

Project Summary Sheet

Disclaimer: This project summary sheet (to be provided in three copies) is recommended but not a mandatory component of the proposal. Submission is optional.

Project Title: _____

Project Description: _____

Applicability: Mobile On-Road Mobile Off-Road Stationary

Project Type: Retrofit Repower Replacement Infrastructure

Efficiency Improvement Technology Demonstration

Others. Please specify: _____

1. Aids in achievement of SCAQMD's regional air quality goals (e.g., emission reduction, new technology, and infrastructure projects)

a) Does your project provide emission reductions in 2023 or 2031? If not, please skip to question 1(c). If yes, please provide the estimated emission reductions and corresponding pollutants. Include the supporting calculations and documentation: i) baseline and controlled emission factors used, with references, and ii) any other assumptions.

Emission Reductions: _____ tpd. Pollutant(s) _____. Year(s) _____.

Specify section of the proposal for supporting calculations: _____

Emission Reductions: _____ tpd. Pollutant(s) _____. Year(s) _____.

Specify section of the proposal for supporting calculations: _____

b) To the best of your knowledge, will the funding be used to comply with existing regulations?

Yes, the emission reductions are for rule compliance.

No, the reductions are surplus to existing regulations. Specify section of the proposal for supporting documentation: _____

Not applicable Others. Please specify: _____

c) Does your project provide regional air quality benefits (e.g. new technology development and infrastructure projects)? If yes, please describe briefly.

2. Experience and expertise to complete the project

a) Please provide references on the most relevant and recent projects that have been completed by your organization.

Project title / type: _____

Role of your organization: _____

Amount of contract: _____

Funding source, contact person, & phone number: _____

Project title / type: _____

Role of your organization: _____

Amount of contract: _____

Funding source, contact person, & phone number: _____

Project title / type: _____

Role of your organization: _____

Amount of contract: _____

Funding source, contact person, & phone number: _____

b) Please describe briefly your expertise that is relevant to completing the proposed project.

Project Summary Sheet

3. Effective use of funds (e.g. cost effectiveness and/ or funding partnerships)

- a) If your project provides emission reductions of NOx, VOC or PM, please provide the cost effectiveness calculations.
Cost per Ton: \$ _____ per ton. Pollutant(s) _____. Specify section of the proposal for supporting calculations: _____
- b) Does your project include co-funding, funding partnerships or in-kind contribution? If yes, please provide the amount and the sponsoring organization.
- | | |
|--------------------------------|----------------------------|
| Total Project Cost: | \$ _____ |
| Funding Requested from SCAQMD: | \$ _____ |
| Co-funding: | \$ _____ provided by _____ |
| Funding from Other Sources: | \$ _____ provided by _____ |
| In-kind Contribution: | \$ _____ provided by _____ |

4. Co-benefits (e.g. control/mitigation of toxics or GHGs)

- a) Does your project provide emission reductions of air toxics or GHGs? If yes, please list the pollutant(s) and the amount of reductions generated. Include the supporting calculations and documentation: i) baseline and controlled emission factors used, with references, and ii) any other assumptions.
- GHGs: Emission Reductions: _____ MT/yr. Pollutant (s) _____.
Year(s) _____. Specify section of the proposal for supporting calculations: _____
- Air toxics: Emission Reductions: _____ tpy. Pollutant (s) _____.
Year(s) _____. Specify section of the proposal for supporting calculations: _____

5. EJ area benefits

- a) For mobile source projects, based on the primary address of the equipment, what fraction of the project would be in EJ areas?
Total number of equipment/vehicles: _____
Fraction of equipment/vehicles committed to be in EJ areas: _____%
- b) For stationary source projects, is your project completely within an EJ area?
- Yes
 - No. Total number of equipment/sources: _____
Fraction of equipment/sources committed to be in EJ areas: _____%
 - Others. Please specify: _____

6. Job creation within the jurisdiction of the SCAQMD

- Yes. Number of jobs created: _____. Specify section of the proposal for supporting documentation: _____
- No

7. Community/government support

- Yes. Please provide signed endorsement letters (with official letterhead) and list the supporters here:
- _____
- _____

No

8. Funding Restrictions

- a) Does your project provide financial assistance to small businesses? Yes No
If yes, please specify: _____
- b) Does your project involve installation of control equipment on new emergency standby diesel engines at public facilities? Yes No
If yes, please specify: _____
- c) Does your project provide VOC reductions in proximity of refineries and chemical plants? Yes No
If yes, please specify: _____
- d) Is your project located in proximity of new or expanded peaker power plants? Yes No
If yes, please specify: _____
