37	Central San Bernardino Mountains	58	MODERATE	Ozone	Similar all day
38	East San Bernardino Mountains	46	GOOD	Ozone	Similar all day
39	Phelan	64	MODERATE	Ozone	Similar all day
40	Hesperia	47	GOOD	Ozone	Similar all day
41	Trona	58	MODERATE	Ozone	Similar all day
42	Victorville	54	MODERATE	Ozone	Similar all day
43	Yucca Valley	58	MODERATE	Ozone	Similar all day
44	Barstow	64	MODERATE	Ozone	Similar all day
45	Twentynine Palms	50	GOOD	Ozone	Similar all day

* The **Cleanest Time of the Day** is based on forecasts of below-average AQI for PM2.5 and Ozone. These forecasts do not include PM10. They may differ from the actual AQI and users should also check the current AQI measurements at <http://www.aqmd.gov/aqimap> to plan outdoor activities.

What To Do When Air Pollution Reaches Unhealthy Levels

In areas with **UNHEALTHY FOR SENSITIVE GROUPS** air quality (AQI of 101 to 150), sensitive or susceptible persons, including children, older adults and those with heart or lung disease, should minimize outdoor activity.

In areas with **UNHEALTHY** air quality (AQI of 151 to 200) or an **Ozone HEALTH ADVISORY Alert** (AQI of 132 to 200 for 1-hour ozone), everyone should discontinue prolonged, vigorous outdoor exercise lasting longer than one hour. Examples of the kinds of outdoor activities that should be avoided are calisthenics, basketball, running, soccer, football, tennis, swimming laps, and water polo. Susceptible persons, such as those with heart or lung disease, should avoid outdoor activity entirely.

In areas with **VERY UNHEALTHY** air quality (AQI of 201 or above) or an **Ozone STAGE-1 Alert** (AQI of 201 or above for 1-hour ozone), everyone should discontinue all vigorous outdoor activities regardless of duration.
