The California Air Resources Board (CARB or Board) held a meeting remotely on May 19 and 20, 2022 via a web-based videoconferencing service. The key items presented are summarized below.

DISCUSSION ITEMS

22-7-1: Public Meeting to Hear an Informational Update on the California Air Resources Board's Racial Equity and Diversity Efforts

The Board heard an update on CARB's racial equity and diversity efforts as it relates to implementation of Board Resolution 20-33. On October 28, 2020, the Board approved Resolution 20-33, which directs staff to establish and continue enhancing proactive measures to ensure racial equity permeates all of CARB's activities, both internal and external. These efforts are outlined in CARB's Racial Equity Framework which describes the conceptual framework to improve racial equity and provides a model of organizational changes in the agency to accomplish this. The Board heard from staff on efforts at CARB including the Diversity and Racial Equity Task Force's 90 Day Challenge, CARB's proposed concept for a Racial Equity Assessment Lens, and other updates that show CARB's ongoing development and implementation of its racial equity efforts.

22-7-2: Public Meeting to Receive Informational Update on Assembly Bill 617 Statewide Strategy

The Board heard an update on revisions to the Assembly Bill 617 (AB 617) Statewide Strategy, known as the Blueprint. The Blueprint was first approved by the Board in

2018, and outlines California's process for identifying disproportionately impacted communities and developing strategies to reduce emissions of criteria air pollutants and toxic air contaminants in those communities. AB 617 requires CARB to update the Blueprint every five years. The Board was informed on the Blueprint revision progress by a representative panel of the AB 617 Consultation Group. The Consultation Group, chaired by Board Member Dr. John Balmes, was formed in 2020 to begin the revision of the current Blueprint. The Consultation Group provided recommended changes to the Blueprint that would more deeply empower community members, improve governance of community steering committees, and apply a racial equity lens to the work of achieving emissions and exposure reductions in these disproportionately impacted communities. CARB staff also presented efforts to re-envision the Blueprint to bring benefits to a greater number of impacted communities in California.

South Cost AQMD Staff Comments/Testimony: Staff participated in an AB 617 focused panel to share lessons learned and provide recommendations for updates to CARB's Program Blueprint revision. Key highlights emphasized the need for flexibility according to individual community needs, establishing community readiness for the AB 617 process, and setting stakeholder expectations for developing Community Emission Reduction Plans.

22-7-3: 2020-2021 Haagen-Smit Clean Air Awards

The Board presented the 2020-2021 Haagen-Smit Clean Air Awards recognizing outstanding air quality achievements in research, climate change science, technology advancements, and environmental justice. The six awards for 2020 and 2021 were given to extraordinary individuals who have made significant and lifetime contributions in air quality and climate change science.

22-7-4: Public Meeting to Hear an Informational Update on the California Air Resources Board's Academic Memorandums of Understanding with Educational Institutions

The Board heard an update on the Memorandums of Understanding (MOUs) between CARB and our educational partners in the Riverside area. The mutually beneficial partnerships will allow these educational partners to utilize the CARB Riverside facility to offer classes, tours and provide educational opportunities for local institutions to inspire students to learn more about air quality, the impacts of climate change and CARB's efforts to clean the air. In this action, CARB signed updated MOUs with the University of California at Riverside, Riverside Community College District, and the Riverside Unified School District. The Board also formalized new MOUs with the Alvord Unified School District, Cal Baptist University, La Sierra University, and the Riverside County Office of Education. These MOUs will facilitate highly cooperative educational and workforce development opportunities.
