For Immediate Release

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT SMOKE ADVISORY

This advisory is in effect through Sunday morning. SCAQMD will issue an update if additional information becomes available.

A brush fire, named the La Tuna Fire, is burning in Los Angeles County, near the Verdugo Mountains near the 210 Freeway – near Sunland, Tujunga, and La Crescenta. The burn area is reported to be over 5000 acres, with 10 percent containment. Winds in the area are expected to be mainly from the south and southeast today, bringing smoke and ash into the communities near the fire and into the mountains. Overnight, the winds will come from the northeast and east, potentially bringing smoke and ash into additional areas, including portions of the East San Fernando Valley, especially Burbank. Air quality may reach **Unhealthy** levels in areas directly impacted by smoke.

Areas of direct smoke impacts and **Unhealthy** air quality will likely include portions of:

- the West San Gabriel Valley (Forecast Area 8);
- the East San Fernando Valley (Forecast Area 7);
- the East San Gabriel Valley (Forecast Area 9); and
- the San Gabriel Mountains (Forecast Area 15).

In any area impacted by smoke: Everyone should avoid any vigorous outdoor or indoor exertion; people with respiratory or heart disease, older adults, and children should remain indoors. Keep windows and doors closed or seek alternate shelter. Run your air conditioner if you have one and keep the fresh air intake closed and the filter clean to prevent bringing additional smoke inside. Avoid using a swamp cooler or whole-house fan to prevent bringing additional smoke inside. To avoid worsening the health effects of smoke, don't use indoor or outdoor wood-burning appliances, including fireplaces.
