#### **AGENDA**

-2-

Members of the public may address this body concerning any agenda item before or during consideration of that item (Gov't. Code Section 54954.3(a)). Please provide a Request to Address the Committee card to the Committee Secretary if you wish to address the Committee on an agenda item. If no cards are available, please notify South Coast AQMD staff or a Board Member of your desire to speak. All agendas for regular meetings are posted at South Coast AQMD Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of the regular meeting. Speakers may be limited to three (3) minutes each.

#### **CALL TO ORDER**

### **ACTION ITEMS (Items 1 through 3):**

1. Call to Order/Opening Remarks (*No Motion Required*)

Council Member Ben Benoit Committee Chair

2. Approval of June 12, 2020 Meeting Minutes (Motion Required)
[Attachment 1]

Council Member Ben Benoit Committee Chair

3. Review of Follow-Up/Action Items
(No Motion Required)
Staff will review the follow-up/action items identified in the previous meeting.

Derrick J. Alatorre Deputy Executive Officer Legislative, Public Affairs & Media

### **DISCUSSION ITEMS (Items 4 through 5):**

[Attachment 3]

4. Emissions Reductions and Air Quality Impacts from COVID-19
Pandemic Response
Staff will provide information on data using various indicators to estimate the changes in emissions and the impacts on regional air quality.

(No Motion Required)

### **OTHER MATTERS:**

#### 7. Other Business

Any member of this body, or its staff, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Govt. Code Section 54954.2)

#### Public Comment Period

At the end of the regular meeting agenda, an opportunity is provided for the public to speak on any subject within the Local Government and Small Business Assistance Committee's authority that is not on the agenda. Speakers may be limited to three (3) minutes each.

9. Next Meeting Date - Friday, September 11, 2020 at 11:30 a.m.

#### **ADJOURNMENT**

#### **Document Availability**

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the agenda is posted, are available by contacting Elaine Hills at (909) 396-2945 or send the request to ehills@agmd.gov.

-3-

#### Americans with Disabilities Act and Language Accessibility

Disability and language-related accommodations can be requested to allow participation in the Local Government and Small Business Assistance Advisory Group meeting. The agenda will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov't Code Section 54954.2(a)). In addition, other documents may be requested in alternative formats and languages. Any disability or language-related accommodation must be requested as soon as practicable. Requests will be accommodated unless providing the accommodation would result in a fundamental alteration or undue burden to the South Coast AQMD. Please contact Elaine Hills at (909) 396-2945 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to ehills@aqmd.gov.

#### INSTRUCTIONS FOR ELECTRONIC PARTICIPATION

### Instructions for Participating in a Virtual Meeting as an Attendee

As an attendee, you will have the opportunity to virtually raise your hand and provide public comment.

Before joining the call, please silence your other communication devices such as your cell or desk phone. This will prevent any feedback or interruptions during the meeting.

**Please note:** During the meeting, all participants will be placed on Mute by the host. You will not be able to mute or unmute your lines manually.

After each agenda item, the Chairman will announce public comment.

A countdown timer will be displayed on the screen for each public comment. If interpretation is needed, more time will be allotted.

Once you raise your hand to provide public comment, your name will be added to the speaker list. Your name will be called when it is your turn to comment. The host will then unmute your line.

#### Directions for Video ZOOM on a DESKTOP/LAPTOP:

- If you would like to make a public comment, please click on the "Participants" button on the bottom of the screen.
- A list of participants will appear on the right side of the screen. At the bottom of the list, please click on the grey "Raise Hand" button.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

#### **Directions for Video Zoom on a SMARTPHONE:**

- If you would like to make a public comment, please click on the "Participants" button on the bottom of your screen.
- A new screen will pop up with the list of participants. Look for the "Raise Hand" button on the screen and click the button.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

### **Directions for TELEPHONE line only:**

• If you would like to make public comment, please **dial \*9** on your keypad to signal that you would like to comment

### Agenda Item #1 - Call to Order/Opening Remarks

Chair Ben Benoit called the meeting to order at 11:31 a.m.

Mr. Derrick Alatorre provided guidelines and general instructions for participation in the remote meeting for the Local Government & Small Business Assistance Advisory Group (LGSBA) meeting via Zoom webinar and teleconference.

### Agenda Item #2 – Approval of May Meeting Minutes/Review of Follow-Up/Action Items

Chair Benoit called for approval of the May 8, 2020 meeting minutes. The minutes were approved unanimously.

Mr. Bill LaMarr referenced Mr. Ian MacMillan's response to a question on establishing a de minimis level for stationary sources on page three of the May 8, 2020 meeting minutes and commented that the Small Business Administration defines small businesses by the number of employees and annual receipts, ranging from 500-1500 employees and \$7.5-37.5 million; it is not defined by the physical size of a facility. Mr. LaMarr further added that the South Coast Air Quality Management District (South Coast AQMD) also does not define small businesses by the square footage. Mr. Alatorre stated that staff will review the minutes and make corrections if needed. Mr. LaMarr stated the reason for the comment on the definition was to make a point and have it memorialized. Chair Benoit stated that it may be a future action item or discussion, not quite related to the minutes.

### Agenda Item #3 – Review of Follow Up/Action Items

Mr. Alatorre stated that there were no follow-up or action items.

### Agenda Item #4 – Summary of Recent Studies of Air Pollution & Health Effects

Dr. Jo Kay Ghosh provided a summary of key recent research studies of air pollution and health effects.

Ms. Rita Loof referenced slide #17 and asked for an explanation of exploratory behavior. Dr. Ghosh explained that mice have a natural curiosity and exploratory behavior refers to their desire to explore different spaces.

Mr. David Rothbart stated that the California Air Resources Board (CARB) is working on expanding the list of toxic compounds that are required to be reported to be used for health risk assessments and are not assigning toxicity values. They are using similarities in chemical properties to determine toxicity values. Mr. Rothbart asked how that approach is viewed from a regulatory standpoint. Dr. Ghosh replied that risk assessments rely on having toxicity values in order to calculate risk from a particular pollutant. The ability to develop a toxicity value for use in risk assessment depends on having appropriate studies available to derive those values. In some cases, there could be studies that show a pollutant is toxic, but there may not be enough information to derive a quantitative toxicity value.

Mr. Harvey Eder commented on the severe acute respiratory syndrome (SARS) virus, climate change, economy, oil prices, and various statistics.

Mr. LaMarr commented that the business community is constantly being bombarded by the public with the belief that businesses are the cause of cancer and commented that words like "suggestive" and "could" in the reports indicate that the studies show no definitive answer. Mr. LaMarr stated that cancer is not a single disease, it is a collection of diseases and suggested that staff take the opportunity to address the public's concern when there is an assumption that a specific facility is the cause of illnesses. Dr. Ghosh replied that it's generally not possible to pinpoint a particular pollutant or air pollution as the cause of a specific person's health problem, but studies have shown that there are a number of health conditions linked to air pollution exposure. As more studies are conducted, the air pollution levels associated with a health outcome could be better quantified. Dr. Ghosh stated that this relates to the toxicity levels and risk assessments previously referenced by Mr. Rothbart. Mr. LaMarr referenced a quote from a book by University of Southern California (USC) Professor Thomas Mack indicating that there is no evidence confirming that cancer is caused from an environmental carcinogen and stated that not much has changed. Dr. Ghosh replied that hexavalent chromium (Cr(VI)) is an air toxic, which meets the criteria for a known human carcinogen and clearly linked to cancer risk. Other air pollutants are also classified as known human carcinogens, such as benzene and formaldehyde. Today's presentation focuses on particulate matter 2.5 (PM<sub>2.5</sub>) and its linkage to certain types of cancers. The composition of the PM<sub>2.5</sub> is important as well; for example, it is composed of Cr(VI), then obviously it would be a carcinogen. Mr. LaMarr referenced slide #6 and stated that there are no firm statements linking PM<sub>2.5</sub> to cancer. Dr. Ghosh commented that when it comes to ascertaining whether a pollutant causes a particular disease, you need more than a single study to come to those conclusions. Therefore, agencies review the entirety of the science that is available on that topic in order to come to a conclusion. For example, the U.S. EPA concluded from their scientific review that the relationship between PM<sub>2.5</sub> and cancer is "likely to be causal."

### Agenda Item #5 – Fiscal Year (FY) 2020-21 General Fund Budget

Ms. Sujata Jain provided an overview of the General Fund Budget detailing staffing levels, expenditures, and revenues required to maintain current program commitments.

Mr. Paul Avila asked if the South Coast AQMD is eligible for Federal grants and loans available. Ms. Jain replied that South Coast AQMD applied for two grants under the Federal Emergency Management Agency (FEMA) and Coronavirus Aid, Relief and Economic Security (CARES) Act and is awaiting a response.

Mr. LaMarr asked if South Coast AQMD has a \$230 million unfunded pension liability. Ms. Jain replied yes. Mr. LaMarr stated that State and Los Angeles (LA) City employees opted for pay cuts due to budget deficits and asked if South Coast AQMD has considered a similar approach instead of fee increases. Ms. Jain replied that there is no fee increase this year and future increases will be based on how the fiscal year ends and the Governing Board's (GB) decision. Mr. Alatorre indicated that, currently, there are no plans for pay cuts, layoffs, or furloughs; however, future decisions will depend on the revenues. Mr. LaMarr stated that South Coast AQMD's revenue sources are dependent on the businesses and the economy and suggested open discussions with businesses with all options being considered. Ms. Jain stated that updates are presented at the Administrative Committee and GB meetings to maintain transparency and provide the GB with ample information to make their decisions. Chair Benoit added that all options are being considered and we will get through this together.

Ms. Loof asked for the funding status of Assembly Bill (AB) 617 and what will happen in upcoming years. Ms. Jain replied that AB 617 funding for FY 2020-21 has been approved. Mr. Alatorre replied that a new bill, which was previously Senate Bill (SB) 808 authored by Senator Mitchell, is in review by the legislature. This new bill is for the appropriation of \$50 million from the air pollution control fund for implementation in FY 2021-22, independent of the Cap-and-Trade Program; however, an additional \$200 million, which is from the Cap-and-Trade Program, may be affected as results from the previous auction were much lower than expected.

Ms. Rachelle Arizmendi asked if there have been any discussions on prepayment of the unfunded liability pension and how to assertively address it. Ms. Jain replied that South Coast AQMD is still paying outstanding pension obligation bonds, which will be completed in three years. The budget includes almost \$7 million in addition to contributions, so when the payments are complete, that fund may be available for prepayment of the liability pension upon the GB's approval. Chair Benoit stated that it is something the GB is considering.

Mr. Eder commented on solar energy and investments.

Ms. Jill Whynot indicated that the AB 617 incentive funding in the proposed budget was \$200 million. It was \$245 million the previous year and \$250 million the year before that, and South Coast AQMD continues working to obtain any possible increase.
