FOR IMMEDIATE RELEASE: October 19, 2019

South Coast AQMD Extends Smoke Advisory Due to a Debris Fire in City of Thermal

Valid: Saturday October 19, 2019 through Sunday October 20, 2019

This advisory is in effect through Sunday Afternoon. South Coast AQMD will issue an update if additional information becomes available.

A large debris fire is burning near the intersection of Avenue 66 and Martinez Road in the city of Thermal in the Coachella Valley. The burn area is approximately 35 acres with no containment and is expected to burn at least through Sunday. Currently the fire is producing heavy smoke and has been impacting Thermal, La Quinta, and Mecca, as well as communities near the Salton Sea. South Coast AQMD's monitor in Thermal and a low-cost sensor in Thermal have been showing PM2.5 concentrations in the Unhealthy for Sensitive Groups AQI level on Friday evening and the low-cost sensor in Thermal is showing PM2.5 concentrations in the Unhealthy for Sensitive Groups AQI level on Saturday at 11 AM. Visit <https://tinyurl.com/y5bjzzak> to view current readings from the South Coast AQMD's monitor in Thermal.

Wind directions are predicted to be from the southeast through Saturday evening and then from the northwest overnight and on Sunday with gusts up to 15 mph overnight. This will push smoke to the northwest toward La Quinta and Thermal on Saturday afternoon and evening and then to the southeast toward Oasis, Mecca, and the Salton Sea on Saturday night and on Sunday. Low mixing heights in the atmosphere overnight could lead to lower smoke plume rise and elevated ground level concentrations of PM2.5 in the early morning hours on Sunday. If the fire continues to generate smoke, impacts are expected to continue throughout the Coachella Valley.

Overall, meteorological conditions may bring smoke and ash into portions of the Coachella Valley. Air quality may reach Unhealthy for Sensitive Groups or higher in areas directly impacted by smoke.

Areas of direct impacts and poor air quality may include portions of:

- **Riverside County:** Coachella Valley (Area 30)

In any area impacted by smoke: If you smell smoke or see ash due to a wildfire, limit your exposure by remaining indoors with windows and doors closed or seeking alternate shelter, and avoiding vigorous physical activity. For more tips on protecting yourself during a wildfire, see South Coast AQMD's Wildfire Smoke & Ash Health & Safety Tips page: <http://www.aqmd.gov/wildfire-health-info-smoke-tips>.
