

Biography

Elaine Hebert

Contract Manager,

Public Interest Energy Research (PIER) Buildings End-Use Energy Efficiency Program,
California Energy Commission.

Ms. Hebert has been working at the California Energy Commission since 1994, starting as an editor in the biology unit of the power plant siting division. She worked in research and development in wind and solar energy and the Title 24 energy codes office. She recently served as the Energy Commission liaison to Governor Schwarzenegger's Green Building Initiative.

Ms. Hebert returned to research and development in the PIER program. She also serves as a volunteer on two boards of directors for her local community garden and the northern California chapter of the American Solar Energy Society (ASES). In 2007, ASES named her a fellow of the Society. Elaine received a B.S. in Environmental and Resource Science from the University of California at Davis.
