reduced account for total reductions (VOC, NOx, PM_{2.5} and CO/7) from the state Carl Moyer Program and the AB 2766 Discretionary Fund. See Attachment B: Average Cost-Effectiveness by Project.

13

⁶ Emissions reduced (tons/year) is determined by dividing by 2,000 lbs. Totals may vary slightly due to rounding.

⁷ Cost-effectiveness is determined by multiplying default capital recovery factors (amortization by project life and discount rate) by total funds, then dividing those annualized funds by annual emission reductions. See Attachment B: Average Cost-Effectiveness by Project.

The history of the AB 2766 Program's emission reductions and cost-effectiveness is shown in Table 9. The average cost-effectiveness figure is determined by dividing the Amortized Air Fund dollar amount, which is associated with quantified projects, by the total amount of emission reductions. Emissions calculations are based on the 2017 Emission Factor (EMFAC) modeling tool provided by CARB.

Table 9 shows the history of the AB 2766 program with regard to emissions reduced and cost-effectiveness after adjusting for inflation. The 112 tons of emissions reduced in this reporting cycle is a 20% decrease from the 139 tons reported in FY 2020-21. This decrease in emissions reduced by the program during this fiscal year appears to be largely attributable to the Traffic Management Project Category, and more specifically the traffic signalization projects. The City of Los Angeles' signalization projects went from 30.5 tons of emissions reduced to 3.7 tons and Orange County's signalization projects went from 11.6 tons to 6.2 tons. It can be noted that in the previous year, the City of Los Angeles completed 3 large-corridor signalization projects and invested in a new software system that reduced traffic delays throughout the city contributing to 15 tons of emissions reduced.

Table 9
History of Emissions Reduced and Cost-Effectiveness

Fiscal Year	Emissions Reduced* (lbs./yr.)	Emissions Reduced* (tons/yr.)	Cost- Effectiveness** (\$/lb.)	Cost- Effectiveness** (\$/ton)
2017-18	195,000	98	\$46.11	\$92,220
2018-19	282,377	141	\$32.17	\$64,333
2019-20	263,654	132	\$41.04	\$82,078
2020-21	277,285	139	\$31.72	\$63,430
2021-22	223,023	112	\$27.29	\$54,581

^{*}Emission reductions determined by the EMFAC emissions model in effect for the year specified.

Table 10 shows the project subcategories with Motor Vehicles Fee expenditures greater than \$500,000. There are 11 of the 43 subcategories that collectively represent \$11.3 million of the \$17.0 million in project spending for FY 2021-22. Employer-Based Trip Reduction, a subcategory of Transportation Demand Management, had the largest expenditures with \$3.0 million in project spending. Alternative Fuel Vehicle Purchases is next at \$2.0 million, followed by Land Use Plan Elements at \$1.6 million. Electric Vehicle Purchases were \$672,354 in the prior fiscal year but were below the list's threshold at \$455,746 in the present fiscal year that is being reported here. Electric Vehicle Infrastructure was also less at \$1.1 million from \$1.2 million in the prior fiscal year. Jurisdictions are preparing for the rapid rise in electric vehicles by building public charging stations at their city halls, public facilities, and shopping centers, as well as dedicated charging stations for their public works fleet.

^{**}In 2022 dollars.

<u>Table 10</u> Project Subcategories with More Than \$500,000 in Expenditures

Category	Subcategory	Expenditure	No. of Projects
Transportation Demand Management	Employer-Based Trip Reduction	\$2,994,275	44
Alternative Fuels/Electric Vehicles	Alternative Fuel Vehicle Purchases/Leases	\$2,008,683	49
Land Use	Plan Elements	\$1,565,098	8
Traffic Management	Traffic Flow or Signalization	\$1,404,352	22
PM Reduction Strategies	Road Dust Control	\$1,315,443	18

Transportation Demand Management	Vanpool Programs	\$666,865	4
Public Education	(10a) Short Term Public Education	\$585,565	12
Totals*:		\$11,313,427	162

^{*}Totals may vary due to rounding.

V. PROGRAM OUTREACH

The following information summarizes future program outreach goals to be accomplished by South Coast AQMD staff:

Local Government Leadership

- Continue to provide written and electronic notification of fund balances and fund match/leverage opportunities to local government officials and staff.
- Encourage local government policy makers to provide leadership and establish partnerships in the program decision-making process.
- Work directly with cities to implement quantifiable, cost-effective mobile source emission reduction projects. Staff will meet with and maintain an open, ongoing dialogue with city mayors, city managers, and other local government staff, and will support their efforts to educate their elected officials on the value of the subvention fund program.

- Collaborate with South Coast AQMD's Legislative, Public Affairs & Media (LPAM) Office and the Mobile Source Air Pollution Reduction Review Committee staff to coordinate outreach activities, align project and policy goals, and maximize fund matching and leveraging opportunities for local governments.
- Lead and contribute to efforts and policy development that will continue to encourage telework practices and remote meeting attendance that have evolved from the COVID-19 pandemic.

Local Government Staff

- Develop new resources or enhance existing program tools that will assist local governments with identifying, monitoring, and reporting eligible AB 2766 projects and programs, such as:
 - 1) Implementing and continuing to develop the web-based reporting process for local government annual report submissions;
 - 2) Updating the Resource Guide to better align with the AQMP and CARB direction;
 - 3) Enhancing Marketing Materials.
- Encourage fund leveraging and pre-designation of funds for future quantifiable project implementation.
- Act as an intermediary between District and city staffs, COG representatives and local government leadership to streamline project and policy development.
- Maintain an outreach presence through meetings with local governments' AB 2766 administrators as a means to:
 - 1) Provide technical guidance on program changes and legal constraints of AB 2766 spending;
 - 2) Provide technical hands-on assistance with calculating, tracking and reporting on projects that will yield quantifiable emission reductions;
 - 3) Provide a list of eligible, preferred projects, as well as encourage pre-designating funds for future projects;
 - 4) Provide training on the automated reporting and submittal processes.
- Encourage all AB 2766 administrators to virtually attend the annual AB 2766 training sessions to learn about AB 2766 software submittal procedures, as well as updates, changes and/or modifications to the AB 2766 Program.

Councils of Government

- Coordinate with COG staff to ensure accurate program reporting on project activities funded with AB 2766 funds received from their member cities and counties. Emphasis will continue to be placed on the importance of ensuring that projects funded by COGs adhere to the AB 2766 guidelines and criteria established by CARB.
- Respond to feedback from local governments and their respective COGs on various AB 2766
 program matters, including the annual reporting process, and the use of subvention funds allocated
 towards COG sponsored projects.

• Host specialized training sessions for COG staff and member jurisdictions on project coordination and annual reporting requirements.

CARB Collaboration

- Create and manage the reporting process for South Coast Air District fund recipients with oversight from CARB as outlined in the July 31, 2019 Memorandum of Understanding for the collection of fund expenditures, project implementation, emission reductions, cost effectiveness, and other relevant data.
- Continue to collaborate with CARB to effectively communicate program and financial reports and receive updated emission factors and program direction.
- Continue to collaborate with CARB to align the program with statewide and local emission reduction goals.

ATTACHMENT A

Participating Cities and Counties (FY 2021-22)

Eligible Cities and Counties (FY 2021-22)

Los Angeles	Los Angeles County	Orange	Riverside	San Bernardino
County	(cont'd)	County	County	County
Agoura Hills	Lakewood	Aliso Viejo	Banning	Big Bear Lake
Alhambra	Lawndale	Anaheim	Beaumont	Chino
Arcadia	Lomita	Brea	Calimesa	Chino Hills
Artesia	Long Beach	Buena Park	Canyon Lake	Colton

Local Government Projects Funded by Category

Project Category & Subcategory	Project Name	Motor Vehicle Expenditure
(1) Alternative Fuels/A	Electric Vehicles	
(1a) Alternative Fuel Vel	hicle Purchases/Leases	
Alhambra	2021 Ford Escape Purchase	\$47,315
Azusa	Lease of Hybrid Pool Vehicle	\$3,905
Baldwin Park	Fleet Leasing Program	\$25,586
Baldwin Park	Fleet Leasing Program	\$26,401
Baldwin Park	Fleet Leasing Program 15 vehicles	\$78,017
Beaumont	2021 Toyota Rav 4 Hybrid	\$34,145
Beaumont	2021 Toyota Rav 4 Hybrid	\$34,051
Bellflower	2022 Ford F-250 Truck	\$49,992
Canyon Lake	Purchase of 2 Dodge Durangos	\$99,759
Colton	Purchase 3 hybrid plugin electric vehicles	\$105,178
Covina	2020 Toyota Prius - Lease	\$7,133
Cudahy	2018 Ford Fusion	\$6,176
Cudahy	2018 Toyota Highlander	\$8,900
Cypress	Compressed Natural Gas Sewer Cleaning Truck	\$62,419
Duarte	Alternative Fuel Lease Program / Ford Escape Hybrid	\$8,101
Duarte	Alternative Fuel/Electric Vehicle Lease Program	\$23,792
El Monte	Regional PM10 Street Sweeper Contract (2 Vehicles)	\$28,891
Fontana	AFV Rebate Program	\$500
Fontana	AFV Rebate Program	\$500
Garden Grove	2022 TZEV Lexus Vehicle Purchase	\$2,000
Gardena	Lease (1) 2018 Toyota Avalon Hybrid XLE Premium	\$10,143
Gardena	Lease (1) 2019 Hyundai Ioniq Plug-In Hybrid Hatchback	\$6,45
Gardena	Lease (2) 2016 Ford Fusion Hybrid PZEV	\$1,018
Gardena	Purchase (1) 2022 Toyota Highlander Hybrid LE	\$46,166
Gardena	Purchase (2) 2016 Ford Fusion Hybrid PZEV	\$2,624
Jurupa Valley	2022 Ford Escape	\$27,565
Laguna Beach	City of Laguna Beach Senior Mobility Program	\$28,772
Lakewood	Purchase (1) 2022 Chevrolet/Equinox	\$31,043
Lakewood	Purchase (1) 2022 GMC Terrain	\$31,043

Summary of Projects that Reported Cost-Effectiveness

Fiscal Year 2021 - 2022

Motor Vehicle Fees	\$10,028,503
Air Funds (MVFees + MSRC + Moyer)	\$10,088,503
Amortized Air Funds	\$6,086,384
Emission Reductions (lbs per year) (ROG + NOx + PM2.5 + CO/7)	223,023
Average Cost-Effectiveness (dollars per lb)	\$27.29

This report includes only projects with cost-effectiveness greater than zero. Cost-effectiveness is equals amortized Air Funds (MVFees + MSRC + Moyer dollars) divided by ROG + NOx + PM2.5 + CO/7.

Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program

September 1, 2023 to September 30, 2023

1. Implementation and Outreach Activities:

Activity	Since Last Report	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909-396-3140) and Helpdesk (waire-program@aqmd.gov)	352	5,164
Views of Compliance Training Videos (outside of webinars)	255	5,771
Emails Sent with Information About WAIRE Program Resources	3,261	~ 63,150
Visits to www.aqmd.gov/waire	2,687	~ 45,535
Presentations to Stakeholders	1*	143

^{*}Transportation Research Board Freight Data Workshop

2. Highlights of Recent Implementation Activities

Phase 1 warehouse operators (including those with greater than or equal to 250,000 square feet) were required to submit their first Annual WAIRE Report (AWR) by March 2, 2023, which includes the actions and/or investments they completed in the 2022 compliance period. As of September 30th, 485 warehouse operators filed an AWR.¹ This represents about 48% of the anticipated Phase 1 group. Of the submitted reports, 46 warehouse operators still need to submit the required fees (including mitigation fees, as applicable). The 485 operators who submitted an AWR report earned a total of about 236,800 WAIRE Points, which far exceeds their total WAIRE Points Compliance Obligation. The number of WAIRE Points earned by an operator that are in excess of their compliance obligation may be banked for future compliance. The operators also reported that they will pay a total of approximately \$9.7 million in mitigation fees, of which about \$7.7 million were paid by September 30, 2023.

Rule 2305 allows warehouse operators the option of earning WAIRE Points for "early" actions completed prior to their first compliance period. In addition, warehouse facility owners may voluntarily earn WAIRE Points from early actions that can be transferred to operators at the same site. As of September 30th, 182 warehouse operators and facility owners filed Early Action AWRs. These early action reports include a total earning of about 68,454 WAIRE Points.

¹ Staff has begun auditing these reports. Some of these reports may have been filed to bank points for future compliance periods. Information on these audits will be provided in future monthly reports and/or the annual report.

On September 12, 2023, a compliance advisory was sent out to 3,261 email addresses to inform warehouse owners and operators of Rule 2305 requirements and past deadlines. Hard copies were also mailed to 5,250 addresses related to warehouse facilities potentially subject to the rule. The compliance advisory included language regarding upcoming enforcement action and daily penalties for violators.

On September 15, 2023, staff presented an update on the WAIRE Program following the first year of implementation, including the status of reporting by the regulated entities, actions and/or investments completed to comply with the rule, the amount of WAIRE Points earned, enhanced outreach efforts, enforcement activities, and anticipated emissions reduced.

On September 20, 2023, South Coast AQMD issued a press release announcing the agency's enforcement initiative to bring warehouses into compliance with the rule.

Throughout September, staff completed the audit of records for acquiring near-zero emission and zero emission trucks and zero emission yard hostlers. Staff made a note if any of the records were not verifiable and provided guidance to operators to improve their recordkeeping practices. Staff continued to follow up with warehouse operators who have not yet paid the required fees for their AWR submittal. Staff also held virtual consultation sessions with various stakeholders to provide compliance support, as needed. Ongoing WAIRE Program implementation also included reviewing and verifying information in the Warehouse Operations Notifications (WONs) submitted by warehouse facility owners.

Staff is currently working on 5 Public Records Acts Requests this month requesting information related to Rule 2305 reporting data. Staff is continuing to work on developing a standard process for making WAIRE Program data available on the F.I.N.D. tool.

Rule 2305 provides an option of proposing a Custom WAIRE Plan for actions that are not on the WAIRE Menu. Staff received 8 Custom WAIRE Plan applications for the 2023 compliance period and is currently evaluating their potential for earning WAIRE Points. Four Custom WAIRE Plans were revised and resubmitted for evaluation. Per Rule 2305, Custom WAIRE Plans that will receive approval by the South Coast AQMD must be made available for public review 30 days prior to approval.

Anticipated Activities in October

- Staff plan to resume the in-person site visits targeting Phase 1 operators to ensure receipt of the compliance advisory, collect warehouse contact information, share information on rule requirements, and provide technical assistance, as needed.
- Continue to conduct outreach to Phase 1 and Phase 2 warehouse operators to advise of Rule 2305 requirements
- Make referrals to the Office of Compliance & Enforcement to evaluate potential enforcement action, if applicable.
- Continue to review and verify submitted information and analyze data submitted through R2305 reports (e.g., WONs, ISIRs, AWRs, early action AWRs).
- Continue to audit reports submitted by warehouse owners and operators in response to the Public Records Acts Requests.

2

• Complete final review of Custom WAIRE Plan applications submitted for the 2023 compliance period.

96

- Continue to develop an approach for addressing business confidentiality concerns and making WAIRE Program data publicly accessible via the online F.I.N.D. tool on the South Coast AQMD website.
- Continue to enhance the WAIRE POP software to support improved functionality (e.g., program administration, and an amendment process for submitted reports).

378,772	2,760	9,828	391,360	13,381	265,761	670,502
56.49%	0.41%	1.47%	58.37%	1.99%	39.64%	100%4

Notes:

- 1. ECRP Compliance Option.
- 2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.
- 3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.
- 4. Totals may vary slightly due to rounding.

BOARD MEETING DATE: November 3, 2023 AGENDA NO.

REPORT: Intergovernmental Review of Environmental Documents and

CEQA Lead Agency Projects

SYNOPSIS: This report provides a listing of environmental documents prepared

by other public agencies seeking review by South Coast AQMD between September 1, 2023 and September 30, 2023, and proposed projects for which South Coast AQMD is acting as lead agency

pursuant to CEQA.

COMMITTEE: Mobile Source, October 20, 2023, Reviewed

RECOMMENDED ACTION:

Receive and file.

Wayne Nastri Executive Officer

SR:MK:MM:BR:SW:ET

Background

The California Environmental Quality Act (CEQA) Statute and Guidelines require public agencies, when acting in their lead agency role, to provide an opportunity for other public agencies and members of the public to review and comment on the analysis in environmental documents prepared for proposed projects. A lead agency is when a public agency has the greatest responsibility for supervising or approving a proposed project and is responsible for the preparation of the appropriate CEQA document.

Each month, South Coast AQMD receives environmental documents, which include CEQA documents, for proposed projects that could adversely affect air quality. South Coast AQMD fulfills its intergovernmental review responsibilities, in a manner that is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4, by reviewing and commenting on the adequacy of the air quality analysis in the environmental documents prepared by other lead agencies.

The status of these intergovernmental review activities is provided in this report in two sections: 1) Attachment A lists all of the environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received during the reporting period; and 2) Attachment B lists the active projects for which South Coast AQMD has reviewed or is continuing to conduct a review of the environmental documents prepared by other public agencies. Further, as required by the Board's October 2002 Environmental Justice Program Enhancements for fiscal year (FY) 2002-03, each attachment includes notes for proposed projects which indicate when South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. The attachments also identify for each proposed project, as applicable: 1) the dates of the public comment period and the public hearing date; 2) whether staff provided written comments to a lead agency and the location where the comment letter may be accessed on South Coast AQMD's website; and 3) whether staff testified at a hearing.

In addition, the South Coast AQMD will act as lead agency for a proposed project and prepare a CEQA document when: 1) air permits are needed; 2) potentially significant adverse impacts have been identified; and 3) the South Coast AQMD has primary discretionary authority over the approvals. Attachment C lists the proposed air permit projects for which South Coast AQMD is lead agency under CEQA.

Attachment A – Log of Environmental Documents Prepared by Other Public Agencies and Status of Review, and Attachment B – Log of Active Projects with Continued Review of Environmental Documents Prepared by Other Public Agencies

Attachment A contains a list of all environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received pursuant to CEQA or other regulatory requirements. Attachment B provides a list of active projects, which were identified in previous months' reports, and which South Coast AQMD staff is continuing to evaluate or prepare comments relative to the environmental documents prepared by other public agencies. The following table provides statistics on the status of review¹ of environmental documents for the current reporting period for Attachments A and B combined²:

2

The status of review reflects the date when this Board Letter was prepared. Therefore, Attachments A and B may not reflect the most recent updates.

² Copies of all comment letters sent to the lead agencies are available on South Coast AQMD's website at: http://www.aqmd.gov/home/regulations/ceqa/commenting-agency.

Statistics for Reporting Period from September 1, 2023 to September 1, 2023 to September 2, 2	mber 30, 2023
Attachment A: Environmental Documents Prepared by Other Public Agencies and Status of Review	74
Attachment B: Active Projects with Continued Review of Environmental Documents Prepared by Other Public Agencies (which were previously identified in the July 2023, and August 2023 reports)	13
Total Environmental Documents Listed in Attachments A & B	87
Comment letters sent	10
Environmental documents reviewed, but no comments were made	50
Environmental documents currently undergoing review	27

Staff focuses on reviewing and preparing comments on environmental documents prepared by other public agencies for proposed projects: 1) where South Coast AQMD is a responsible agency under CEQA (e.g., when air permits are required but another public agency is lead agency); 2) that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); 3) that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); 4) where environmental justice concerns have been raised; and 5) which a lead or responsible agency has specifically requested South Coast AQMD review.

If staff provided written comments to a lead agency, a hyperlink to the "South Coast AQMD Letter" is included in the "Project Description" column which corresponds to a notation is in the "Comment Status" column. In addition, if staff testified at a hearing for a proposed project, a notation is also included in the "Comment Status" column. Copies of all comment letters sent to lead agencies are available on South Coast AQMD's website at: http://www.aqmd.gov/home/regulations/ceqa/commenting-agency. Interested parties seeking information regarding the comment periods and scheduled public hearings for projects listed in Attachments A and B should contact the lead agencies for further details as these dates are occasionally modified.

In January 2006, the Board approved the Clean Port Initiative Workplan (Workplan). One action item of the Workplan was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In accordance with this action item, Attachments A and B organize the environmental documents received according to the following categories: 1) goods movement projects; 2) schools; 3) landfills and wastewater projects; 4) airports; and 5) general land use projects. In response to the action item relative to mitigation, staff maintains a compilation of mitigation measures presented as a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases which are available on South Coast AQMD's website at:

http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies. Staff will continue compiling tables of mitigation measures for other emission sources such as ground support equipment.

Attachment C – Proposed Air Permit Projects for Which South Coast AQMD is CEQA Lead Agency

The CEQA lead agency is responsible for determining the type of environmental document to be prepared if a proposal requiring discretionary action is considered to be a "project" as defined by CEQA. South Coast AQMD periodically acts as lead agency for its air permit projects and the type of environmental document prepared may vary depending on the potential impacts. For example, an Environmental Impact Report (EIR) is prepared when there is substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if a proposed project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are types of CEQA documents which analyze the potential environmental impacts and describe the reasons why a significant adverse effect on the environment will not occur such that the preparation of an EIR is not required.

Attachment C of this report summarizes the proposed air permit projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation pursuant to CEQA. As noted in Attachment C, South Coast AQMD is lead agency for three air permit projects during September 2023.

DRAFT

ATTACHMENT C PROPOSED AIR PERMIT PROJECTS FOR WHICH SOUTH COAST AQMD IS CEQA LEAD AGENCY THROUGH SEPTEMBER 30, 2023

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke, and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueledICEs.		Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received. Staff held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Written comments submitted relative to the Draft EIR and oral comments made at the community meetings, along with responses will be included in the Final EIR which is currently being prepared by the consultant. After the Draft EIR public comment and review period closed, Quemetco submitted additional applications for other permit modifications which are also being evaluated by staff.	Trinity Consultants
Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing flares.	Sunshine Canyon Landfill	Subsequent Environmental Impact Report (SEIR)	South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are currently being addressed by the consultant.	SCS Engineers
Tesoro is proposing to modify its Title V permit to: 1) add gas oil as a commodity that can be stored in three of the six new crude oil storage tanks at the Carson Crude Terminal (previously assessed in the May 2017 Final EIR); and 2) drain, clean and decommission Reservoir 502, a 1.5 million barrel concrete lined, wooden-roof topped reservoir used to store gas oil.	Tesoro Refining & Marketing Company, LLC (Tesoro)	Addendum to the Final Environmental Impact Report (EIR) for the May 2017 Tesoro Los Angeles Refinery Integration and Compliance Project (LARIC)	The consultant provided a Preliminary Draft Addendum, which is undergoing South Coast AQMD staff review.	Environmental Audit, Inc.
