Kevin Wagner
VP Environmental Health & Safety
Sterigenics US, Inc.

Subject: Approval of Rule 1402 Early Action Reduction Plan for
Sterigenics US, Inc. – (Facility ID 126060)

Dear Mr. Wagner:

This letter provides approval of the Early Action Reduction Plan submitted by Sterigenics US, Inc. (Sterigenics Ontario) pursuant to South Coast Air Quality Management District (South Coast AQMD) Rule 1402.

South Coast AQMD staff sent you a letter on September 29, 2022 designating Sterigenics Ontario as a Potentially High Risk Facility under Rule 1402. As detailed within the letter, the submittal of an Early Action Reduction Plan within 90 days of the date of designation is required under Rule 1402 (g)(2). The Early Action Reduction Plan was submitted on December 15, 2022 and subsequent versions were received following discussions with South Coast AQMD staff. South Coast AQMD rejected the Early Action Reduction Plan (dated March 1, 2023) on March 29, 2023. A subsequent revision has been received on April 7, 2023 and found to meet the requirements outlined in Rule 1402. Compliance with the terms of this approved Plan is now required by South Coast AQMD Rule 221 and Rule 1402 (g)(2)(C).

Staff is currently reviewing the Risk Reduction Plan received on March 28, 2023 to ensure that the risk reduction measures reduce the impact of total facility emissions below the Action Risk Level as quickly as feasible. Additional risk reduction measures beyond those specified in the Early Action Reduction Plan as well as the Risk Reduction Plan may be needed to account for updated information on facility emissions and health risks as they become available.

If you have any questions, please contact me at (909) 396-3244 or Victoria Moaveni, AB 2588 Program Supervisor at (909) 396-2455.

Sincerely,

Ian MacMillan
Assistant Deputy Executive Officer
Planning, Rule Development & Implementation
