### **SCAQMD Continues Smoke Advisory Due to Valley Fire**

*This advisory is in effect through Tuesday afternoon. SCAQMD will issue an update if additional information becomes available.*

A wildfire, named the Valley Fire, is burning in San Bernardino County within the San Bernardino National Forest near Forest Falls. The burn area is currently reported to be approximately 1,348 acres with thirteen percent containment. Onshore flow will prevail throughout Monday afternoon and then transition to easterly and downslope overnight. This may bring smoke into the central and east San Bernardino Valley. There is a slight chance of thunderstorms this afternoon and evening. Any thunderstorms that develop in the area could cause conditions to change rapidly. Air quality may reach Unhealthy for Sensitive Group levels or higher in areas directly impacted by smoke.

Areas of direct smoke impacts and Unhealthful air quality may include portions of:

- San Bernardino County: Areas 29 (Banning Pass Area), 34 (Central San Bernardino Valley), 35 (East San Bernardino Valley), 36 (West San Bernardino Mountains), 37 (Central San Bernardino Mountains), and 38 (Big Bear Lake)

***In any area impacted by smoke:** Everyone should avoid any vigorous outdoor or indoor exertion; people with respiratory or heart disease, pregnant women, older adults, and children should remain indoors. Keep windows and doors closed or seek alternate shelter. Run your air conditioner if you have one and keep the fresh air intake closed and the filter clean to prevent bringing additional smoke inside. Avoid using a swamp cooler or whole-house fan to prevent bringing additional smoke inside. To avoid worsening the health effects of smoke, don't use indoor or outdoor wood-burning appliances, including fireplaces.*
