- 10/19/2018
- 10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: City of Carson Entity address: 701 E. Carson St., 90745
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

The City of Carson is an environmental justice community with impacts to the community's well being as a result of truck and petroleum-related businesses and proximity to freeways. Being able to collaborate and provide input as a member of the AB 617 steering committee provides the City an opportunity to assist SCAQMD's effort with improving air quality and health risks.

How would you support outreach to ensure all voices in the community are heard?

We would establish a partnership that assists with public outreach, sharing information and engaging community participation in future workshops.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: LA County Dpt Public Health Entity address: 695 S Vermont 14 Fl LA, CA
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

The County Dept of Public Health has extensive experience working on the issues AB617 seeks to address. As part of the steering committee we would bring critical support in multiple areas of program implementation, including: awareness of existing health and environmental conditions at the community level; coordination on health risk communication to help facilitate public understanding of emerging data.

How would you support outreach to ensure all voices in the community are heard?

LA County Dept. of Public Health would utilize our numerous existing community engagement pathways that we have developed over many years of work in this area to help distribute information on AB617 and help increase awareness and participation of community members. These may be related to ongoing efforts to address air pollution or may be on different public health topic issues but in the relevant geographic area. DPH would also help identify key community

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Los Angeles County Sanitation Entity address: 1955 Workman Mill Rd, Wilmington
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

LACSD operates the Joint Water Pollution Control Plant (JWPCP) in Carson, which is one of the largest wastewater treatment plants in the Country. In addition, we are embarking on a multi-year outfall tunneling project (Clearwater) with the start point of the tunnel at this facility and running underneath many of the local communities, as it extends to the ocean. We have always strived to be good neighbors and have regular community outreach programs. I believe we should have a voice on this committee given the large community footprint of this facility and the extensive operations and permits we maintain. I have also been involved in AB 617 development, have a long history of working with the SCAQMD and CARB Staffs, and am a recognized expert on air quality issues (including actively siting and running monitoring programs). As such, I would be a strong voice in helping to move this program forward at the community level.

How would you support outreach to ensure all voices in the community are heard?

LACSD has a long history of working with the communities in Carson, Wilmington and surrounding areas to communicate issues surrounding the JWPCP facility. The Mayors of Carson, Wilmington and Long Beach sit on our Board of Directors and have a strong working relationship with our agency. LACSD Staff also meet monthly with a citizen advisory group on issues of concern in the community. In addition, with the development of the Clearwater Project (described above - <https://clearwater.lacsd.org/>), LACSD have embarked on extensive community outreach leading to the development of many relationships with community leaders in the area (refer to the website for a partial list). As a member of the AB 617 Steering Committee I would be able to utilize all of the community relationships that we have developed over the years in providing outreach on the AB 617 Program, locating monitors, interpretation of monitoring results, and in particular, the all important emission reduction programs that must be developed.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Business representative Business name: Business address: <u>Suite 103</u>	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community? I would bring community perspective since I am a local official that represents stakeholders.

I have been a member of the environmental committee for the Wilmington Neighborhood Council for about two years. The committee has taken actions and heard presentations on air quality concerns including refineries and transit. Specifically concerning the 205 and 232 Metro buses.

How would you support outreach to ensure all voices in the community are heard?

I would be able to utilize the neighborhood council network. I am comfortable listening to the public patiently and informing the public on developments. Through the neighborhood council I have contacts with schools, non profits, and government offices. I'd be happy to share information with all.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Jonathan Kraus Name of elected official: Al Austin II Jurisdiction: City of Long Beach
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a Councilmember for communities in Long Beach that are directly impacted by air pollution from multiple sources, I can help engage local residents and other stakeholders to help identify strategies and potential solutions for these issues. I have worked on regional air quality issues as a board member and Past President for the Gateway Cities Council of Governments.

How would you support outreach to ensure all voices in the community are heard?

As I have done previously in work on the Lower LA River Revitalization Plan, and the I-710 Major Corridor Project, I have worked to engage impacted communities in a very diverse district through community workshops, email newsletters and social media, press outreach and door to door canvassing of neighborhoods, to ensure the many voices of the community are sought and heard.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:
