**South Coast AQMD Extends Smoke Advisory Due to Tenaja Fire in Murrieta through Saturday**

*Valid Friday September 06, 2019 through Saturday September 07, 2019*

This advisory is in effect through Saturday afternoon. South Coast AQMD will issue an update if additional information becomes available.

A wildfire, called the Tenaja Fire, is burning near Murrieta and La Cresta. As of 2:56 pm on Friday, the Tenaja Fire area was reported at 2,000 acres with 20% containment by CAL FIRE and the Riverside County Fire Department. Overnight and today smoke production from the fire has decreased, which has led to elevated PM<sub>2.5</sub> concentrations no longer being observed at South Coast AQMD's Lake Elsinore and Temecula monitors or at low-cost sensors along the I-15 corridor and in the Inland Empire.

Gusty winds from the southwest this afternoon and evening are expected to transport smoke into the Inland Empire. Wind speeds will decrease to become light and from the north starting around midnight on Saturday morning. Light winds are expected to continue through Saturday morning, which may transport smoke into the Temecula and Capistrano Valleys. Strong winds from the southwest are expected again on Saturday starting around noon. If the Tenaja Fire continues to generate smoke on Saturday afternoon, smoke may again impact the Inland Empire.

Overall, meteorological conditions may bring smoke into portions of Riverside. Air quality may reach Unhealthy for Sensitive Groups or higher levels in areas directly impacted by smoke.

Areas of direct impacts and poor air quality may include portions of:

- Riverside County: Perris Valley (Area 24), Lake Elsinore (Area 25)

***In any area impacted by smoke:*** If you smell smoke or see ash due to a wildfire, limit your exposure by remaining indoors with windows and doors closed or seeking alternate shelter, and avoiding vigorous physical activity. For more tips on protecting yourself during a wildfire, see South Coast AQMD's Wildfire Smoke & Ash Health & Safety Tips page: <http://www.aqmd.gov/wildfire-health-info-smoke-tips>.
