Subject: Survey Form for Poultry Operations

To: Facility Owners/Operators:

The South Coast Air Quality Management District (AQMD) is conducting a survey for Proposed Rule 1127.1 – Emission Reductions from Swine and Poultry Operation, which is scheduled for adoption in June 2010.

The purpose of this survey is to seek updated information about the management practices and/or mitigation measures that are currently used by local poultry operations, to minimize air emissions especially as it relates to feasibility and costs. The data collected would assist AQMD staff to minimize the impact of the proposed rule through development of feasible and cost-effective control measures.

Your input is critical to the development of a reasonable but effective rule proposal; therefore, it is imperative that you complete all applicable sections of the form and provide your facility-specific data that are supported by your records. Please indicate information you consider proprietary or confidential with asterisks (*). If you have multiple facilities, we have included multiple forms. For your convenience, you may download the survey form from:
<http://www.aqmd.gov/rules/proposed.html>

You may either submit your complete form on or prior to March 23, 2010 to:

pperryman@aqmd.gov

or mail it to:

Ms. Pamela Perryman
Air Quality Specialist
South Coast Air Quality Management District
21865 Copley Drive
Diamond Bar, CA 91765

Thank you for your participation in the survey process. Should you have any questions or require any assistance in completing the requested information, please contact Ms. Pamela Perryman, Air Quality Specialist, at (909) 396-3103.

Sincerely,

A handwritten signature in black ink, appearing to read "Laki Tisopoulos", is written over a large, stylized, looping flourish that extends to the right.

Laki Tisopoulos, Ph.D., P.E.
Assistant Deputy Executive Officer
