

Rule 2202 - Compliance Status

How to look-up compliance status in Facility Information Detail (FIND)

NOTE: AQMD does not take any responsibility for a person or company relying on the information obtained through FIND. The AQMD does not have any control or responsibility for how the information obtained is used by a person or company.

There are three different ways to search:

- You can search by facility name, city, or zip code; or
- Search specifically by worksite or Facility ID number; or
- You can use the interactive map.

Typically the easiest method is to use your worksite or Facility ID number.

- To start your search, go to the FIND web page:
www3.aqmd.gov/webappl/fim/prog/search.aspx
- Click on the button for Select Facility ID and enter your worksites ID number. Then click on the Search button in the lower left.

The screenshot shows the 'Facility Information Detail (FIND)' search page. The page header includes the 'SOUTH COAST AQMD' logo and the title 'Facility Information Detail (FIND)'. Below the header, there is a brief description of the service and a link to a detailed map search. The main search area is titled 'Search' and contains a 'Find a Facility' section with several input fields: Facility Name, Street Name, City, Zip Code, Select Facility ID (with a radio button selected), Select Application Nbr, Select NOV or NC, and Select Hearing Board Case. A red circle highlights the 'Select Facility ID' field, which contains the number '84742'. A red arrow points to this field with the text 'Enter your Facility ID number here'. Another red circle highlights the 'Search' button, with a red arrow pointing to it and the text 'Click here to start your search'. The page also includes a 'Reset' button, a 'Need Help?' link, and a footer with contact information and a list of links: Home, Employment, Contact Us, Terms & Conditions, Privacy, Website Navigation Tips, Question or Need Info?, and Report Website Problem.

3. You will then see a page that looks like this. Check the company name and address to make sure that is the worksite you want. Then click on the *Transportation* tab on the far right.
