

Frequently Asked Questions for the Gas Log Purchase Incentive Program for Select Areas¹

Who is eligible?

Households with existing fireplaces located in any of the following zip codes:

- | City of San Bernardino | Community of Boyle Heights |
|------------------------|----------------------------|
| • 92401 through 92415 | • 90022 |
| • 92418 | • 90023 |
| • 92423 | • 90033 |
| • 92424 | • 90063 |
| • 92427 | |

What are the options?

Option 1 – Pay \$50 and receive a 18”, 24” or 30” gas log set and the required basic installation services for a fee of not more than \$50 [tax included]; OR

Option 2 – Receive a discount of at least \$300 off of an authorized retailer’s best price to purchase and install any gas log set or any other gaseous-fueled hearth product intended to replace wood burning manufactured by either the Robert H. Peterson Company or Rasmussen Iron Works.

Where can I get more information?

Any participating retailer ([contact information on back of this flyer](#)) can provide more information or you can contact the program contractors below:

When can I do this?

The targeted gas log incentive program includes funding for 1,000 gas-log units based on a grant from the U.S. EPA. Units will be available on a first-come, first-served basis.

Why is this important?

The region currently does not comply with State and federal air quality standards for fine particulate matter or soot. Reducing wood burning reduces fine particulate matter and will help to improve air quality and associated health effects.

Note: This is not a voucher, rebate, or cash and carry program. The incentive amount is applied at the time of purchase and requires working with one of the participating retailers and installation by a trained and qualified technician.

¹ The South Coast Air Quality Management District (AQMD) is solely providing a financial incentive to facilitate program implementation and that the AQMD does not warrant or endorse any hearth product purchased under the Fireplace Gas Log Buy-Down Incentive Program for any purpose, including materials, workmanship, merchantability, or fitness for use.
