In April 2022, CARB allocated an additional \$21.1 million for FY21-22 to South Coast AQMD for EFMP. These actions are to: 1) recognize up to \$21.1 million for EFMP, accept terms and conditions of the grant awards; 2) authorize the Executive Officer to approve vouchers or other alternative mobility options to qualified participants; 3) release RFP to solicit proposals for contractor(s) to assist applicants with the application process, screen applications, and other program support; 4) transfer \$250,000 from AB 923 Special Revenue Fund (80) into HEROS II Special Revenue Fund (56) to cover administrative costs as needed, and 5) execute contracts with contractor(s) for EFMP implementation support and reimburse the General Fund up to \$3.16 million. In 2021, UCR/CE-CERT proposed a more comprehensive program to better characterize the emissions and air quality impacts from goods movement operations to the local communities as well as to the broader South Coast Air Basin. This action is to execute a contract with UCR/CE-CERT to conduct a comprehensive study of the operations and impacts of goods movement in Inland Southern California in an amount not to exceed \$500,000 from the Clean Fuels Program Fund (31). In June 2018, the Board created the Rule 1180 Special Revenue Fund (78) to establish a community air monitoring network near refineries. The FY 2021-22 budget for this program includes approximately \$4.4 million in annual fees from refineries for community air monitoring. Based on the recent reassessment of Rule 1180 resources, there is a need to reallocate funds. These actions are to transfer and appropriate funds up to \$800,000 from the Rule 1180 Special Revenue Fund (78), appropriate up to \$893,000 from the General Fund Undesignated (Unassigned) Fund Balance to Science & Technology Advancement's FY 2022-23 Budget, issue solicitations and/or contracts, add/delete positions to meet operational needs for Rule 1180 Air Monitoring Program and apply savings to cover the cost increase for previously approved Laboratory equipment. 8. **Authorize Executive Officer to Enter into Funding Agreement with CARB, Recognize Revenue, Appropriate Funds and Execute Contract for Technical Support to Conduct Certification Testing of Non-PFAS Fume Suppressant for Chrome Plating Operations** **Low/2269**

South Coast AQMD is expected to receive funds up to \$60,000 from CARB to conduct certification testing per the Hexavalent Chromium Airborne Toxic Control Measure for Chrome Plating and Chromic Acid Anodizing Operations and Rule 1469. Due to the public health concern regarding Per- and polyfluoroalkyl substances (PFAS), CARB is exploring alternatives to PFAS-containing fume suppressants used in chrome plating. CARB is also looking to certify, for use, a non-PFAS-containing fume suppressant for decorative and hard chrome plating operations. CARB is proposing to allocate initial funding in FY 2021-2022 and subsequent funding in FY 2022-2023 to complete this work. These actions are to: 1) authorize the Executive Officer to enter into a funding agreement with CARB; 2) recognize revenue and appropriate funds of up to \$60,000, upon receipt, into Science & Technology Advancement (STA) FY 2021-2022 and/or FY 2022-2023 Budget; and 3) authorize the Executive Officer to execute a contract with Alliance Source Testing, LLC in an amount not to exceed \$60,000 from STA FY 2021-2022 and/or FY 2022-2023 Budget to provide technical support for certification testing. (Reviewed: Administrative Committee, May 12, 2022; Recommended for Approval)

|-----|--|-----------------------|
| 26. | Determine That Proposed Rule 403.2 – Fugitive Dust from Large Roadway Projects, Is Exempt from CEQA; and Adopt Rule 403.2 | MacMillan/3244 |
| | <p>Proposed Rule 403.2 (PR 403.2) reduces potential fugitive dust impacts to communities near large roadway projects. PR 403.2 would prohibit certain large roadway project activities that generate dust and are in close proximity to sensitive receptors and areas of public exposure. PR 403.2 would also include additional requirements to control dust, notification to nearby receptors, project signage, and recordkeeping. This action is to adopt the Resolution: 1) Determining that Proposed Rule 403.2 – Fugitive Dust Emissions from Large Roadway Projects, is exempt from the requirements of the California Environmental Quality Act; and 2) Adopt Rule 403.2 – Fugitive Dust Emissions from Large Roadway Projects. (Reviewed: Stationary Source Committee, March 18 and April 15, 2022)</p> | |
| 27. | Determine That South Los Angeles Community Emissions Reduction Plan Is Exempt from CEQA and Adopt South Los Angeles Community Emissions Reduction Plan | Higgins/3309 |
| | <p>Assembly Bill 617 (AB 617) requires air districts to adopt a Community Emissions Reduction Plan (CERP) within one year of CARB selection. CARB selected the South Los Angeles (SLA) Community in February 2021, but the adoption date was extended by CARB to June 2022 to allow for additional time to collaborate with the community. The SLA CERP was developed with three community co-lead organizations: Physicians for Social Responsibility-Los Angeles, Strategic Concepts in Organizing and Policy Education, and Watts Clean Air and Energy Committee. The CERP is designed to reduce emissions and exposure to air quality issues identified by the community and includes an implementation schedule and enforcement plan. The community partnership and engagement have been critical throughout the development of the SLA CERP. This action is to: 1) Determine that the SLA CERP is exempt from the California Environmental Quality Act; and 2) Adopt the SLA CERP. (Reviewed: Stationary Source Committee, May 20, 2022)</p> | |

OTHER BUSINESS

28. Determine That NOx RTC Prices Exceed Applicable Thresholds in Rule 2002 and Determine to Take No Further Action Regarding Converting Non-Usable/Non-Tradeable RTCs Valid for RECLAIM Compliance Year 2022 Krause/2706

Rule 2002 establishes procedures in the event that NOx RTC prices exceed \$22,500 per ton based on the 12-month rolling average or exceed \$35,000 per ton based on the 3-month rolling average. Rule 2002 procedures include an assessment of the RECLAIM program and an evaluation as to whether to convert Non-tradeable/Non-usable NOx RTCs to Tradable/Usable NOx RTCs valid for the period in which the RTC price is found to have exceeded the applicable threshold. The January 2022 and April 2022 RTC price reports showed that the 12-month and 3-month rolling average price for Compliance Year 2022 NOx RTCs exceeded the applicable Rule 2002 price thresholds, however staff found that the RECLAIM market is stable and that there is no need to convert RTCs at this time. This action is to 1) Determine that NOx RTC prices exceed the applicable thresholds in Rule 2002; and 2) Determine to Take No Further Action Regarding Converting Non-Usable/Non-Tradeable RTCs Valid for RECLAIM Compliance Year 2022. (Reviewed: Stationary Source Committee, January 21, 2022)

Please note: During the meeting, all participants will be placed on Mute by the host. You will not be able to mute or unmute your lines manually.

After each agenda item, the Chairman will announce public comment.

Speakers may be limited to a total of 3 minutes for the entirety of the consent calendar plus board calendar, and three minutes or less for each of the other agenda items.

A countdown timer will be displayed on the screen for each public comment.

If interpretation is needed, more time will be allotted.

Once you raise your hand to provide public comment, your name will be added to the speaker list. Your name will be called when it is your turn to comment. The host will then unmute your line.
