The City later installed Level 3-verified particulate filters on the vehicles they had originally proposed to retrofit. On November 30, 2006, the City supplied a new list of vehicles for retrofit. MSRC staff determined that the proposed replacement vehicles were subject to the State fleet regulation for refuse collection vehicles. At their February 15, 2007 meeting, the MSRC approved funding for the portion of the project which would go above and beyond the regulatory requirements, and authorized that the City may retrofit additional vehicles up to the original award amount. MSRC staff are now awaiting the City's submission of a revised vehicle list.
