

**WORKSHEET FOR SCAQMD COMMUNITY MEETING TO REQUEST  
INPUT ON DRAFT SCOPE FOR HEALTH STUDY RELATED TO GAS LEAK  
AT ALISO CANYON FACILITY**

Name:	
Address:	
City:	State:
Email:	

1. What geographic area do you define as the primary “affected community”?

2. Rank these proposed studies/study components from highest to lowest priority: <u>OPTION 1</u> : (\$1 million) Clinical assessment survey of highly affected individuals (may include clinical exam and questionnaire to gather information on health symptoms) <u>OPTION 2</u> : (\$500,000) Data integration and exposure modeling (analysis of data from health complaints, CASPER study, and air/soil/wipes sampling) <u>Other study ideas?</u>
1 <sup>st</sup> Priority:
2 <sup>nd</sup> Priority:
Other study ideas?

3. What are the most important health problems the community has experienced that you would want to look at in a clinical assessment or records-based epidemiologic study?
Please list health problems:

4. Are there specific groups of people that a clinical assessment should look at? Examples of a “group” could be children under age 5, school-age children, elderly, people with asthma, pregnant women, etc.
Highest priority group(s):
Second priority group(s):
Other priority groups?

5. Several agencies are proposing to do related health study work outside the \$1 million budget. Are there any concerns about or suggestions for the 3 studies/study components? Proposed work – community engagement/outreach, a records-based epidemiologic study using public data, and possibly toxicity screening assays.
Please provide concerns and/or suggestions:

Note: Information provided by you on this worksheet (including personal contact or other information) is a public record and may be released in response to a California Public Records Act request. If you do not want your name or address to become part of the public record, you may submit this worksheet without providing identifying information.

**To submit your input to SCAQMD staff, please save and email this worksheet to:
