

New for this Annual Emissions Reporting Period (Data Year 2021)

- **The 2021 Annual Emissions Report (AER)** applies to the data year 2021 emissions reporting period (January 1, 2021 – December 31, 2021).
- **Submittal Due Date:** Thursday, March 17, 2022 at 5:00 p.m.
- **AB 2588 Quadrennial Report:** For the 2021 AER, facilities in Phase 2 are required to file its Quadrennial Report (longer list of toxics).
- **Changes to Emissions Fees for Criteria Pollutants and Ozone Depleting Compounds per Rule 301 Table III**
 - CPI increase of 4.5% (1.7% for 2020 and 2.8% for 2021) for emissions fees.
- **Continued Reporting for Specific Facilities subject to the California Air Resources Board’s (CARB) *Criteria and Toxics Reporting (CTR) Regulation***
 - Criteria Facilities – facilities with permitted potential to emit > 250 tons per year for any applicable nonattainment pollutant or its precursors.
 - Greenhouse Gas Facilities – facilities subject to reporting under the *California Regulation for the Mandatory Reporting of Greenhouse Gas Emissions, title 17, CCR, Section 95100 et seq.*
 - Elevated Toxic Facilities – facilities identified by their local air district as “high priority” as of January 1 of the data year, based on the District’s implementation of the AB 2588 “Hot Spots” requirements.
 - Facilities subject to reporting data year 2021 per the CTR must report all data as required by Section 93404 (except stack parameter reporting). No facilities may use *Business as Usual* reporting for the 2021 reporting data year.
- **CTR Guidance for 2022 Data Year Reporting in 2023**
 - Beginning with Data Year 2022, additional facilities will become subject to emissions reporting requirements. For information on CTR requirements and available guidance documents, please visit CARB’s website:
