Upon rule adoption:
- Flare meets Table 1 emission limits:
  - No action required
  - Yes:
    - Begin monitoring monthly throughput
- Flare exceeds Table 2 capacity threshold:
  - No action required
  - Yes:
    - Notify District within 30 days

Initial Year:
- Notify District within 30 days:
  - Yes:
    - Continue monitoring monthly throughput until meet Table 1 limits
  - No:
    - No action required

Two Consecutive years of Table 2 exceedance:
- Flare exceeds Table 2 capacity threshold:
  - No action required
  - Yes:
    - Notify District within 30 days

Within six months of two consecutive exceedances:
- Submit application to install new flare
- Submit statement of intent within 60 days
- Notify District of plan to reduce flare throughput
- No action required
Proposed Rule 1118.1

**Flare Throughput Reduction**
- Notify District of plan to reduce flare throughput below Table 2 threshold
- Annual progress notifications
- Reduce flare throughput (e.g. beneficial use) within 36 months
- Potential 12 month extension(s) upon Executive Officer approval
- Continue monitoring monthly throughput

**Flare Replacement**
- Submit application to install flare meeting Table 1 emission limits
- Install flare within 12 months of SCAQMD permit approval
- Complete Compliance Demonstration within 180 days of installation
- Potential 12 month extension(s) upon Executive Officer approval
- Continue to monitor monthly throughput until compliance demonstration is complete
