

Update

**Disbursement and Tracking of Funds Received Pursuant to Rule 1304.1 -
Electrical Generating Facility Fee for Use of Offset Exemption**

Thank you for both your continued interest and Working Group participation in the development of the proposed Rule 1304.1 Implementation Guidelines.

The Stationary Source Committee (SSC) met on January 22, 2016 and directed staff to revisit the following criteria associated with the proposed implementation guidelines:

- Proximity and Environmental Justice (EJ) area criteria for project prioritization, including distance from the repower project.
- Mechanisms for releasing RFPs, including minimum funding threshold and opportunities for periodic RFP release.

As such, the public hearing previously scheduled for February 4, 2016 will be continued to the March 4, 2016 meeting and an additional update will be provided to the SSC at its February 19, 2016 meeting.

Staff plans on discussing the aforementioned SSC direction at the February 26, 2016 working group meeting as scheduled.

This is the revised development schedule, as follows:

Meeting:	Previously Scheduled:	Currently Scheduled For:
Stationary Source Committee <ul style="list-style-type: none"> • Present modifications as directed • Public input • Receive feedback and further direction 	November 20, 2015 Held: January 22, 2016	February 19, 2016 10:30 a.m. SCAQMD Headquarters, Diamond Bar Conference Room CC-8
