## South Coast AQMD Issues a Windblown Dust Advisory for the Jurupa Valley and Riverside areas of Riverside County

*Valid: Wednesday 12:00 a.m. until Thursday 6:00 p.m.*

To view current air quality in your neighborhood, download the [South Coast AQMD app](#) or visit [www.aqmd.gov/AQImap](http://www.aqmd.gov/AQImap).

### Forecasted Air Quality Impacts

- Periods of elevated particle pollution (PM10) levels in Jurupa Valley, Riverside, and surrounding areas are expected on Wednesday and Thursday
- Blowing dust may result in Air Quality Index (AQI) levels that are **Very Unhealthy** or worse

- High PM10 levels in the region are a result of gusty Santa Ana winds, which can lift dust and soil into the air
- Air quality can vary by hour and location depending on wind conditions

**If you are in an area impacted by windblown dust or ash:**

- Limit your exposure by remaining indoors with windows and doors closed or seeking alternate shelter.
- Avoid vigorous physical activity.
- Run your air conditioning and/or an air purifier. If possible, do **not** use swamp coolers or whole house fans that bring in outside air.
- Help minimize dust pollution by stabilizing loose soils and slowing down if driving on dirt roads.

For more information, see the [EPA Guide for Particle Pollution](#) (PDF).

South Coast AQMD is the regulatory agency responsible for improving air quality for large areas of Los Angeles, Orange, Riverside and San Bernardino counties, including the Coachella Valley. For news, air quality alerts, event updates and more, please visit us at [www.aqmd.gov](http://www.aqmd.gov), download our award-winning app, or follow us on [Facebook](#), [X](#) (formerly known as Twitter) and [Instagram](#).
