

David De Boer
South Coast Air Quality Management District
Program Supervisor

David has worked for the South Coast Air Quality Management District in Southern California since 1986 where his responsibilities have included rule development, permit processing, various special projects and compliance inspections. In his current position as a Program Supervisor in the Planning, Rule Development and Area Sources Division, he supervises staff and programs, and is also responsible for the implementation of various rules, including Rule 1610, Old Vehicle Scrapping.

David holds Master of Science degrees in Mechanical Engineering and Environmental Studies from California State University, Fullerton and has a Bachelor of Arts degree in Business Administration.

David is active in his community and serves on his city's Planning Commission.
