

BOARD MEETING DATE: March 3, 2023

AGENDA NO. 18

REPORT: Mobile Source Committee

SYNOPSIS: The Mobile Source Committee held a hybrid meeting on Friday, February 17, 2023. The following is a summary of the meeting.

RECOMMENDED ACTION:  
Receive and file.

Gideon Kracov, Chair  
Mobile Source Committee

SLR:ak

---

### **Committee Members**

Present: Board Member Gideon Kracov, Chair  
Mayor Larry McCallon  
Supervisor Holly J. Mitchell  
Supervisor V. Manuel Perez  
Council Member Nithya Raman

Absent: None

### **Call to Order**

Chair Kracov called the meeting to order at 9:00 a.m.

For additional details of the Mobile Source Committee Meeting, please refer to the [Webcast](#).

### **INFORMATIONAL ITEMS:**

#### **1. Annual Report on AB 2766 Funds from Motor Vehicle Registration Fees for Fiscal Year 2020-2021**

Lane Garcia, Program Supervisor, Planning, Rule Development and Implementation, summarized implementation of the AB 2766 Program for FY 2020-21.

Mayor McCallon commented on the relative cost-effectiveness of each noted project category, and staff highlighted that some types of projects may only be available to city and county jurisdictions to implement (e.g., traffic signal synchronization) and may not be comparable with measures seen in other programs (e.g., rules or vehicle

replacement programs). For additional details, please refer to the [Webcast](#) beginning at 09:50.

Mayor McCallon asked about jurisdictions that are misusing the funds. Ian MacMillan, Assistant Deputy Executive Officer, Planning, Rule Development and Implementation responded that the audit process corrects misuse and that misuse is very rare. For additional details, please refer to the [Webcast](#) beginning at 13:05.

Supervisor Perez asked how outreach is performed with the funds, and staff responded that outreach activities are eligible uses of the funds and that the annual report lists all the projects for the fiscal year. For additional details, please refer to the [Webcast](#) beginning at 14:50.

Chair Kracov noted the remaining balances for the jurisdictions, and staff affirmed that jurisdictions can accumulate funds over time for future projects. For additional details, please refer to the [Webcast](#) beginning at 16:30.

## **2. Update on CEQA Project Guidance for Cumulative Impacts From Air Toxics**

Mike Morris, Planning and Rules Manager, Planning, Rule Development and Implementation, provided a status update on CEQA Project Guidance for Cumulative Impacts from Air Toxics.

Chair Kracov asked if projects screened out in the first step of the proposed approach would not be required to provide further information or analysis and if this policy will be implemented by the local jurisdictions. Mr. Morris confirmed both. Supervisor Perez asked for the location of the school in the example and if there are other settings like the example. Mr. Morris replied that the example was Jurupa Hills High School in Fontana and confirmed that there are other settings like this. For additional details, please refer to the [Webcast](#) beginning at 24:03.

Mayor McCallon asked if future projects are identified in a general plan. Michael Krause, Assistant Deputy Executive Officer, Planning, Rule Development and Implementation, responded that future projects are included in general or other regional plans. Chair Kracov asked about how projects move from the first to the fourth step, which requires a full HRA, and Mr. Krause explained the general concepts and responded that staff is still working with stakeholders on the thresholds for each step. For additional details, please refer to the [Webcast](#) beginning at 35:27.

Chair Kracov, Mayor McCallon, and Councilmember Raman inquired about outreach and the approval process. Staff indicated that the public outreach is continuing and will continue to expand and that this item will come back to the committee in summer of 2023. Councilmember Raman asked if projects would continue to be approved by local agencies, and Mr. Krause affirmed. Wayne Natri, Executive Officer, added that this effort is in response to a lawsuit by the Attorney

General's Office and that South Coast AQMD is committed to developing the guidance to address cumulative impacts and working with the Attorney General's office and other agencies. Chair Kracov asked if South Coast AQMD will follow this guidance when it is lead agency and Mr. Krause confirmed. For additional details, please refer to the [Webcast](#) beginning at 38:38.

Harvey Eder, Public Solar Power Coalition, highlighted that our region has problems with particulate matter, NOx, and VOC. For additional details, please refer to the [Webcast](#) beginning at 49:21.

Sarah Wiltfong, LA County Business Federation, recommended having a third-party vendor complete MATES VI if that would speed up the analysis. For additional details, please refer to the [Webcast](#) beginning at 52:30.

David Pettit, Natural Resources Defense Council, suggested the cumulative impacts policy scope be expanded to other pollutants, such as PM and NOx, to address the impacts from warehouses to EJ communities. For additional details, please refer to the [Webcast](#) beginning at 53:43.

Chair Kracov asked about the role of MATES used in this policy. Mr. Natri explained that updating MATES is a very lengthy and complex process, and the latest MATES V was done and approved by the Board in 2021. Susan Nakamura, Chief Operating Officer, added that MATES is expected to be used in the first screening step, and Dr. Sarah Rees, Deputy Executive Officer, Planning, Rule Development and Implementation, explained the relationship among diesel PM, PM2.5, and cancer risks. For additional details, please refer to the [Webcast](#) beginning at 55:30.

### **WRITTEN REPORTS:**

#### **3. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program**

Mayor McCallon noted that the WAIRE Program Annual Report presented at last month's meeting did not include the fees collected by the program. He requested that that information be included in the report and asked for the current status of those fees collected. Mr. MacMillan committed to including that information in future reports and stated that the three required reports from the program had generated approximately \$230,000 in administrative fees, which will continue to increase over time. Mr. MacMillan noted that staff began receiving Annual WAIRE Reports recently for the 2022 compliance period and will continue receiving reports through the extended deadline of March 2, 2023. Mr. MacMillan stated that approximately 30 percent of expected operators have initiated or completed their Annual WAIRE Reports. He noted that the program had collected approximately \$600,000 in mitigation fees, but \$2.6 million is anticipated based on preliminary data entered into the system. For additional details, please refer to the [Webcast](#) beginning at 1:05:41.

Mayor McCallon asked how mitigation fees would be used. Mr. MacMillan stated that the mitigation fees would be tracked to ensure the funding goes back to the community it was generated from, but there will be a public process, and that the Board will ultimately determine the use (e.g., zero-emission infrastructure, zero-emission trucks) of those funds. Mayor McCallon stated it was important to have the funding return to the community it was generated from. For additional details, please refer to the [Webcast](#) beginning at 1:08:40.

Mayor McCallon also asked what NOx reductions were achieved through this program and if that analysis will be included in future reports. Mr. MacMillan acknowledged that staff committed to do so in the previous committee meeting, stating that once the data has been received and analyzed, staff would report back to this committee in the summer. Chair Kracov also requested to have the report include a section regarding the mitigation fees. Mr. Nastri agreed to report back on the total funds generated and the estimated emission reductions, including future reductions anticipated from funded infrastructure projects. For additional details, please refer to the [Webcast](#) beginning at 1:09:56.

**4. Rule 2202 Activity Report: Rule 2202 Summary Status Report**

This item was received and filed.

**5. Monthly Report on Environmental Justice Initiatives: CEQA Document Commenting Update**

This item was received and filed.

**OTHER MATTERS:**

**6. Other Business**

There was no other business to report.

**7. Public Comment Period**

There was no public comment to report.

**8. Next Meeting Date**

The next regular Mobile Source Committee meeting is scheduled for Friday, March 17, 2023 at 9:00 a.m.

**Adjournment**

The meeting adjourned at 10:12 a.m.

**Attachments**

1. Attendance Record
2. Rule 2305 Implementation Status Report
3. Rule 2202 Activity Report – Written Report
4. Monthly Report on Environmental Justice Initiatives: CEQA Document Commenting Update – Written Report

**Rule 2305 Implementation Status Report:**  
**Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program**

*September 1, 2022 to January 31, 2023*

**1. Implementation and Outreach Activities:**

Activity	Since Last Report	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909 396-3140) and Helpdesk ( <a href="mailto:waire-program@aqmd.gov">waire-program@aqmd.gov</a> )	1,147	2,879
Views of Compliance Training Videos (outside of webinars)	2,691	4,743
Emails Sent with Information About WAIRE Program Resources	9,093	~30,506
Visits to <a href="http://www.aqmd.gov/waire">www.aqmd.gov/waire</a>	8,344	~28,790
Presentations to Stakeholders	2*	142

*\*Air & Waste Management Association, Transportation Research Board*

**2. Highlights of Recent Implementation Activities**

Staff presented an overview of the WAIRE Program to about 50 community members, academic researchers, and air quality consultants at the Air & Waste Management Association's Freight & Environment: Ports of Entry conference in Oakland CA and to about 60 researchers and government officials at the Transportation Research Board Annual Meeting in Washington DC. Stakeholders praised the program and inquired if the rule could be implemented in other jurisdictions.

Staff continued to expand and build the WAIRE Program Online Portal (POP) in preparation of the initial Annual WAIRE Reports (AWRs) initially due January 31, 2023. In January unforeseen issues to WAIRE POP were discovered. To allow time to make corrections to WAIRE POP, AWRs are being accepted through March 2, 2023. Software upgrades were quickly addressed and deployed for warehouse operators on February 1. As of January 31, 61 facilities had submitted a complete AWR, 29 additional facilities had submitted reports but had not yet paid fees, and another 159 facilities had initiated reports in WAIRE POP. Approximately 1,019 warehouses are expected to file an AWR by the deadline in March.

Staff has continued targeted outreach to Phase 1 facilities (warehouses  $\geq$  250,000 square feet) that had not yet submitted an Initial Site Information Report (ISIR) and has continued to respond to WAIRE Program emails and hotline calls. These efforts included conducting virtual consultation sessions to various stakeholders to broaden outreach efforts and provide technical

support as stakeholders prepared for the initial Annual WAIRE Report (AWR) submittal.

On December 9, 2022, a physical mailer with a one-page informational flyer was distributed to 5,294 warehouse properties that may be subject to Rule 2305. The one-page advisory notice provided a general overview of Rule 2305 requirements and resources on the WAIRE Program.

Staff conducted targeted in-person outreach as a follow-up to that physical mailer, focusing on the AB 617 designated community of San Bernardino & Muscogee (SBM), which identified warehouses as an air quality priority. Staff conducted site visits to 28 warehouse buildings in the SBM community boundary to disseminate Rule 2305 program information, collect contact information for warehouse owners/operators, advise of Rule 2305 requirements, and provide technical assistance if needed.

Staff met with several warehouse owners/operators virtually to discuss reported information identified as business confidential. This feedback will be used to develop an approach for addressing business confidentiality concerns when data reported through the WAIRE Program becomes publicly accessible later during implementation of the program via the online F.I.N.D. tool. Ongoing WAIRE Program implementation also included completing desk audits of approximately 100 early action Annual WAIRE Reports (EAWRs) and continuing review of rule related reports (e.g., the Warehouse Operations Notifications (WONs) and ISIRs).

#### **Anticipated Activity in February**

- Conduct a webinar regarding Annual WAIRE Report requirements and submittals via WAIRE POP to field questions from stakeholders.
- Continue to conduct outreach to Phase 1 and Phase 2 warehouse operators to advise of Rule 2305 requirements, including tracking truck trips and earning WAIRE Points for the 2022 and 2023 compliance period.
- Continue to analyze data submitted through R2305 reports (e.g., WONs, ISIRs, AWRs, early action AWRs).
- Continue to develop an approach for addressing business confidentiality concerns and making WAIRE Program data publicly accessible via the online F.I.N.D. tool on the South Coast AQMD website.

## Rule 2202 Summary Status Report Activity for January 1, 2023 – January 31, 2023

Employee Commute Reduction Program (ECRP)	
# of Submittals:	78

Emission Reduction Strategies (ERS)	
# of Submittals:	10

Air Quality Investment Program (AQIP) Exclusively		
County	# of Facilities	\$ Amount
Los Angeles	1	\$ 6,309
Orange	0	\$ 0
Riverside	0	\$ 0
San Bernardino	0	\$ 0
<b>TOTAL:</b>	<b>1</b>	<b>\$ 6,309</b>

ECRP w/AQIP Combination		
County	# of Facilities	\$ Amount
Los Angeles	0	\$ 0
Orange	0	\$ 0
Riverside	0	\$ 0
San Bernardino	0	\$ 0
<b>TOTAL:</b>	<b>0</b>	<b>\$ 0</b>

### Total Active Sites as of January 31, 2023

ECRP (AVR Surveys)			TOTAL Submittals w/Surveys	AQIP	ERS	TOTAL
ECRP <sup>1</sup>	AQIP <sup>2</sup>	ERS <sup>3</sup>				
521	9	72	602	102	647	1,351
38.56%	0.67%	5.33%	44.56%	7.55%	47.89%	100% <sup>4</sup>

### Total Peak Window Employees as of January 31, 2023

ECRP (AVR Surveys)			TOTAL Submittals w/Surveys	AQIP	ERS	TOTAL
ECRP <sup>1</sup>	AQIP <sup>2</sup>	ERS <sup>3</sup>				
368,256	3,223	11,180	382,659	14,018	276,124	672,801
54.74%	0.48%	1.66%	56.88%	2.08%	41.04%	100% <sup>4</sup>

- Notes:**
1. ECRP Compliance Option.
  2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.
  3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.
  4. Totals may vary slightly due to rounding.

BOARD MEETING DATE: March 3, 2023

AGENDA NO.

REPORT: Lead Agency Projects and Environmental Documents Received

SYNOPSIS: This report provides a listing of CEQA documents received by South Coast AQMD between January 1, 2023 and January 31, 2023, and those projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

COMMITTEE: Mobile Source, February 17, 2023, Reviewed

RECOMMENDED ACTION:  
Receive and file.

Wayne Nastri  
Executive Officer

SR:MK:MM:SW:ET

---

**CEQA Document Receipt and Review Logs (Attachments A and B)** – Each month, South Coast AQMD receives numerous CEQA documents from other public agencies on projects that could adversely affect air quality. A listing of all documents received during the reporting period January 1, 2023 to January 31, 2023 is included in Attachment A. A total of 50 CEQA documents were received during this reporting period and 21 comment letters were sent. A list of active projects for which South Coast AQMD staff is continuing to evaluate or prepare comments for November 2022 and December 2022 reporting period is included as Attachment B.

The Intergovernmental Review function, which consists of reviewing and commenting on the adequacy of the air quality analysis in CEQA documents prepared by other lead agencies, is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4. As required by the Environmental Justice Program Enhancements for FY 2002-03, approved by the Board in October 2002, each attachment notes proposed projects where South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. South Coast

AQMD has established an internal central contact to receive information on projects with potential air quality-related environmental justice concerns. The public may contact South Coast AQMD about projects of concern by the following means: in writing via fax, email, or standard letters; through telephone communication; and as part of oral comments at South Coast AQMD meetings or other meetings where South Coast AQMD staff is present. The attachments also identify, for each project, the dates of the public comment period and the public hearing date, if applicable. Interested parties should rely on the lead agencies themselves for definitive information regarding public comment periods and hearings as these dates are occasionally modified by the lead agency.

In January 2006, the Board approved the Workplan for the Chairman's Clean Port Initiatives. One action item of the Chairman's Initiatives was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In response to describing goods movement, CEQA documents (Attachments A and B) are organized to group projects of interest into the following categories: goods movement projects; schools; landfills and wastewater projects; airports; general land use projects, etc. In response to the mitigation component, guidance information on mitigation measures was compiled into a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases. These mitigation measure tables are on the CEQA webpages portion of South Coast AQMD's website at: <http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies>. Staff will continue compiling tables of mitigation measures for other emission sources.

Staff focuses on reviewing and preparing comments for projects: where South Coast AQMD is a responsible agency; that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); where environmental justice concerns have been raised; and which a lead or responsible agency has specifically requested South Coast AQMD review. If staff provided written comments to the lead agency as noted in the column "Comment Status," there is a link to the "South Coast AQMD Letter" under the Project Description. In addition, if staff testified at a hearing for the proposed project, a notation is provided under the "Comment Status." If there is no notation, then staff did not provide testimony at a hearing for the proposed project.

During the period of January 1, 2023 to January 31, 2023, South Coast AQMD received 50 CEQA documents which are listed in the Attachment A. In addition, there are 16 documents from earlier that either have been reviewed or are still under review. Those are listed in the Attachment B. The current status of the total 66 documents from Attachment A and B are summarized as follows:

- 21 comment letters were sent;
- 29 documents were reviewed, but no comments were made;
- 16 documents are currently under review.

(The above statistics are from January 1, 2023 to January 31, 2023 and may not include the most recent “Comment Status” updates in Attachments A and B.)

Copies of all comment letters sent to lead agencies can be found on South Coast AQMD’s CEQA webpage at the following internet address:

<http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>.

**South Coast AQMD Lead Agency Projects (Attachment C)** – Pursuant to CEQA, South Coast AQMD periodically acts as lead agency for stationary source permit projects. Under CEQA, the lead agency is responsible for determining the type of CEQA document to be prepared if the proposal for action is considered to be a “project” as defined by CEQA. For example, an Environmental Impact Report (EIR) is prepared when South Coast AQMD, as lead agency, finds substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if South Coast AQMD determines that the project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are written statements describing the reasons why projects will not have a significant adverse effect on the environment and, therefore, do not require the preparation of an EIR.

Attachment C to this report summarizes the active projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation. As noted in Attachment C, South Coast AQMD continued working on the CEQA documents for two active projects during January 2023.

**PROJECTS THROUGH JANUARY 31, 2023**

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke, and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs.	Quemetco	Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received.  Staff held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Written comments submitted relative to the Draft EIR and oral comments made at the community meetings, along with responses will be included in the Final EIR which is currently being prepared by the consultant.	Trinity Consultants
Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing flares.	Sunshine Canyon Landfill	Subsequent Environmental Impact Report (SEIR)	South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are currently being addressed by the consultant.	SCS Engineers
