Agenda

• Summary of previous Working Group Meeting
• Stakeholder presentations
  ➢ California Air Resources Board
  ➢ Energy Solutions
  ➢ Southern California Edison
  ➢ Southern California Gas Company
• Next steps
Summary of Previous Working Group Meeting (February 26, 2021)

• Update on the emission inventory
• Update on South Coast AQMD funded projects and programs
  ➢ Weatherization projects are close to completion
  ➢ Burner development and demonstration projects will conclude in 2022
  ➢ Some other project on hold due to COVID or participant change
  ➢ Clean Air Furnace Rebate Program additional fund
• Discussed other new developments and incentive programs for the residential and commercial building sector
  ➢ Burner technology for cooking appliance
  ➢ 120-volt heat pump water heater
  ➢ Federal Tax Credits
  ➢ School Energy Efficiency Stimulus Program
• Identified key challenges moving forward
Stakeholder Presentation

Building Decarbonization

- California Air Resources Board
Stakeholder Presentation

Introduction to the California TECH heat pump program

- Energy Solutions
Stakeholder Presentation

Pathway to Building Electrification

- Southern California Edison
Stakeholder Presentation

Decarbonizing the Gas Grid & Reducing Building Emissions

- Southern California Gas Company
Next Steps

- Assess 2016 AQMP control measures for enhancements
- Identify residential and commercial source categories not currently addressed
- Identify various low-emission and zero-emission technologies
- Identify variety of implementation approaches
- Seek opportunities to incentivize new technologies
- Establish partnerships with other entities to develop or implement programs
- Continue preliminary write up of a residential/commercial building control measures for 2022 AQMP and provide to Working Group for input
