## South Coast AQMD Issues Windblown Dust Advisory for Portions of Riverside County

**Valid: Monday, March 15, 2021**

*This advisory is in effect through Monday evening. South Coast AQMD will issue an update if additional information becomes available.*

A PM10 Dust Advisory is in effect on Monday March 15, 2021 due to predicted high winds.

The National Weather Service (NWS) has posted a High Wind Warning for portions of the eastern South Coast Air Basin and the Coachella Valley that is in effect from Monday morning at 8:00 AM through Tuesday morning at 2:00 AM. For information regarding the NWS warnings, please visit the NWS San Diego (<https://www.weather.gov/sgx/>) website.

Winds from the west with gusts up to 70 mph are expected in the mountains and deserts. Areas of blowing dust and sand are predicted throughout this wind event, which may result in **Unhealthy for Sensitive Groups** or higher Air Quality Index (AQI) levels throughout the San Geronio Pass area and the Eastern Coachella Valley. Localized areas of blowing ash are possible in areas near the 2020 wildfire burn scars.

**In areas directly impacted by windblown dust:** Limit your exposure by remaining indoors with windows and doors closed and avoiding vigorous physical activity.

Areas of direct impacts and poor air quality may include portions of:

- **Riverside County:** San Geronio Pass (Area 29), Coachella Valley (Area 30)
