Teleconference Participation or Telephone Audio: +1 (669) 900-6833

*(Please note if the Zoom webinar link provided does not work, copy the link into web browser, or
directly enter the webinar ID into the Zoom web or mobile application)*

To be consistent with Governor Newsom’s Executive Order N-29-20 (March 17, 2020) and to ensure
safe social distancing, the Public Workshop will be conducted via video conferencing and by telephone
using the information provided above.

Purpose of this Meeting

The South Coast Air Quality Management District (South Coast AQMD) has scheduled a Public Workshop for the purpose of soliciting information and suggestions from the public and stakeholders regarding Proposed Rule 461.1 – Gasoline Transfer and Dispensing for Mobile Fueling Operations (PR 461.1), Proposed Amended Rule 461 – Gasoline Transfer and Dispensing (PAR 461), PAR 219 – Equipment Not Requiring a Written Permit Pursuant to Regulation II (PAR 219), and PAR 222 – Filing Requirements for Specific Emission Sources Not Requiring a Written Permit Pursuant to Regulation II (PAR 222). PR 461.1, PAR 461, PAR 219, and PAR 222 are scheduled to be considered for adoption at a Public Hearing before the South Coast AQMD Governing Board on January 7, 2022.

Proposed Rule 461.1 Background and Objective

Staff determined there to be regulatory gap in existing Rule 461 that has allowed mobile fuelers to dispense gasoline without controlling gasoline vapor emissions either because the existing rule did not apply, based on the mobile fueler’s cumulative capacity, or because the mobile fueler is dispensing into non-motor vehicles. PR 461.1 seeks to address this gap. Mobile fueling has been regulated by the South Coast AQMD and has included requiring Phase II vapor recovery on mobile fuelers that dispense into motor vehicles since 1995. The industry has evolved since then and now includes mobile fuelers who serve different customers, including private vehicles that are not part of fleets.

PR 461.1 is designed to reduce VOC and toxic air contaminant emissions from mobile fuelers that dispense gasoline. PR 461.1 is applicable to mobile fuelers that dispense gasoline into non-motor vehicles and establishes performance standards for the control of gasoline vapor emissions during gasoline transfer and dispensing. PR 461.1 requirements include implementing CARB certified control technologies as well as requirements for operation, inspection, repair, testing, and recordkeeping.

Proposed Amended Rule 219, 222, and 461, and Proposed Rule 461.1 Background and Objectives

The objective of PAR 219 and PAR 222 is to revise the permitting exemptions for retail and non-retail mobile fuelers. PR 461.1 seeks to maintain existing performance standards for the control of gasoline vapor emissions in a rule dedicated to mobile fuelers. PAR 461 will therefore remove provisions addressing mobile fuelers. PAR 461 will also address outdated definitions and provisions.

California Environmental Quality Act

Pursuant to the California Environmental Quality Act (CEQA) and South Coast AQMD’s certified regulatory program (Public Resources Code Section 21080.5, CEQA Guidelines Section 15251(l) and

South Coast AQMD Rule 110), the South Coast AQMD, as lead agency, is reviewing the proposed project to determine if it will result in any potential adverse environmental impacts. Appropriate CEQA documentation will be prepared based on the analysis. Comments and suggestions regarding the CEQA analysis may be directed to:

Kevin Ni
Planning, Rule Development, and Area Sources, CEQA Section
South Coast Air Quality Management District
21865 Copley Drive, Diamond Bar, CA 91765
Email: kni@aqmd.gov
Phone: (909) 396-2462

Supporting Documentation

The following supporting documents will be made available on or before the Public Workshop:

- Preliminary Draft PR 461.1 – Gasoline Transfer and Dispensing for Mobile Fueling Operations
- Preliminary Draft PAR 461 – Gasoline Transfer and Dispensing
- Preliminary Draft PAR 219 – Equipment Not Requiring a Written Permit Pursuant to Regulation II;
- Preliminary Draft PAR 222 - Filing Requirements for Specific Emission Sources Not Requiring a Written Permit Pursuant to Regulation II; and
- Preliminary Draft Staff Report for PR 461.1, PAR 461, PAR 219, and PAR 222

When available, copies of the above documents may be obtained from:

Derrick Alatorre
Deputy Executive Officer/Public Advisor
Email: dalatorre@aqmd.gov or by calling (909) 396-2432

The documents are or will be available for download from the South Coast AQMD website at: <http://www.aqmd.gov/home/regulations/rules/proposed-rules>

Submission of Documents or Comments

You are invited to attend the meeting and may also send questions, comments, documents, studies, reports, or other information relevant to the proposed rules listed above to:

Britney Gallivan
Planning, Rule Development, and Area Sources
South Coast Air Quality Management District
21865 Copley Drive, Diamond Bar, CA 91765
Email: bgallivan@aqmd.gov
Phone: (909) 396-2792

Written comments related to PR 461.1, PAR 461, PAR 219, and PAR 222 should be submitted no later than November 10, 2021.

Americans with Disabilities Act and Language Accessibility

Disability and language-related accommodations can be requested to allow participation in the public workshop. The agenda will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov't Code Section 54954.2(a)). In addition, other documents may be requested in alternative formats and languages. Any disability or language-related accommodation must be requested as soon as practicable. Requests will be accommodated unless providing the accommodation would result in a fundamental alteration or undue burden to the District. Please contact Neil Fujiwara at (909) 396-3512 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to nfujiwara@aqmd.gov.
