SCAQMD Issues Smoke Advisory for Fire Burning in the Banning and Beaumont Area

This advisory is in effect today, June 27, 2017, through Wednesday morning, June 28, 2017. SCAQMD will issue an update if additional information becomes available.

A brush fire, named the Manzanita Fire, is burning in Riverside County, south of Beaumont and Banning, north of the community of San Jacinto. The burn area was estimated last evening to be 5,000 acres with 10% containment. Winds are expected to be primarily from the west, with smoke moving into the San Jacinto Mountains and likely into the Coachella Valley at times. Air quality may reach Unhealthy levels in areas directly impacted by smoke.

Areas of direct smoke impacts in the South Coast Air Basin and **Unhealthy** air quality will likely include:

- Portions of the San Geronio Pass Area (Forecast Area 29);
- Portions of the San Jacinto Area (Forecast Area 28); and
- Portions of the Coachella Valley (Forecast Area 30).

All individuals are urged to exercise caution and avoid unnecessary outdoor activities in any area directly impacted by smoke. This includes areas where residents can see or smell smoke.

In any area directly impacted by smoke: Everyone should avoid any vigorous outdoor or indoor exertion; people with respiratory or heart disease, the elderly, and children should remain indoors. Keep windows and doors closed or seek alternate shelter. Run your air conditioner if you have one and keep the fresh air intake closed and the filter clean to prevent bringing additional smoke inside. Avoid using a swamp cooler or whole-house fan to prevent bringing additional smoke inside. To avoid worsening the health effects of wildfire smoke, don't use indoor or outdoor wood-burning appliances, including fireplaces.
