

ADVISORY NOTICE

Rule 1113: Section (c) Paragraph (1)
Original Review: March 2007
Revised Date: March 2018
Subject: Specification of VOC Limitations for Additives to Coating Applications

Issue:

The South Coast Air Quality Management District has been made aware of an uncertainty in the allowable VOC limitation for coating applications in regards to additives.

Current Rule Language:

Rule 1113 section (c)(1) states that "...except as provided in paragraphs (c)(3), (c)(4), no person shall supply, sell, offer for sale, market, manufacture, blend, repackage, apply, store at a worksite, or solicit the application of any architectural coating within the District that is listed in the Table of Standards 1 and contains VOC (excluding any colorant added to tint bases) in excess of the corresponding VOC limit specified in the table, after the effective date specified."

Rule 1113 section (c)(2) states that "...No person within the District shall, at the point of sale of any architectural coating subject to paragraph (c)(1), add to such coating any colorant that contains VOC in excess of the corresponding applicable VOC limit specified in the Table of Standards 2."

Conclusion:

Any additive put in after the point of manufacture, except colorants, will be considered in calculating the total VOC of the product for verification and compliance reviews.
