

Air Quality Standards Compliance Report (AQSCR)

Statistics for March-April 2009

Vol. 22, No. 2

Published February, 2011

This bimonthly publication satisfies the requirements for reporting on air quality in the South Coast Air Basin set by California legislation (Chapter 1301, Statutes of 1987; Health and Safety Code Section 40451(d)), and supplies similar information for the areas of the Salton Sea Air Basin (Coachella Valley) served by the District.

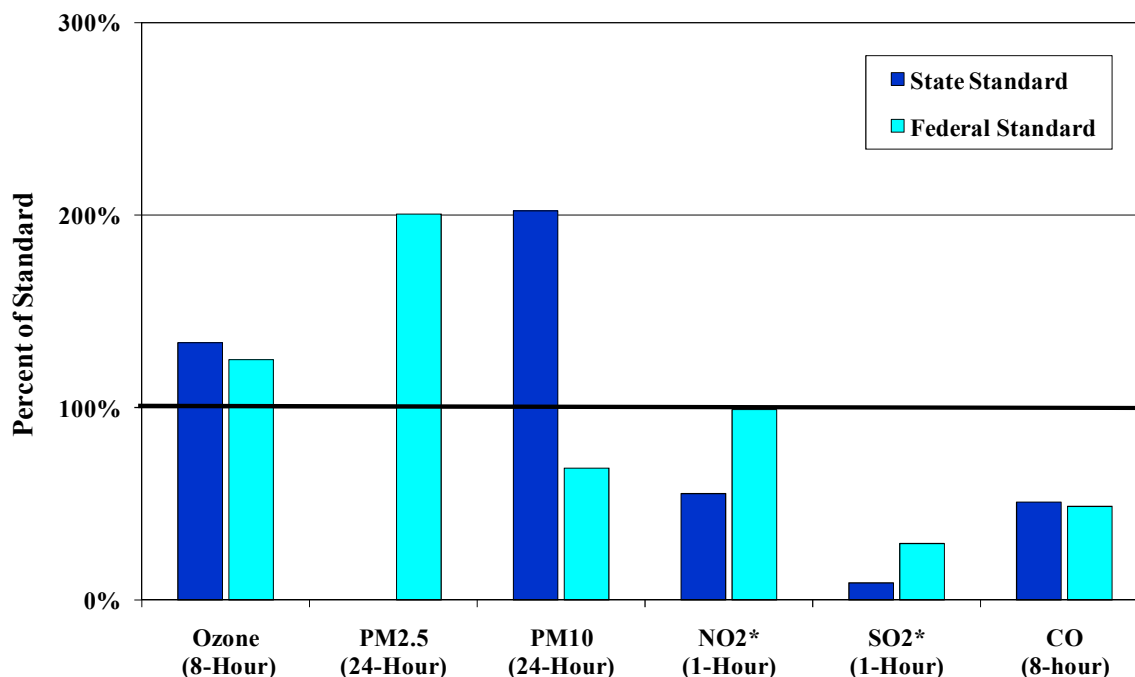

Air quality statistics for the South Coast Air Basin and the desert area of Coachella Valley in the Salton Sea Air Basin for the months of March and April are shown and summarized in the following tables.

Figure 1 (below) shows the 2009 year-to-date maximum pollutants concentrations in the District (Basin and Coachella Valley) as percent of the current state and federal standards. Figure 2 shows the location of the District's air monitoring stations in each source/receptor area. Tables 1 and 2 summarize monthly air quality statistics for the South Coast

Air Basin and the desert area of Coachella Valley monitoring areas during the months of March and April 2009. The tables show maximum concentrations of the pollutants in each source/receptor area and number of days on which the locations monitored exceeded federal and/or state standards.

For subscription, please submit the subscription forms for the AQSCR which may be accessed at <http://www.aqmd.gov/hr/subsrv.html>. Additional subscription information and forms may be obtained by calling Subscription Services at (909) 396-3720. Electronic reports (PDF format) for this issue, as well as previous years' reports, may be accessed via internet at: <http://www.aqmd.gov/smog/AirQualitybyMonth.htm>

For information on the current state and federal ambient air quality standards please refer to the Table 1 of the January-February 2009 issue of the AQSCR.

*Based on the recently established federal standards effective in 2010.
