

Dr. Douglas C. Cameron
Chief Scientific Officer
Khosla Ventures
Menlo Park California

Dr. Douglas C. Cameron is the Chief Scientific Officer of Khosla Ventures in Menlo Park, California. He is on the board of directors of Mascoma, Inc., a cellulosic ethanol company. He is also on the boards of Gevo, Inc. and LS9, Inc., companies focused on alternative biofuels. From 1986 to 1998, Dr. Cameron was a professor of chemical engineering at the University of Wisconsin-Madison, where he established a research program in the areas of metabolic engineering and fermentation technology and did pioneering work on the microbial production of industrial chemicals. In 1998, Dr. Cameron moved to Cargill, Inc. in Minneapolis, MN where he built the Cargill Biotechnology Development Center and led biotechnology research until 2006. He is a fellow of the Society for Industrial Microbiology (SIM) and the American Institute for Medical and Biological Engineering (AIMBE). He is on the managing board of the Society for Biological Engineering (SBE), the board of directors of the Biobusiness Alliance of Minnesota and the outside advisory board of the Iowa Center for Biocatalysis and Bioprocessing. Cameron is on the editorial board of the journal, Metabolic Engineering. He is an adjunct professor in the Department of Chemical Engineering at Wisconsin and a consulting professor in the Department of Chemical Engineering at Stanford University. Dr. Cameron received his B.S.E. in biomedical engineering from Duke University in 1979 and his Ph.D. in biochemical engineering from the Massachusetts Institute of Technology in 1986.
