NOx RECLAIM WORKING GROUP MEETING

APRIL 27, 2022
JOIN ZOOM WEBINAR MEETING
HTTPS://SCAQMD.ZOOM.US/J/98344812021
MEETING ID: 983 4481 2021
TELECONFERENCE DIAL-IN: 1-669-900-6833
Agenda

- Rulemaking Status on Landing Rules
- NOx RTC Price Threshold Exceedance Clarification
- Regulation XX Amendments Roadmap
- Ongoing Efforts and Next Steps
• Rule 429 – Startup and Shutdown is being amended to address startup and shutdown provisions at U.S. EPA’s request
• Rule 218.2 – Continuous Emission Monitoring System: General Provisions and Rule 218.3 – Continuous Emission Monitoring System: Performance Specifications are being amended to include provisions for monitoring mass emission limits
PAR 1147 – Miscellaneous Combustion Sources

- Revised Drafts of staff report and rule language released on April 5, 2022
- Public Hearing: May 6, 2022
First Working Group Meeting held on August 4, 2021
Discussed background on RECLAIM and nitric acid tanks
Public Hearing: October 7, 2022

https://tri-mer.com/tanks/polypro-tanks-case-study.html
PAR 1153.1 – Commercial Food Ovens

- First Working Group Meeting held on July 9, 2021
- Compiling data for BARCT assessment
- Scheduling meetings with technology vendors
- Conducting meetings with stakeholders and scheduling site visits
- Next Working Group Meeting: May 2022
- Public Hearing: August 5, 2022
## Emission Reductions (Tons per Day*)

<table>

</tbody>
</table>

**Total NOx Reductions = 12.84 tons per day**

* Sum of NOx reductions from RECLAIM facilities only. Some NOx reductions may be attributed to the 2015 RECLAIM shave.
NOX RECLAIM TRADING CREDIT (RTC) THRESHOLD EXCEEDANCE CLARIFICATION
Staff reported that the 12-month and 3-month rolling average NOx RTC price thresholds in Rule 2002 were exceeded.

Staff will conduct an assessment of the RECLAIM program before July 1, 2022 and will report the results of the assessment to the Board.

The Board will determine if Non-tradable/Non-usable NOx RTCs shall be converted to Tradable/Usable NOx RTCs.

The conversion is valid only for the period in which the RTC price exceeded the threshold (Compliance Year 2022).
Clarification on Non-Usable/Non-Tradable NOx RTC Conversion

- Compliance year 2022 ends in 2023 for Cycle 2 facilities
  - Cycle 1: January 1, 2022 to December 31, 2022
  - Cycle 2: July 1, 2022 to June 30, 2023
- There are no Non-tradable/Non-usable NOx RTCs after compliance year 2022
  - Compliance year 2022 is the last year of implementation for the 2015 NOx shave
  - Non-tradable/Non-usable RTC adjustment factors for the 2015 NOx shave are contained in Rule 2002 subparagraphs (f)(1)(B) and (f)(1)(C)
  - NOx shave in compliance year 2022 amounts to 4 tons/day emission reductions
REGULATION XX AMENDMENTS ROADMAP
Staff identified five Regulation XX rules that will need to be amended to facilitate the transition of NOx RECLAIM facilities to a command-and-control regulatory structure.

- Staff’s general approach is to change the applicability to exclude regulation of NOx sources from RECLAIM after December 31, 2025
  - Eliminates the need to amend most Regulation XX rules
  - Exit date accounts for the time it will take CARB and U.S. EPA to evaluate landing rules and amendments to Regulations XIII and XX
- Further amendments may be necessary beyond those indicated today

</table>
Summary of Regulation XX Approach

- Staff identified that Rules 2000, 2001, 2002, 2006, and 2015 will need to be amended to complete the RECLAIM transition
- Allocations to Cycle 2 facilities will be reduced by 50% in compliance year 2025
- Compliance year 2025 ends on December 31, 2025 for all NOx RECLAIM facilities
- All NOx RECLAIM facilities will exit NOx RECLAIM on January 1, 2026
- Facilities will still be required to reconcile compliance year 2025 emissions and be subject to RECLAIM annual audits for the 2024 and 2025 compliance years
- Based on discussions with U.S. EPA, staff is recommending a one-time, programmatic equivalency demonstration of 14.5 tpd NOx as part of the SIP submittal package for the RECLAIM transition¹
  - Discussed at May 2021 RECLAIM Working Group Meeting

Ongoing Efforts and Next Steps

- Continue rulemaking activities
- Continue working with U.S. EPA, CARB, and stakeholders
- Monthly RECLAIM and Regulation XIII NSR Working Group Meetings
- Quarterly Stationary Source Committee updates
