AB 1944 (Lee)

Local government: open and public meetings.

Summary: This bill would allow members of a local legislative body to use teleconferencing for a public meeting without identifying each teleconference location or making those locations accessible to the public, if a quorum of the legislative body members participate from a single physical location that is:

- Identified on the agenda;
- Open to the public; and
- Within the local agency’s jurisdiction.

The bill would sunset on January 1, 2030.

There are two similar bills that would allow local agencies to hold public meetings via teleconferencing, AB 2449 (Rubio) and this bill, AB 1944 (Lee). AB 2449 would establish additional requirements beyond this bill for local agencies to follow when holding teleconference public meetings.

Background: Existing law, the Ralph M. Brown Act (Act), requires that all meetings of a local agency’s legislative body are open, public and all persons are permitted to attend and participate. The Act also requires agendas to be publicly posted and allows for meetings to occur via teleconferencing, subject to certain requirements, including:

- Legislative body must notice the teleconference location of each member who is participating in the public meeting;
- Every teleconference location must be accessible to the public;
- Members of the public must be allowed to address the legislative body at each teleconference location;
- Legislative body must post an agenda at each teleconference location; and
- At least a quorum of the legislative body must participate from locations within the boundaries of the local agency’s jurisdiction.

When a declared state of emergency is in effect, or in other situations related to public health, existing law authorizes a local agency to use teleconferencing without complying with specified requirements until January 1, 2024.

Status: 5/26/22 - Passed Assembly. Ordered to the Senate.

Specific Provisions: This bill would amend existing law to allow members of a legislative body of a local agency to use teleconferencing without identifying each teleconference

location and without making each location accessible to the public if the following conditions are met:

- The legislative body holds a meeting and determines by a majority vote, that members will not be required to identify the address of any private location from which the member elects to teleconference; and
- At least a quorum of members of the legislative body participates from a single physical location that is identified on the agenda, open to the public, and situated within the jurisdiction of the local agency.

If a legislative body elects to teleconference as authorized by this bill, it must:

- Provide a video stream accessible to members of the public, and an option for members of the public to address the body remotely during the public comment period through an audio-visual or call-in option; and
- Identify on the agenda any member of the legislative body that will participate in the meeting remotely. If a member of the legislative body elects to participate in the meeting remotely after the agenda is posted, an updated agenda must be posted.

This bill would sunset on January 1, 2030.

Impacts on South Coast AQMD’s Mission, Operations or Initiatives: During the pandemic, public entities have been able to hold teleconferenced public meetings with certain exemptions from Brown Act requirements. The flexibility created by those exemptions has facilitated board members’ and the public’s ability to safely attend public meetings remotely and has resulted in increased public participation.

This bill would enable local legislative bodies, including the South Coast AQMD, to not rely on a declared state of emergency to continue hold virtual or hybrid public meetings. Continuing to allow Board Members to participate remotely from an undisclosed location is critical for personal privacy and safety, especially if the location is a private residence. In sum, the bill would modernize existing law while maintaining transparency and public participation.

However, the requirement that an in-person quorum of members be at a single location is problematic, especially for agencies with a large geographical jurisdiction.

Staff recommend the following amendment:

“At least a quorum of members of the legislative body participates from ~~a single~~ physical locations that ~~is~~*are* clearly identified on the agenda, open to the public, and situated within the boundaries of the territory over which the local agency has jurisdiction.”

AMENDED IN ASSEMBLY MAY 25, 2022

AMENDED IN ASSEMBLY APRIL 18, 2022

CALIFORNIA LEGISLATURE—2021–22 REGULAR SESSION

ASSEMBLY BILL**No. 1944**

Introduced by Assembly Members Lee and Cristina Garcia
(Coauthors: Senators Becker, Cortese, and Stern)

February 10, 2022

An act to amend, repeal, and add Section 54953 of the Government Code, relating to public meetings.

LEGISLATIVE COUNSEL'S DIGEST

AB 1944, as amended, Lee. Local government: open and public meetings.

Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body of a local agency, as those terms are defined, be open and public and that all persons be permitted to attend and participate. The act contains specified provisions regarding the timelines for posting an agenda and providing for the ability of the public to observe and provide comment. The act allows for meetings to occur via teleconferencing subject to certain requirements, particularly that the legislative body notice each teleconference location of each member that will be participating in the public meeting, that each teleconference location be accessible to the public, that members of the public be allowed to address the legislative body at each teleconference location, that the legislative body post an agenda at each teleconference location, and that at least a quorum of the legislative body participate from locations within the boundaries of

the local agency's jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined.

Existing law, until January 1, 2024, authorizes a local agency to use teleconferencing without complying with those specified teleconferencing requirements in specified circumstances when a declared state of emergency is in effect, or in other situations related to public health.

This bill would require the agenda to identify any member of the legislative body that will participate in the meeting remotely. The bill would also require an updated agenda reflecting all of the members participating in the meeting remotely to be posted, if a member of the legislative body elects to participate in the meeting remotely after the agenda is posted.

~~This bill would authorize, under specified circumstances and~~ *authorize*, upon a determination by a majority vote of the legislative body, a member to be exempt from identifying the address of the member's teleconference location in the notice and agenda or having the location be accessible to the public, if the member elects to teleconference from a location that is not a public ~~place~~. *place, including, beginning January 1, 2024, that at least a quorum of members of the legislative body participates from a single physical location that is clearly identified on the agenda, open to the public, and situated within the boundaries of the territory over which the local agency has jurisdiction.*

This bill would require all open and public meetings of a legislative body that elects to use teleconferencing to provide a video stream accessible to members of the public and an option for members of the public to address the body remotely during the public comment period through an audio-visual or call-in option.

This bill would repeal these provisions on January 1, 2030.

Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would make legislative findings to that effect.

The California Constitution requires local agencies, for the purpose of ensuring public access to the meetings of public bodies and the writings of public officials and agencies, to comply with a statutory enactment that amends or enacts laws relating to public records or open

meetings and contains findings demonstrating that the enactment furthers the constitutional requirements relating to this purpose.

This bill would make legislative findings to that effect.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 54953 of the Government Code, as
2 amended by Section 3 of Chapter 165 of the Statutes of 2021, is
3 amended to read:

4 54953. (a) All meetings of the legislative body of a local
5 agency shall be open and public, and all persons shall be permitted
6 to attend any meeting of the legislative body of a local agency,
7 except as otherwise provided in this chapter.

8 (b) (1) Notwithstanding any other law, the legislative body of
9 a local agency may use teleconferencing for the benefit of the
10 public and the legislative body of a local agency in connection
11 with any meeting or proceeding authorized by law. The
12 teleconferenced meeting or proceeding shall comply with all
13 otherwise applicable requirements of this chapter and all otherwise
14 applicable provisions of law relating to a specific type of meeting
15 or proceeding.

16 (2) Teleconferencing, as authorized by this section, may be used
17 for all purposes in connection with any meeting within the subject
18 matter jurisdiction of the legislative body. All votes taken during
19 a teleconferenced meeting shall be by rollcall.

20 (3) (A) If the legislative body of a local agency elects to use
21 teleconferencing, it shall post agendas at all teleconference
22 locations and conduct teleconference meetings in a manner that
23 protects the statutory and constitutional rights of the parties or the
24 public appearing before the legislative body of a local agency.

25 (B) Each teleconference location shall be identified in the notice
26 and agenda of the meeting or proceeding, and each teleconference
27 location shall be accessible to the public, except as provided in
28 subparagraph (E).

29 (C) The agenda shall identify any member of the legislative
30 body that will participate in the meeting remotely. If a member of
31 the legislative body elects to participate in the meeting remotely
32 after the agenda is posted, an updated agenda shall be posted. In

1 the time between the start of the meeting and 72 hours before a
2 regular meeting, in accordance with Section 54954.2, and 24 hours
3 before a special meeting, in accordance with Section 54956, a
4 legislative body shall only update the agenda to reflect the members
5 participating in the meeting remotely.

6 (D) During the teleconference, at least a quorum of the members
7 of the legislative body shall participate from locations within the
8 boundaries of the territory over which the local agency exercises
9 jurisdiction, except as provided in subdivisions (d) and (e). The
10 agenda shall provide an opportunity for members of the public to
11 address the legislative body directly pursuant to Section 54954.3
12 at each teleconference location, except as provided in subparagraph
13 (E).

14 (E) If a member of a legislative body elects to teleconference
15 from a location that is not a public place, the legislative body shall
16 be exempt from identifying the address of the location in the notice
17 and agenda and from having the location be accessible to the public
18 in both of the following circumstances:

19 (i) The legislative body holds its first teleconferenced meeting
20 after passage of the act that added this subparagraph, for the
21 purpose of determining, by a majority vote, whether members will
22 not be required to identify the address of any private location from
23 which the member elects to teleconference. This determination
24 remains applicable to the legislative body until such time as the
25 legislative body votes otherwise.

26 (ii) The legislative body holds a meeting and has previously
27 determined, by majority vote, that members will not be required
28 to identify the address of any private location from which the
29 member elects to teleconference.

30 (F) If a legislative body elects to use teleconferencing as
31 authorized by this section, it shall provide both of the following:

32 (i) A video stream accessible to members of the public.

33 (ii) An option for members of the public to address the body
34 remotely during the public comment period through an audio-visual
35 or call-in option.

36 (4) For the purposes of this section, “teleconference” means a
37 meeting of a legislative body, the members of which are in different
38 locations, connected by electronic means, through either audio or
39 video, or both. Nothing in this section shall prohibit a local agency
40 from providing the public with additional teleconference locations.

1 (5) For the purposes of this section, “video stream” means a
2 medium in which the data from a live filming or a video file is
3 continuously delivered via the internet to a remote user, allowing
4 a video to be viewed online by the public without being
5 downloaded on a host computer or device.

6 (c) (1) No legislative body shall take action by secret ballot,
7 whether preliminary or final.

8 (2) The legislative body of a local agency shall publicly report
9 any action taken and the vote or abstention on that action of each
10 member present for the action.

11 (3) Prior to taking final action, the legislative body shall orally
12 report a summary of a recommendation for a final action on the
13 salaries, salary schedules, or compensation paid in the form of
14 fringe benefits of a local agency executive, as defined in
15 subdivision (d) of Section 3511.1, during the open meeting in
16 which the final action is to be taken. This paragraph shall not affect
17 the public’s right under the California Public Records Act (Division
18 10 (commencing with Section 7920.000) of Title 1) to inspect or
19 copy records created or received in the process of developing the
20 recommendation.

21 (d) (1) Notwithstanding the provisions relating to a quorum in
22 paragraph (3) of subdivision (b), if a health authority conducts a
23 teleconference meeting, members who are outside the jurisdiction
24 of the authority may be counted toward the establishment of a
25 quorum when participating in the teleconference if at least 50
26 percent of the number of members that would establish a quorum
27 are present within the boundaries of the territory over which the
28 authority exercises jurisdiction, and the health authority provides
29 a teleconference number, and associated access codes, if any, that
30 allows any person to call in to participate in the meeting and the
31 number and access codes are identified in the notice and agenda
32 of the meeting.

33 (2) Nothing in this subdivision shall be construed as
34 discouraging health authority members from regularly meeting at
35 a common physical site within the jurisdiction of the authority or
36 from using teleconference locations within or near the jurisdiction
37 of the authority. A teleconference meeting for which a quorum is
38 established pursuant to this subdivision shall be subject to all other
39 requirements of this section.

1 (3) For purposes of this subdivision, a health authority means
2 any entity created pursuant to Sections 14018.7, 14087.31,
3 14087.35, 14087.36, 14087.38, and 14087.9605 of the Welfare
4 and Institutions Code, any joint powers authority created pursuant
5 to Article 1 (commencing with Section 6500) of Chapter 5 of
6 Division 7 for the purpose of contracting pursuant to Section
7 14087.3 of the Welfare and Institutions Code, and any advisory
8 committee to a county-sponsored health plan licensed pursuant to
9 Chapter 2.2 (commencing with Section 1340) of Division 2 of the
10 Health and Safety Code if the advisory committee has 12 or more
11 members.

12 (e) (1) A local agency may use teleconferencing without
13 complying with the requirements of paragraph (3) of subdivision
14 (b) if the legislative body complies with the requirements of
15 paragraph (2) of this subdivision in any of the following
16 circumstances:

17 (A) The legislative body holds a meeting during a proclaimed
18 state of emergency, and state or local officials have imposed or
19 recommended measures to promote social distancing.

20 (B) The legislative body holds a meeting during a proclaimed
21 state of emergency for the purpose of determining, by majority
22 vote, whether, as a result of the emergency, meeting in person
23 would present imminent risks to the health or safety of attendees.

24 (C) The legislative body holds a meeting during a proclaimed
25 state of emergency and has determined, by majority vote, pursuant
26 to subparagraph (B), that, as a result of the emergency, meeting
27 in person would present imminent risks to the health or safety of
28 attendees.

29 (2) A legislative body that holds a meeting pursuant to this
30 subdivision shall do all of the following:

31 (A) The legislative body shall give notice of the meeting and
32 post agendas as otherwise required by this chapter.

33 (B) The legislative body shall allow members of the public to
34 access the meeting and the agenda shall provide an opportunity
35 for members of the public to address the legislative body directly
36 pursuant to Section 54954.3. In each instance in which notice of
37 the time of the teleconferenced meeting is otherwise given or the
38 agenda for the meeting is otherwise posted, the legislative body
39 shall also give notice of the means by which members of the public
40 may access the meeting and offer public comment. The agenda

1 shall identify and include an opportunity for all persons to attend
2 via a call-in option or an internet-based service option. This
3 subparagraph shall not be construed to require the legislative body
4 to provide a physical location from which the public may attend
5 or comment.

6 (C) The legislative body shall conduct teleconference meetings
7 in a manner that protects the statutory and constitutional rights of
8 the parties and the public appearing before the legislative body of
9 a local agency.

10 (D) In the event of a disruption which prevents the public agency
11 from broadcasting the meeting to members of the public using the
12 call-in option or internet-based service option, or in the event of
13 a disruption within the local agency's control which prevents
14 members of the public from offering public comments using the
15 call-in option or internet-based service option, the body shall take
16 no further action on items appearing on the meeting agenda until
17 public access to the meeting via the call-in option or internet-based
18 service option is restored. Actions taken on agenda items during
19 a disruption which prevents the public agency from broadcasting
20 the meeting may be challenged pursuant to Section 54960.1.

21 (E) The legislative body shall not require public comments to
22 be submitted in advance of the meeting and must provide an
23 opportunity for the public to address the legislative body and offer
24 comment in real time. This subparagraph shall not be construed
25 to require the legislative body to provide a physical location from
26 which the public may attend or comment.

27 (F) Notwithstanding Section 54953.3, an individual desiring to
28 provide public comment through the use of an internet website, or
29 other online platform, not under the control of the local legislative
30 body, that requires registration to log in to a teleconference may
31 be required to register as required by the third-party internet
32 website or online platform to participate.

33 (G) (i) A legislative body that provides a timed public comment
34 period for each agenda item shall not close the public comment
35 period for the agenda item, or the opportunity to register, pursuant
36 to subparagraph (F), to provide public comment until that timed
37 public comment period has elapsed.

38 (ii) A legislative body that does not provide a timed public
39 comment period, but takes public comment separately on each
40 agenda item, shall allow a reasonable amount of time per agenda

1 item to allow public members the opportunity to provide public
2 comment, including time for members of the public to register
3 pursuant to subparagraph (F), or otherwise be recognized for the
4 purpose of providing public comment.

5 (iii) A legislative body that provides a timed general public
6 comment period that does not correspond to a specific agenda item
7 shall not close the public comment period or the opportunity to
8 register, pursuant to subparagraph (F), until the timed general
9 public comment period has elapsed.

10 (3) If a state of emergency remains active, or state or local
11 officials have imposed or recommended measures to promote
12 social distancing, in order to continue to teleconference without
13 compliance with paragraph (3) of subdivision (b), the legislative
14 body shall, not later than 30 days after teleconferencing for the
15 first time pursuant to subparagraph (A), (B), or (C) of paragraph
16 (1), and every 30 days thereafter, make the following findings by
17 majority vote:

18 (A) The legislative body has reconsidered the circumstances of
19 the state of emergency.

20 (B) Any of the following circumstances exist:

21 (i) The state of emergency continues to directly impact the
22 ability of the members to meet safely in person.

23 (ii) State or local officials continue to impose or recommend
24 measures to promote social distancing.

25 (4) For the purposes of this subdivision, “state of emergency”
26 means a state of emergency proclaimed pursuant to Section 8625
27 of the California Emergency Services Act (Article 1 (commencing
28 with Section 8550) of Chapter 7 of Division 1 of Title 2).

29 (f) This section shall remain in effect only until January 1, 2024,
30 and as of that date is repealed.

31 SEC. 2. Section 54953 of the Government Code, as added by
32 Section 4 of Chapter 165 of the Statutes of 2021, is amended to
33 read:

34 54953. (a) All meetings of the legislative body of a local
35 agency shall be open and public, and all persons shall be permitted
36 to attend any meeting of the legislative body of a local agency,
37 except as otherwise provided in this chapter.

38 (b) (1) Notwithstanding any other law, the legislative body of
39 a local agency may use teleconferencing for the benefit of the
40 public and the legislative body of a local agency in connection

1 with any meeting or proceeding authorized by law. The
2 teleconferenced meeting or proceeding shall comply with all
3 requirements of this chapter and all otherwise applicable provisions
4 of law relating to a specific type of meeting or proceeding.

5 (2) Teleconferencing, as authorized by this section, may be used
6 for all purposes in connection with any meeting within the subject
7 matter jurisdiction of the legislative body. All votes taken during
8 a teleconferenced meeting shall be by rollcall.

9 (3) (A) If the legislative body of a local agency elects to use
10 teleconferencing, it shall post agendas at all teleconference
11 locations and conduct teleconference meetings in a manner that
12 protects the statutory and constitutional rights of the parties or the
13 public appearing before the legislative body of a local agency.

14 (B) Each teleconference location shall be identified in the notice
15 and agenda of the meeting or proceeding, and each teleconference
16 location shall be accessible to the public, except as provided in
17 subparagraph (E).

18 (C) The agenda shall identify any member of the legislative
19 body that will participate in the meeting remotely. If a member of
20 the legislative body elects to participate in the meeting remotely
21 after the agenda is posted, an updated agenda shall be posted. In
22 the time between the start of the meeting and 72 hours before a
23 regular meeting, in accordance with Section 54954.2, and 24 hours
24 before a special meeting, in accordance with Section 54956, a
25 legislative body shall only update the agenda to reflect the members
26 participating in the meeting remotely.

27 (D) During the teleconference, at least a quorum of the members
28 of the legislative body shall participate from locations within the
29 boundaries of the territory over which the local agency exercises
30 jurisdiction, except as provided in subdivision (d). The agenda
31 shall provide an opportunity for members of the public to address
32 the legislative body directly pursuant to Section 54954.3 at each
33 teleconference location, except as provided in subparagraph (E).

34 (E) If a member of a legislative body elects to teleconference
35 from a location that is not a public place, the legislative body shall
36 be exempt from identifying the address of the location in the notice
37 and agenda and from having the location be accessible to the public
38 ~~in both of the following circumstances: if both of the following~~
39 *circumstances are present:*

1 ~~(i) The legislative body holds its first teleconferenced meeting~~
2 ~~after passage of the act that added this subparagraph, for the~~
3 ~~purpose of determining, by a majority vote, whether members will~~
4 ~~not be required to identify the address of any private location from~~
5 ~~which the member elects to teleconference. This determination~~
6 ~~remains applicable to the legislative body until such time as the~~
7 ~~legislative body votes otherwise.~~

8 (ii)

9 (i) The legislative body holds a meeting and has ~~previously~~
10 determined, by majority vote, that members will not be required
11 to identify the address of any private location from which the
12 member elects to teleconference. *A determination described by*
13 *this clause shall remain applicable to the legislative body until*
14 *the legislative body votes otherwise.*

15 (ii) *At least a quorum of members of the legislative body*
16 *participates from a single physical location that is clearly identified*
17 *on the agenda, open to the public, and situated within the*
18 *boundaries of the territory over which the local agency has*
19 *jurisdiction.*

20 (F) If a legislative body elects to use teleconferencing as
21 authorized by this section, it shall provide both of the following:

22 (i) A video stream accessible to members of the public.

23 (ii) An option for members of the public to address the body
24 remotely during the public comment period through an audio-visual
25 or call-in option.

26 (4) For the purposes of this section, “teleconference” means a
27 meeting of a legislative body, the members of which are in different
28 locations, connected by electronic means, through either audio or
29 video, or both. Nothing in this section shall prohibit a local agency
30 from providing the public with additional teleconference locations.

31 (5) For the purposes of this section, “video stream” means a
32 medium in which the data from a live filming or a video file is
33 continuously delivered via the internet to a remote user, allowing
34 a video to be viewed online by the public without being
35 downloaded on a host computer or device.

36 (c) (1) No legislative body shall take action by secret ballot,
37 whether preliminary or final.

38 (2) The legislative body of a local agency shall publicly report
39 any action taken and the vote or abstention on that action of each
40 member present for the action.

1 (3) Prior to taking final action, the legislative body shall orally
2 report a summary of a recommendation for a final action on the
3 salaries, salary schedules, or compensation paid in the form of
4 fringe benefits of a local agency executive, as defined in
5 subdivision (d) of Section 3511.1, during the open meeting in
6 which the final action is to be taken. This paragraph shall not affect
7 the public's right under the California Public Records Act (Division
8 10 (commencing with Section 7920.000) of Title 1) to inspect or
9 copy records created or received in the process of developing the
10 recommendation.

11 (d) (1) Notwithstanding the provisions relating to a quorum in
12 paragraph (3) of subdivision (b), if a health authority conducts a
13 teleconference meeting, members who are outside the jurisdiction
14 of the authority may be counted toward the establishment of a
15 quorum when participating in the teleconference if at least 50
16 percent of the number of members that would establish a quorum
17 are present within the boundaries of the territory over which the
18 authority exercises jurisdiction, and the health authority provides
19 a teleconference number, and associated access codes, if any, that
20 allows any person to call in to participate in the meeting and the
21 number and access codes are identified in the notice and agenda
22 of the meeting.

23 (2) Nothing in this subdivision shall be construed as
24 discouraging health authority members from regularly meeting at
25 a common physical site within the jurisdiction of the authority or
26 from using teleconference locations within or near the jurisdiction
27 of the authority. A teleconference meeting for which a quorum is
28 established pursuant to this subdivision shall be subject to all other
29 requirements of this section.

30 (3) For purposes of this subdivision, a health authority means
31 any entity created pursuant to Sections 14018.7, 14087.31,
32 14087.35, 14087.36, 14087.38, and 14087.9605 of the Welfare
33 and Institutions Code, any joint powers authority created pursuant
34 to Article 1 (commencing with Section 6500) of Chapter 5 of
35 Division 7 for the purpose of contracting pursuant to Section
36 14087.3 of the Welfare and Institutions Code, and any advisory
37 committee to a county-sponsored health plan licensed pursuant to
38 Chapter 2.2 (commencing with Section 1340) of Division 2 of the
39 Health and Safety Code if the advisory committee has 12 or more
40 members.

1 (e) This section shall become operative January 1, 2024.
2 (f) This section shall remain in effect only until January 1, 2030,
3 and as of that date is repealed.
4 SEC. 3. Section 54953 is added to the Government Code, to
5 read:
6 54953. (a) All meetings of the legislative body of a local
7 agency shall be open and public, and all persons shall be permitted
8 to attend any meeting of the legislative body of a local agency,
9 except as otherwise provided in this chapter.
10 (b) (1) Notwithstanding any other provision of law, the
11 legislative body of a local agency may use teleconferencing for
12 the benefit of the public and the legislative body of a local agency
13 in connection with any meeting or proceeding authorized by law.
14 The teleconferenced meeting or proceeding shall comply with all
15 requirements of this chapter and all otherwise applicable provisions
16 of law relating to a specific type of meeting or proceeding.
17 (2) Teleconferencing, as authorized by this section, may be used
18 for all purposes in connection with any meeting within the subject
19 matter jurisdiction of the legislative body. All votes taken during
20 a teleconferenced meeting shall be by rollcall.
21 (3) If the legislative body of a local agency elects to use
22 teleconferencing, it shall post agendas at all teleconference
23 locations and conduct teleconference meetings in a manner that
24 protects the statutory and constitutional rights of the parties or the
25 public appearing before the legislative body of a local agency.
26 Each teleconference location shall be identified in the notice and
27 agenda of the meeting or proceeding, and each teleconference
28 location shall be accessible to the public. During the teleconference,
29 at least a quorum of the members of the legislative body shall
30 participate from locations within the boundaries of the territory
31 over which the local agency exercises jurisdiction, except as
32 provided in subdivision (d). The agenda shall provide an
33 opportunity for members of the public to address the legislative
34 body directly pursuant to Section 54954.3 at each teleconference
35 location.
36 (4) For the purposes of this section, “teleconference” means a
37 meeting of a legislative body, the members of which are in different
38 locations, connected by electronic means, through either audio or
39 video, or both. Nothing in this section shall prohibit a local agency

1 from providing the public with additional teleconference ~~locations~~
2 *locations*.

3 (c) (1) No legislative body shall take action by secret ballot,
4 whether preliminary or final.

5 (2) The legislative body of a local agency shall publicly report
6 any action taken and the vote or abstention on that action of each
7 member present for the action.

8 (3) Prior to taking final action, the legislative body shall orally
9 report a summary of a recommendation for a final action on the
10 salaries, salary schedules, or compensation paid in the form of
11 fringe benefits of a local agency executive, as defined in
12 subdivision (d) of Section 3511.1, during the open meeting in
13 which the final action is to be taken. This paragraph shall not affect
14 the public's right under the California Public Records Act (Division
15 10 (commencing with Section 7920.000) of Title 1) to inspect or
16 copy records created or received in the process of developing the
17 recommendation.

18 (d) (1) Notwithstanding the provisions relating to a quorum in
19 paragraph (3) of subdivision (b), if a health authority conducts a
20 teleconference meeting, members who are outside the jurisdiction
21 of the authority may be counted toward the establishment of a
22 quorum when participating in the teleconference if at least 50
23 percent of the number of members that would establish a quorum
24 are present within the boundaries of the territory over which the
25 authority exercises jurisdiction, and the health authority provides
26 a teleconference number, and associated access codes, if any, that
27 allows any person to call in to participate in the meeting and the
28 number and access codes are identified in the notice and agenda
29 of the meeting.

30 (2) Nothing in this subdivision shall be construed as
31 discouraging health authority members from regularly meeting at
32 a common physical site within the jurisdiction of the authority or
33 from using teleconference locations within or near the jurisdiction
34 of the authority. A teleconference meeting for which a quorum is
35 established pursuant to this subdivision shall be subject to all other
36 requirements of this section.

37 (3) For purposes of this subdivision, a health authority means
38 any entity created pursuant to Sections 14018.7, 14087.31,
39 14087.35, 14087.36, 14087.38, and 14087.9605 of the Welfare
40 and Institutions Code, any joint powers authority created pursuant

1 to Article 1 (commencing with Section 6500) of Chapter 5 of
2 Division 7 for the purpose of contracting pursuant to Section
3 14087.3 of the Welfare and Institutions Code, and any advisory
4 committee to a county-sponsored health plan licensed pursuant to
5 Chapter 2.2 (commencing with Section 1340) of Division 2 of the
6 Health and Safety Code if the advisory committee has 12 or more
7 members.

8 (e) This section shall become operative January 1, 2030.

9 SEC. 4. The Legislature finds and declares that Sections 1, 2,
10 and 3 of this act, which amend, repeal, and add Section 54953 of
11 the Government Code, further, within the meaning of paragraph
12 (7) of subdivision (b) of Section 3 of Article I of the California
13 Constitution, the purposes of that constitutional section as it relates
14 to the right of public access to the meetings of local public bodies
15 or the writings of local public officials and local agencies. Pursuant
16 to paragraph (7) of subdivision (b) of Section 3 of Article I of the
17 California Constitution, the Legislature makes the following
18 findings:

19 This act is necessary to ensure minimum standards for public
20 participation allowing for greater public participation in
21 teleconference meetings.

22 SEC. 5. (a) The Legislature finds and declares that during the
23 COVID-19 public health emergency, certain requirements of the
24 Ralph M. Brown Act (Chapter 9 (commencing with Section 54950)
25 of Part 1 of Division 2 of Title 5 of the Government Code) and the
26 Bagley-Keene Open Meeting Act (Article 9 (commencing with
27 Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of
28 the Government Code) were suspended by Executive Order No.
29 N-29-20. Audio and video teleconference were widely used to
30 conduct public meetings in lieu of physical location meetings, and
31 public meetings conducted by teleconference during the COVID-19
32 public health emergency have been productive, have increased
33 public participation by all members of the public regardless of
34 their location in the state and ability to travel to physical meeting
35 locations, have protected the health and safety of civil servants
36 and the public, and have reduced travel costs incurred by members
37 of state bodies and reduced work hours spent traveling to and from
38 meetings.

39 (b) The Legislature finds and declares that Sections 1, 2, and 3
40 of this act, which amend, repeal, and add Section 54953 of the

1 Government Code, impose a potential limitation on the public's
2 right of access to the meetings of public bodies or the writings of
3 public officials and agencies within the meaning of Section 3 of
4 Article I of the California Constitution. Pursuant to that
5 constitutional provision, the Legislature makes the following
6 findings to demonstrate the interest protected by this potential
7 limitation and the need for protecting that interest:

8 By removing the requirement for each teleconference location
9 to be identified in the notice and agenda, including the member's
10 private home address, and by providing exceptions to the
11 requirements that each teleconference location must be accessible
12 to the public and that members of the public be given the
13 opportunity to address the legislative body directly at each
14 teleconference location, this act protects the personal, private
15 information and location of public officials and their families while
16 preserving the public's right to access information concerning the
17 conduct of the people's business.

O

AB 2449 (Rubio)

Open meetings: local agencies: teleconferences.

Summary: This bill would allow members of a local legislative body to use teleconferencing for a public meeting without identifying each teleconference location or making those locations accessible to the public, if a quorum of the legislative body members participate in person from a single physical location that is:

- Identified on the agenda;
- Open to the public; and
- Within the local agency’s jurisdiction.

The bill would sunset on January 1, 2028.

There are two similar bills that would allow local agencies to hold public meetings via teleconferencing, AB 1944 (Lee) and this bill, AB 2449 (Rubio). This bill would establish requirements for teleconferencing beyond AB 1944.

Background: Existing law, the Ralph M. Brown Act (Act), requires that all meetings of a local agency’s legislative body are open, public and all persons are permitted to attend and participate. The Act also requires agendas to be publicly posted and allows for meetings to occur via teleconferencing, subject to certain requirements, including:

- Legislative body must notice the teleconference location of each member who is participating in the public meeting;
- Every teleconference location must be accessible to the public;
- Members of the public must be allowed to address the legislative body at each teleconference location;
- Legislative body must post an agenda at each teleconference location; and
- At least a quorum of the legislative body must participate from locations within the boundaries of the local agency’s jurisdiction.

When a declared state of emergency is in effect, or in other situations related to public health, existing law authorizes a local agency to use teleconferencing without complying with specified requirements until January 1, 2024.

Status: 5/27/22 - In Senate. Read first time. To Senate Rules Committee for assignment.

Specific Provisions: This bill would allow a local agency to use teleconferencing without identifying each teleconference location in the notice and agenda, if a quorum of the legislative body members participate in person from the same physical location identified on

the agenda. The physical location of the meeting where the quorum is present must be open to the public and situated within the boundaries the local agency's jurisdiction.

AB 2449 would also require the legislative body to comply with requirements, including:

- Provide a two-way audio-visual platform or a two-way telephonic service and a live webcasting of the meeting to enable the public to remotely hear and address the legislative body as well as visually observe the meeting.
- All members of the legislative body attending the meeting by teleconference shall participate through both audio and visual technology.
- If a disruption prevents the agency from broadcasting the meeting or prevents members of the public from offering remote comments, the body shall take no further action until access for the public is restored.
- The legislative body shall not require public comments to be submitted in advance of the meeting and must provide an opportunity for the public to address the legislative body and offer comment in real time.

The bill would not allow any member of a legislative body to participate in meetings by teleconference from a remote location for a period of more than three consecutive months.

This bill would sunset on January 1, 2028.

Impacts on South Coast AQMD's Mission, Operations or Initiatives: During the pandemic, public entities have been able to hold teleconferenced public meetings with certain exemptions from Brown Act requirements. The flexibility created by those exemptions has facilitated board members' and the public's ability to safely attend public meetings remotely and has resulted in increased public participation.

This bill would enable local legislative bodies, including the South Coast AQMD, to not rely on a declared state of emergency to continue hold virtual or hybrid public meetings. Continuing to allow Board Members to participate remotely from an undisclosed location is critical for personal privacy and safety, especially if the location is a private residence. In sum, the bill would modernize existing law while maintaining transparency and public participation.

Staff recommend the following amendments:

- 1) Eliminate the requirement that the in-person quorum of members be at a single location. This is problematic for agencies with large geographical jurisdictions.
- 2) Eliminate requirements that members of the legislative body may only participate in the meeting remotely if:
 - a) The agenda identifies that the member of the legislative body will participate in the meeting remotely and provides a brief description why they need to

- appear remotely or describes the circumstances they need to participate remotely after the meeting agenda was posted. The circumstances for remote participation by the member must be publicly disclosed at the meeting before action is taken; and
- b) The member publicly discloses at the meeting before action is taken, whether individuals 18 years of age or older are present in the room at the remote location, and the nature of the member’s relationship with such individuals.
- 3) Delete provision that prohibits any member of a legislative body from participating in meetings solely by teleconference from a remote location for three consecutive months.

AMENDED IN ASSEMBLY MAY 23, 2022

CALIFORNIA LEGISLATURE—2021–22 REGULAR SESSION

ASSEMBLY BILL

No. 2449

Introduced by Assembly Member Blanca Rubio

February 17, 2022

An act to ~~amend~~ *amend, repeal, and add* Section 54953 of the Government Code, relating to local government.

LEGISLATIVE COUNSEL'S DIGEST

AB 2449, as amended, Blanca Rubio. Open meetings: local agencies: teleconferences.

Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body of a local agency, as those terms are defined, be open and public and that all persons be permitted to attend and participate. The act contains specified provisions regarding the timelines for posting an agenda and providing for the ability of the public to observe and provide comment. The act allows for meetings to occur via teleconferencing subject to certain requirements, particularly that the legislative body notice each teleconference location of each member that will be participating in the public meeting, that each teleconference location be accessible to the public, that members of the public be allowed to address the legislative body at each teleconference location, that the legislative body post an agenda at each teleconference location, and that at least a quorum of the legislative body participate from locations within the boundaries of the local agency's jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined.

Existing law, until January 1, 2024, authorizes a local agency to use teleconferencing without complying with those specified

teleconferencing requirements in specified circumstances when a declared state of emergency is in effect, or in other situations related to public health.

This bill would *revise and recast those teleconferencing provisions and, until January 1, 2028, would* authorize a local agency to use teleconferencing without complying with ~~those specified~~ *the teleconferencing requirements that each teleconference location be identified in the notice and agenda and that each teleconference location be accessible to the public* if at least a quorum of the members of the legislative body participates in person from a singular *physical* location clearly identified on the agenda that is open to the public and situated within the local agency's jurisdiction. ~~The~~ *Under this exception, the bill would authorize a member to participate remotely only under specified circumstances and for a period of three consecutive months.*

This bill would impose prescribed requirements for this exception relating to notice, agendas, the means and manner of access, and procedures for disruptions. The bill would require the legislative body to implement a procedure for receiving and swiftly resolving requests for reasonable accommodation for individuals with disabilities, consistent with federal law.

Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would make legislative findings to that effect.

The California Constitution requires local agencies, for the purpose of ensuring public access to the meetings of public bodies and the writings of public officials and agencies, to comply with a statutory enactment that amends or enacts laws relating to public records or open meetings and contains findings demonstrating that the enactment furthers the constitutional requirements relating to this purpose.

This bill would make legislative findings to that effect.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 54953 of the Government Code, as

20 (3) Prior to taking final action, the legislative body shall orally
21 report a summary of a recommendation for a final action on the
22 salaries, salary schedules, or compensation paid in the form of
23 fringe benefits of a local agency executive, as defined in
24 subdivision (d) of Section 3511.1, during the open meeting in
25 which the final action is to be taken. This paragraph shall not affect
26 the public’s right under the California Public Records Act (Division
27 10 (commencing with Section 7920.000) ~~of~~ of Title 1) to inspect
28 or copy records created or received in the process of developing
29 the recommendation.

30 (d) (1) Notwithstanding the provisions relating to a quorum in
31 paragraph (3) of subdivision (b), if a health authority conducts a
32 teleconference meeting, members who are outside the jurisdiction
33 of the authority may be counted toward the establishment of a
34 quorum when participating in the teleconference if at least 50
35 percent of the number of members that would establish a quorum
36 are present within the boundaries of the territory over which the
37 authority exercises jurisdiction, and the health authority provides
38 a teleconference number, and associated access codes, if any, that
39 allows any person to call in to participate in the meeting and the

1 number and access codes are identified in the notice and agenda
2 of the meeting.

3 (2) Nothing in this subdivision shall be construed as
4 discouraging health authority members from regularly meeting at
5 a common physical site within the jurisdiction of the authority or
6 from using teleconference locations within or near the jurisdiction
7 of the authority. A teleconference meeting for which a quorum is
8 established pursuant to this subdivision shall be subject to all other
9 requirements of this section.

10 (3) For purposes of this subdivision, a health authority means
11 any entity created pursuant to Sections 14018.7, 14087.31,

 16 the benefit of the public and the legislative body of a local agency
 17 in connection with any meeting or proceeding authorized by law.
 18 The teleconferenced meeting or proceeding shall comply with all
 19 requirements of this chapter and all otherwise applicable
 20 provisions of law relating to a specific type of meeting or

 31 Each teleconference location shall be identified in the notice and
 32 agenda of the meeting or proceeding, and each teleconference
 33 location shall be accessible to the public. During the
 34 teleconference, at least a quorum of the members of the legislative

26 percent of the number of members that would establish a quorum
27 are present within the boundaries of the territory over which the
28 authority exercises jurisdiction, and the health authority provides

 8 committee to a county-sponsored health plan licensed pursuant to
 9 Chapter 2.2 (commencing with Section 1340) of Division 2 of the
 10 Health and Safety Code if the advisory committee has 12 or more
 11 members.

12 (e) This section shall become operative January 1, 2028.

13 ~~SEC. 3.~~

14 *SEC. 4.* The Legislature finds and declares that Sections 1 and
 15 2 of this act, which amend Section 54953 of the Government Code,
 16 impose a limitation on the public's right of access to the meetings
 17 of public bodies or the writings of public officials and agencies
 18 within the meaning of Section 3 of Article I of the California
 19 Constitution. Pursuant to that constitutional provision, the
 20 Legislature makes the following findings to demonstrate the interest
 21 protected by this limitation and the need for protecting that interest:

22 By removing the requirement for agendas to be placed at the
 23 location of each public official participating in a public meeting
 24 remotely, including from the member's private home or hospital
 25 room, this act protects the personal, private information of public
 26 officials and their families while preserving the public's right to
 27 access information concerning the conduct of the people's business.

28 ~~SEC. 4.~~

29 *SEC. 5.* The Legislature finds and declares that Sections 1 and
 30 2 of this act, which amend Section 54953 of the Government Code,
 31 further, within the meaning of paragraph (7) of subdivision (b) of
 32 Section 3 of Article I of the California Constitution, the purposes
 33 of that constitutional section as it relates to the right of public
 34 access to the meetings of local public bodies or the writings of
 35 local public officials and local agencies. Pursuant to paragraph (7)
 36 of subdivision (b) of Section 3 of Article I of the California
 37 Constitution, the Legislature makes the following findings:

1 This act is necessary to ensure minimum standards for public
2 participation and notice requirements allowing for greater public
3 participation in teleconference meetings.

AB 2766 (Maienschein)

Unfair Competition Law: enforcement powers: investigatory subpoena.

Summary: This bill would grant the same investigatory powers as the Attorney General to:

- A city attorney of any city having a population in excess of 750,000;
- A county counsel of any county within which a city has a population in excess of 750,000; or
- An attorney of a city and county, when the city attorney or county counsel reasonably believes that there may have been a violation of the Unfair Competition Law (UCL).

Background: The UCL establishes a statutory cause of action for unfair competition, including any unlawful, unfair, or fraudulent business act or practice and unfair, deceptive, untrue, or misleading advertising. UCL actions for relief are required to be prosecuted exclusively by the Attorney General, a district attorney, a county counsel authorized by agreement with the district attorney in actions involving violation of a county ordinance, a city attorney of a city having a population in excess of 750,000 or by a county counsel of any county within which a city has a population in excess of 750,000, or a city attorney in a city and county, or with the consent of the district attorney, by a city prosecutor in a city having a full-time city prosecutor in the name of the people of the State of California, or by a person who has suffered injury in fact and has lost money or property as a result of the unfair competition.

Existing law authorizes a district attorney, upon reasonable belief there has been a violation of the UCL or various other laws related to unfair business practices, to exercise all the powers granted to the Attorney General as a head of a department to investigate the potential violation, including the authority to issue subpoenas.

Status: 6/1/22 - Referred to Senate Judiciary Committee.

Specific Provisions: This bill would grant the same investigatory power as the Attorney General as a head of a department to:

- A city attorney of any city having a population in excess of 750,000;
- A county counsel of any county within which a city has a population in excess of 750,000; or
- An attorney of a city and county, when the city attorney or county counsel reasonably believes that there may have been a violation of the UCL.

Impacts on South Coast AQMD's Mission, Operations or Initiatives: This bill would give investigative tools and powers to investigate those cases, including the ability to issue

pre-litigation subpoenas to city attorneys and county counsels with the largest populations. These city and county attorneys already have the power to prosecute unfair competition law cases.

Investigatory powers granted under AB 2766 to city and county attorneys could impact air districts, including South Coast AQMD, and public agencies if:

- The power is used to investigate cases already within their jurisdiction and/or purview without proper coordination; or
- City attorneys or county counsels used the powers to access South Coast AQMD's or other public agencies' records in order to prosecute cases.

At the same time, if this investigatory and subpoena power was granted to air districts, it could strengthen their abilities to address problematic facilities which could reduce air pollution and help to protect public health.

Staff recommend working with the author to better understand how the bill could impact South Coast AQMD and to explore giving air district attorneys investigatory and subpoena powers. Issues and concerns to be discussed include:

- Requiring these subpoenas and investigatory powers to be used in coordination with local air districts' efforts;
- Ensuring public agencies cannot be subpoenaed on matters already being investigated and/or prosecuted by that agency; and
- Granting local air district attorneys the same subpoena and investigatory powers.

ASSEMBLY BILL**No. 2766****Introduced by Assembly Member Maienschein**

February 18, 2022

An act to amend Section 16759 of the Business and Professions Code, relating to business.

LEGISLATIVE COUNSEL'S DIGEST

AB 2766, as introduced, Maienschein. Unfair Competition Law: enforcement powers: investigatory subpoena.

The Unfair Competition Law (UCL) establishes a statutory cause of action for unfair competition, including any unlawful, unfair, or fraudulent business act or practice and unfair, deceptive, untrue, or misleading advertising. Under this law, actions for relief are required to be prosecuted exclusively by the Attorney General, a district attorney, a county counsel authorized by agreement with the district attorney in actions involving violation of a county ordinance, a city attorney of a city having a population in excess of 750,000 or by a county counsel of any county within which a city has a population in excess of 750,000, or a city attorney in a city and county, or, with the consent of the district attorney, by a city prosecutor in a city having a full-time city prosecutor in the name of the people of the State of California, as specified, or by a person who has suffered injury in fact and has lost money or property as a result of the unfair competition.

Existing law authorizes a district attorney, upon reasonable belief there has been a violation of the UCL or various other laws related to unfair business practices, to exercise all the powers granted to the Attorney General as a head of a department to investigate the potential violation, including the authority to issue subpoenas.

This bill would grant the investigatory power granted to the Attorney General as a head of a department to the city attorney of any city having a population in excess of 750,000, to the county counsel of any county within which a city has a population in excess of 750,000, or to a city attorney of a city and county, when the city attorney or county counsel reasonably believes that there may have been a violation of the UCL.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

Re: May Report

HOUSE/SENATE

The House is not in session until June 7.

The Senate is currently working through the backlog of nominations. As of now, the COVID-19 emergency funding package appears to remain stuck in the Senate until there is some resolution addressing Title 42, the public health authority allowing swift expulsion of asylum seekers.

The House and Senate have commenced negotiations to resolve the differences between the two chambers' competitiveness bills, S 1260, the US Innovation and Competition Act, and HR 4521, the America COMPETES Act. With basic formalities dispensed with, negotiators now must work through the thorniest issues that divide the chambers with the trade title at the top of that list. As of now, it is not likely that a final agreement will be reached before the end of July, with potential to slip to the Fall.

Hearings on the Administration's budget requests continue in the House and the Senate. Submissions for FY2023 appropriations requests wrap up this week, and committee staff will continue to work behind the scenes to draft their bills.

The reconciliation vehicle that allows Democrats to pass a tax and spending bill remains alive until September 30. Until then, there is a chance for a scaled back version of Build Back Better

to pass. Congressional Democrats see the legislation as their final ability to show progress to voters prior to the November midterms. Senator Joe Manchin (D-WV) has indicated he could support a bill that includes prescription drug price controls, corporate tax increases and green energy spending. Senate Majority Leader Schumer and Senator Manchin and their staffs are continuing discussions.

In July, the House is slated to consider the National Defense Authorization Act, a number of Appropriations bills, and an economic development bill from the Committee on Transportation and Infrastructure. Additionally, any Conference Reports will come to the floor when they are ready.

EPA

The Bipartisan Infrastructure Law created a new EPA program to protect children's health, reduce pollution, and boost American manufacturing by providing \$500 million for school districts and other eligible school bus operators and contractors to begin replacing the nation's fleet of school buses with clean, American-made, zero-emission buses. This \$500 million represents the first round of funding out of the unprecedented \$5 billion investment for low and zero-emission school buses over the next five years, secured through President Biden's Bipartisan Infrastructure Law.

Vice President Kamala Harris, Administrator Michael S. Regan and White House Infrastructure Coordinator Mitch Landrieu will visit Meridian High School in Falls Church, Virginia to make the announcement and highlight how it will reduce greenhouse gas pollution, provide cleaner air around schools and communities, and better protect children's health. The investment will also drive demand for American-made batteries and vehicles, boost domestic manufacturing, and create good-paying jobs.

EPA is accepting applications from May 20, 2022, until August 19, 2022. Questions about applying may be directed to CleanSchoolBus@epa.gov. This is the first competition that EPA is running through the Clean School Bus program. The Agency will also launch a grant competition later this year. Further Clean School Bus competitions funded by the Bipartisan Infrastructure Law will be run every year over the next five years. To learn more about the rebate programs, applicant eligibility, selection process, and informational webinar dates, visit www.epa.gov/cleanschoolbus.

Earlier in May, the EPA moved to protect people from per- and polyfluoroalkyl substances (PFAS) by adding five PFAS chemicals for a total of six PFAS chemicals to a list of risk-based values that help EPA determine if response or remediation activities are needed. EPA's action provides the Agency with critical tools needed for Superfund and other Agency programs to investigate contamination and protect people from these PFAS chemicals using the latest peer-reviewed science. In addition to updating the Regional Screening Levels and Regional Removal Management Levels, EPA is moving as quickly as possible to update the interim health advisories for PFOA and PFOS to reflect new science and input from the Science Advisory Board.

Concurrently, EPA will continue to develop a proposed PFAS National Drinking Water Regulation for publication in fall 2022. EPA anticipates finalizing the rule in fall of 2023.

Cassidy and Associates support in May:

- Secured key meetings with the Biden Administration for Executive staff
- Worked with South Coast AQMD staff to strategize on DC outreach
- Continued to monitor and report on activities in Congress and the Administration that impact the District.

KADESH & ASSOCIATES

South Coast AQMD Report for the June 2022 Legislative Meeting covering May 2022 Kadesh & Associates

The Senate has been in session for all of May, with the House in session for two weeks. In that time, much of the activity has been focused on emergency appropriations. The Biden administration requested additional emergency funds to support Ukraine at the end of April, as funding provided in March for that purpose was quickly diminishing. The House approved a supplementary appropriations bill for Ukraine shortly thereafter, and after a brief delay in the Senate, the \$40B aid package was sent to President Biden and signed into law.

The other emergency spending bill, for Covid-19 vaccines and preparedness, has stalled indefinitely in the Senate. As a condition for approving the \$10B Covid-19 compromise, Senate Republicans have called for a vote on Title 42, relating to immigration and public health. Initially, leadership in Congress had hoped to couple the two emergency funding measures, but President Biden conceded that the Covid-19 funding will be dealt with separately from Ukraine. An eventual Covid-19 funding deal will likely look very different from the \$10B compromise that was reached earlier, as some of the proposed funding offsets have now been spent and there is a growing consensus that more funding will be needed.

Senate Appropriations leadership met this week to determine the path forward for regular FY23 appropriations. The hope is to reach bipartisan agreement in the coming weeks on an overall topline spending figure to enable the Appropriations Committees to write their bills. The House intends to mark up its twelve appropriations bills in June, and Senate Appropriations Chairman Leahy has recently signaled that he hopes to be ready to mark them up in July and August.

Although Sen. Manchin has once again signaled interest in moving legislation related to energy – whether as a result of his bipartisan Senate talks or via the budget reconciliation bill formerly known as Build Back Better – the window for action continues to close, especially as other legislative priorities have continued to crop up and take congressional attention this spring, such as high gas prices and baby formula shortages.

Finally, the Senate EPW Committee met this week to consider the nomination of Joe Goffman to lead the EPA's Office of Air and Radiation. As part of that hearing, Senator Padilla asked him about the clean truck rule and the future regulatory agenda on mobile sources. In response, Mr. Goffman discussed the working group that Region 9 EPA, CARB, and South Coast AQMD and other California air districts have formed to develop recommendations for strategies to address federally regulated mobile sources of air pollution. Among other things, he pointed to the need for investment in technology and incentives to turn over polluting port equipment and on- and off-road vehicles, and credited the local air districts technical staff for its work.

Meetings: In May, Carmen Group arranged virtual meetings for South Coast AQMD staff with the following: House Energy & Commerce Committee Republican staff on Clean Air Act regulatory and compliance issues; U.S. Chamber of Commerce energy/environment staff on the ultra-low NOx truck rule and clean air issues; and Cummins, Inc., technology staff on advanced locomotive engines and related rail regulatory issues.

Senate Nomination Hearing: On May 25, the Senate Environment & Public Works Committee held a hearing on the nomination of Joseph Goffman to be EPA Assistant Administrator for Air and Radiation. Republicans on the committee pressed Goffman on regulatory issues including the Clean Power Plan which is the subject of a pending Supreme Court decision, indicating the committee could be evenly split on supporting his nominalization when it comes to a vote. But despite delays and policy differences, consensus remains strong that Goffman will eventually be confirmed by the full Senate.

MARAD Adds Funds to FY22 Port Infrastructure Grant Program: On May 9, the Maritime Administration (MARAD) announced that \$234.3 million was added to the FY22 round of Port Infrastructure Development Program (PIDP) grants which are to be awarded on a competitive basis to projects that improve the safety and efficiency of goods movement in and around the nation's major ports. The new money -- made available by the late Congressional approval of full-year FY22 appropriations -- is being added to the \$450 million that was first made available under the program solicitation announced in February. Thus, a total of \$684.3 million is now available under the PIDP program for all applications submitted by the May 16, 2022 deadline.

FRA Says New Corridor ID Program Will Guide the Future of Passenger Rail: In May, the Federal Railroad Administration (FRA) announced the establishment of a new Corridor Identification and Development (ID) Program, which is described as a first step in transforming America's passenger rail network through the Bipartisan Infrastructure Law. FRA says the program will set up a pipeline for guiding federal investments and technical assistance, allowing intercity rail projects to be implemented faster and coordinated better than ever before.

EPA Announces Funds Available for Clean School Bus Program: In May, the EPA announced the availability of \$500 million for school districts and other eligible school bus operators and contractors to begin replacing the nation’s fleet of school buses with clean low- or zero-emission buses. This grant solicitation marks the first round of funding out of the \$5 billion allocated over 5 years under the EPA’s new Clean School Bus Program established in the Bipartisan Infrastructure Law. Applications are being accepted through August 19, 2022.

EPA Seeks Small Business Applicants to Advise on Vehicle Emissions Standards: In May, the EPA invited small businesses to nominate themselves or others to participate as Small Entity Representatives (SERs) for a Small Business Advocacy Review (SBAR) Panel focused on the EPA’s development of a rule to reduce air pollutant emissions from cars and light trucks for MYs 2027 and later. Through its May 31 deadline, EPA sought self-nominations from small businesses that may be subject to the rule requirements.

EPA/DOJ Announce New Environmental Justice Enforcement Strategy: On May 5, EPA Administrator Michael Regan and US Attorney General Merrick Garland announced a comprehensive enforcement strategy to advance environmental justice. EPA says the strategy leverages all available legal tools to secure protections for communities that have been overburdened by pollution. This includes restoring Supplemental Environment Projects (SEPs) which the EPA had previously used to provide environmental and/or public health benefits to communities harmed by environmental violations, but which had been halted by the Trump Administration.

EPA Grants Will Fund Projects on Air Toxics at University of California: In May, the EPA announced a total of \$1,997,949 in research grants to three University of California campuses –UC Davis, UC Los Angeles, and UC San Diego – for research to advance measurement and monitoring methods for air toxics and contaminants of emerging concern in the atmosphere.

DOE Announces Funding to Support Electric Vehicle Batteries: In May, the Department of Energy (DOE) announced two separate allocations of significant funding to support electric vehicle battery manufacturing and development. This included \$3.16 billion from the Bipartisan Infrastructure Law to boost domestic battery production and supply chains; and \$45 million through DOE’s Advanced Research Projects Agency-Energy (ARPA-E) to launch what is called the Electric Vehicles for American Low-carbon Living (EVs4ALL), which will support the research and development of advanced batteries that charge faster, have greater efficiency and resilience, and boost consumer confidence against range anxiety.

Legislative Update

As May ends, there has been a flurry of activity as we reach the halfway point of the 2022 legislative year. Friday, May 20 marked the last day for fiscal committees to hear and report bills to the floor introduced in their house of origin. Accordingly, the Senate and Assembly Appropriations Committees combined to refer over 950 bills to their respective suspense files. Generally, any bill that costs the state new money to implement is referred to the suspense file - this rule applies to most bills introduced in any legislative session. Of the roughly 950 bills referred to suspense, 740 passed and 219 bills were held in committee.

Additionally, Friday, May 27th was another critical point in the legislative term: the house of origin deadline. The house of origin deadline requires that any bill must be out of the house it was introduced in and be reported to the other house. The week leading up to the deadline had several long days where legislators considered hundreds of bills on each day to meet the deadline.

Budget Update

On May 13, Governor Newsom presented the 2022–23 May Revision of his January budget proposal. Overall, the May Revision proposes spending of \$300.6 billion in total state funds, consisting of approximately \$227.3 billion from the General Fund, \$68.9 billion from special funds, and \$4.4 billion from bond funds. General Fund revenues are estimated to be nearly \$55 billion higher than January. The May Revision also includes \$18.1 billion in direct relief to millions of Californians to help offset rising costs and it projects an increase in the minimum wage for millions of workers.

While the Revision anticipates a considerable increase in revenue, it also balances that against increased economic uncertainty due to international events, continuing global supply chain disruptions, and persistent record rates of inflation. To hedge against this uncertainty, the Revision reflects \$37.1 billion in budgetary reserves and plans to prepay billions of dollars in state debts and make supplemental deposits into the state's rainy day fund. Additionally, the Revision reflects \$49.2 billion in discretionary surplus, and the overall budget plan spends 94 percent of the discretionary surplus on one-time projects.

The May Revision builds on the Cap-and-Trade Expenditure Plan in the Governor's Budget by targeting additional investments to programs that identify and mitigate methane emissions and protect disadvantaged communities. Specifically, the Administration proposes investing an

additional \$120 million from Cap-and-Trade auction proceeds to two programs. First, the Governor proposes \$100 million from the Greenhouse Gas Reduction Fund on a one-time basis to expand the number of satellites launched for methane observations, which would provide weekly measurement of large methane emissions in the state and enhance enforcement capabilities. Additionally, the Governor proposes \$20 million from the Greenhouse Gas Reduction Fund on a one-time basis for the AB 617 Community Air Protection Program, which reduces emissions in communities with disproportionate exposure to air pollution through targeted air monitoring and community emissions reduction programs. The Governor's Budget included \$240 million to support AB 617 investments; this additional allocation will bring the total proposed investment to \$260 million.

The Legislative Analysts Office has published a new report warning the Legislature that California is at risk of a recession within two years. They also argue that the Governor's May Revisions does not adequately address the State Appropriation Limit (SAL). Under their projections, the SAL requirements would reach \$10 billion to \$20 billion per year over the multiyear period. They believe the administration does not include a plan to address these requirements, which would far exceed the state's operating capacity. Consequently, under May Revision policies, the state likely would have significant budget shortfalls in the coming years.

In June, we will continue to see intense negotiations around the state budget. The budget bill must be approved by the Legislature before midnight on June 15th. In the last couple years, conversations around the budget often continue into July and August. We anticipate that will continue to be the case this year.

SUBJECT: Legislative Update – April 2022
DATE: Thursday, May 26, 2022

The months of April and May are arguably some of the busiest months in the legislative calendar. April 29, 2022 marked the passage of the deadline for all bills, with potential costs to the state, to pass out of their policy committees in their house of origin. As you can imagine, most bills introduced in the Legislature cost some money to implement, meaning most bills have to be heard and passed by this deadline to stay alive. Furthermore, May 20, 2022 was the deadline to pass all bills, with costs associated with them, out of the Appropriations Committee and to the floor of their house of origin. Lastly, May 27, 2022 is the deadline for all bills to pass off the floor and to the other house (Assembly bills to the Senate and Senate bills to the Assembly).

While all of this is going on, work continues on the state budget throughout April and May. On May 13, 2022, Governor Newsom presented his May Revise to his January Budget Proposal. The Governor's May Revise estimates a \$97 billion surplus and proposes a \$300.7 billion budget spending plan, which is \$14.2 billion more than his January Budget proposal. Of the \$300.7 billion, \$227.4 billion is General Fund, \$68.9 billion is special funds, and \$4.4 billion is bond funds. The total budget, which includes \$140.9 billion in federal funds, totals \$441.6 billion.

To compare the May Revise to last year's budget, General Fund spending increased by \$45.6 billion, from \$203.6 billion to \$249.2 billion.

The following will provide you with updates of interest to South Coast AQMD:

MAY REVISE

On May 13, 2022, Governor Newsom presented his May Revise to his January Budget Proposal and, most notably, announced the state is projected to have a \$97.5 billion surplus. This is the largest surplus the state has ever seen. Roughly half of the surplus is required by law to be spent on education (Proposition 98), leaving roughly \$49 billion in discretionary money. The Governor proposed to reserve 99% of that for one-time spending: \$18.1 billion to provide financial relief for Californians buffeted by inflation, \$37 billion for infrastructure investments (including

\$5.6 billion for education facility upgrades), and an extra \$2.3 billion for the ongoing fight against COVID-19.

Additionally, the Governor's May Revise proposes allocating \$37.1 billion of those funds to Budget Reserves. Under his revised proposal, the Governor dedicated \$23.3 billion to the Rainy-Day Fund (up from \$20.9 billion at the January Governor's Budget), \$3.4 billion to the Special Fund for Economic Uncertainties, \$9.5 billion to the Public School System Stabilization Account, and \$900 million to the Safety Net Reserve.

As part of the May Revise, The Governor's released his California Blueprint, which includes the California Climate Commitment, bringing California's multi-year climate investment to \$47.1 billion. The following will provide you with a summary of the California Climate Commitment:

- \$2.7 billion to reduce the risk of catastrophic wildfires and protect our forests. These projects include forest thinning, prescribed burns, grazing, reforestation, fuel breaks, and new technology to detect wildfires early.
- \$2 billion for near- and long-term actions to address immediate drought needs and build climate-resilient water supplies. Last year, California committed \$5.2 billion to ensure water security for Californians.
- \$800 million to cool our schools and neighborhoods, including projects to reduce urban overheating.
- \$445 million investment to protect Californians, particularly those in disadvantaged communities, against the public health risks of carbon pollution.
- \$6.1 billion, for a total investment to \$10 billion over six years, to fund affordable electric vehicles. It includes \$1.2 billion for EVs and charging in low-income communities and \$2.4 billion for zero-emission trucks and buses.
- \$1.5 billion for electric school buses
- Proposes investments to spur new clean energy technologies, including methane satellites and carbon removal innovation, and to develop California's Lithium Valley.
- \$10 billion energy package, including \$5.2 billion to deploy a Strategic Electricity Reliability Reserve to enhance grid reliability, \$1.2 billion to address past-due electricity bills, \$295 million to develop grid support, and \$970 million to incentivize residential solar and storage installation.
- \$9.1 billion to build cleaner, faster and more accessible public transportation and prepare for the impacts of climate change, including \$7.95 billion for high-speed rail and transit.
- \$2.1 billion to restore our forests, woodlands, grasslands, rivers and other natural wonders that can help play an important role in combating climate change and sequestering carbon, including \$100 million to support tribal initiatives that advance shared climate goals.
- Billions to move our economy off oil and gas and deliver affordable clean energy, invest in clean home upgrades to lower energy bills, build affordable housing and transit, and tackle pollution.
- \$845 million to provide the training and education needed for workers to attain new, clean jobs, build offshore wind, install EV chargers across the state, and upgrade homes and schools.
- \$1.1 billion to farmers who are on the frontlines of extreme weather and invest in farming practices that promote soil health and sustainability.

- \$1 billion in affordable housing development and transportation that reduces carbon pollution and its effects on low income communities.
- Invests in climate and tech tax credits to support innovators and entrepreneurs, expanding innovation hubs, and distributing grants for new businesses.

Now the ball is in the Legislature’s court as Legislative Leaders in the Assembly and Senate decide where they agree with the Governor and which priorities they want negotiate before the June 15th Constitutional deadline to pass a final, balanced budget for the fiscal year that starts July 1, 2022.

CLEAN CAR STANDARDS

On May 19, 2022 Governor Newsom, California Attorney General Rob Bonta, and the California Air Resources Board (CARB) led a multi-state coalition in filing a motion to intervene in defense of the Environmental Protection Agency’s (EPA) decision to restore California’s waiver under the Clean Air Act for its greenhouse gas (GHG) and zero-emission vehicle (ZEV) standards. The coalition seeks to join the EPA in defending the waiver from challenges filed by several states and industry groups.

California’s clean car standards have been adopted by 17 states, representing more than one-third of the U.S. automobile market. These standards, which have been implemented in some states for more than a decade, are essential components of state plans to reduce emissions and attain federally mandated National Ambient Air Quality Standards for particulate matter and ozone, two pollutants which cause significant adverse health impacts.

Governor Newsom, Attorney General Bonta, and CARB have pushed the Biden Administration to reduce emissions from the transportation sector and to reaffirm California’s authority to do the same. This summer, Attorney General Bonta testified and later submitted comments urging the EPA to restore California’s waiver under the Clean Air Act for its GHG and zero-emission vehicle standards. The Attorney General also led a coalition in urging NHTSA to repeal a Trump-era rule, known as the “Preemption Rule,” that purported to preempt California’s GHG and zero-emission vehicles standards.

On December 21, 2021, NHTSA announced a repeal of that rule. More recently, Attorney General Bonta led a multistate coalition in urging the EPA to adopt more stringent GHG standards for light-duty vehicles for model years 2021-2026, and intervened to defend these standards after they were finalized.

In filing the motion, Attorney General Bonta, Governor Newsom, and CARB are joined by the attorneys general of Colorado, Connecticut, Delaware, the District of Columbia, Hawaii, Illinois, Maine, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, New Mexico, New York, North Carolina, Oregon, Rhode Island, Pennsylvania, Vermont, and Washington, as well as the cities of Los Angeles and New York.

CARB’S DRAFT CLIMATE ACTION PLAN

On May 10, 2022, the California Air Resources Board (CARB) released their draft 2022 Climate Change Scoping Plan that will guide the state’s transition to a clean energy economy, reduce the

use of fossil fuels, achieve carbon neutrality by 2045 or sooner, and significantly clean the state's air.

The draft 2022 Climate Change Scoping Plan is the third update to the state's initial 2008 Scoping Plan. It identifies a technologically feasible, cost-effective and equity-focused path to achieve carbon neutrality over the next two decades while also assessing the progress the State is making towards reducing its greenhouse gas emissions by at least 40% below 1990 levels by 2030.

There is now a formal 45-day public comment period where, during that time, the Environmental Justice Advisory Committee may provide additional input on the draft plan. The Board will consider the plan in June and may then provide direction to staff, with an additional period of public comment and engagement prior to the second meeting of the Board in the fall to consider adopting a final draft of the plan.

The most significant aspect of the draft plan is the aggressive pace and scale it calls for to reduce our reliance on fossil fuels. The plan calls for regulations, incentives, and carbon pricing to accelerate the transition to zero-emission transportation, phase out the use of fossil gas used to heat homes and buildings, and provide communities with sustainable options for walking, biking, and public transit. Support for the transportation sector will be through an acceleration of adding more clean, affordable, and reliable renewable energy to displace fossil-fuel fired electricity generation and scaling up new options such as hydrogen and renewable gas for hard-to-electrify end uses.

The draft plan also re-envision our forests, farmlands and rangelands to ensure they play a role in reducing emissions and incorporate and store more carbon. The plan also makes clear that in order to succeed in balancing remaining carbon output with carbon storage, California will need to go beyond the capacity of our natural and working lands and deploy additional methods of capturing carbon dioxide that include pulling it from industrial smokestacks or drawing it out of the atmosphere itself and then safely and permanently storing it.

The draft 2022 Climate Change Scoping Plan was developed by CARB in collaboration and coordination with multiple state agencies. Development of the plan also included robust public engagement including over a dozen workshops, webinars or public meetings over the past year. In addition, the draft plan was shaped by recommendations from the Environmental Justice Advisory Committee to ensure that environmental justice and frontline communities are front and center in the state's efforts to address the climate emergency. The EJAC held 18 meetings and there are some five dozen recommendations of the committee referenced throughout the draft plan.

The draft Scoping Plan evaluated 4 potential scenarios for achieving carbon neutrality, all of which will also achieve the 2030 goal of reducing GHG emissions 40% below 1990 levels. Two of those scenarios would achieve carbon neutrality by 2035; the other two by 2045. CARB staff concluded that Scenario 3 provided the most economically and technologically feasible route to carbon neutrality, including providing equity-based solutions focused on affordability and job preservation.

CEC'S ELECTRIC PROGRAM INVESTMENT CHARGE PROGRAM

On May 19, 2022, the California Energy Commission (CEC) provided an update on their Electric Program Investment Charge (EPIC) program. The EPIC program has invested more than \$130 million annually on projects that advance the environmental sustainability, reliability, and affordability of the electric system. Since 2012, EPIC has supported more than 430 projects with \$1 billion in funding, resulting in \$7.8 billion in private investment raised by awardees ranging from major universities to small start-up companies.

Governor Gavin Newsom's 2022–23 budget proposal builds on EPIC's success by including \$1 billion for grants to companies headquartered in California. The grants would be used to develop and commercialize new technology breakthroughs to help the state achieve its climate and clean energy goals.

Since its inception, the EPIC program has focused on decarbonizing the electrical system and addressing the devastating effects of climate change. More than \$232 million has been approved for projects that reduce GHG emissions while improving the affordability, health, and comfort of homes and businesses.

The EPIC program is investing in innovation in just about every sector of the state including its offshore wind industry, the electrification of its transportation system, the development of long-duration batteries and the advancement of clean energy entrepreneurs.

Other EPIC-funded innovations profiled in the new report include:

- Transparent photovoltaic window coating that can harness solar energy from glass surfaces to generate electricity, all while remaining visibly indistinguishable from traditional windows.
- Panels that use radiative cooling, rejecting heat from rooftops out past the atmosphere and into the cold expanses of space, turning the sky into a renewable resource for cooling.
- 3D concrete printing manufacturing technology that allows for on-site construction of low-cost, ultra-tall wind turbine towers.
- A lithium-metal battery system that increases energy density up to 48 percent along with exceptional power output and cycle life, which increases the range and capacity for electric vehicles and aircraft.

More than two-thirds of EPIC technology demonstration and deployment funds have been invested in projects with sites in low-income and disadvantaged communities and California Native American tribes. In 2020, the EPIC program was renewed by the California Public Utilities Commission ensuring another decade of support for the state's energy future.

❖ **Governor Releases May Revision to the Proposed 2023 Budget Act.** On May 13, 2022, the Governor released the [May Revision](#) to his proposed Budget Act which allocates an additional \$52 billion in surplus funding which resulted from higher than expected tax revenue receipts. The [Legislative Analyst Office](#) (LAO) indicates there may be a heightened risk of recession within the next two years:

“Predicting precisely when the next recession will occur is not possible. However, certain economic indicators historically have offered warning signs that a recession is on the horizon. As shown in Figure 8, many of these indicators currently suggest a heightened risk of a recession within two years. High inflation and tight labor markets suggest an overheated economy is struggling to find avenues for further expansion, an observation seemingly supported by a decline in real gross domestic product in the first quarter of 2022. Home sales have declined as mortgage rates have risen rapidly. Consumer sentiment has fallen to levels typically seen only during recessions. Changes in prices of certain U.S. treasury bonds suggest financial markets may be pessimistic about the economic outlook. In the last five decades, a similar collection of economic conditions has occurred six times. Each of those six times a recession has occurred within two years (and often sooner).

- ❖ **Cap-And-Trade Quarterly Auction Results.** On May 26, CARB released the latest results from the Cap-And-Trade auction that took place on May 18th. Results are largely in line with previous updates on quarterly auction results and continue to outperform the Governor’s assumptions in the budget proposal. This auction raised about \$1.095 billion, which puts the overall revenue raised for the 2021-2022 fiscal year at \$4.5 billion. The Governor’s January budget assumed a total of \$3.5 billion raised at auction in the 2021-2022 fiscal year. This provides additional flexibility for the legislature to make additional investments for priority programs in the 2022-23 Greenhouse Gas Reduction Fund (GGRF) Expenditure Plan, including AB 617 funding, of course. As a reminder, the LAO recently provided a [useful overview](#) of how much additional flexibility is available in the GGRF Expenditure Plan discussions/negotiations.

Below are the totals for the 2021-2022 quarterly results.

August 2021:	\$1,137,078,049.88
November 2021:	\$1,293,418,042.97
February 2022:	\$974,959,720.13
May 2022:	\$1,095,579,789

Of note, the price of allowances sold continues to increase, reflecting a higher price per ton of CO2. This auction settled at a price of \$30.85 per allowance (the minimum/reserve price was \$19.70).
