

AB 617 Air Quality Strategies and Measures (Actions) Worksheet for CSC Meeting #5

East Los Angeles, Boyle Heights, West Commerce

During this activity, please keep the following in mind:

- Please engage at your level of comfort using the presentation materials provided to guide the discussion. All questions and comments are welcome.
 - If you do not feel comfortable speaking in front of the group, you may write your question or comment anonymously so that staff may read it to the group.
- Self-monitor the amount of time you are speaking to ensure everyone has the opportunity to provide feedback.
- Listening is as important as speaking.
- This discussion should be positive and constructive.
- Seek clarification or ask questions if you are unclear of a term or concept.
- Be respectful of other participants' comments or other points of view.
- A response is not mandatory for each question.

This activity will discuss the following questions:

1. Which of the proposed actions in this air quality concern category are the highest priorities?
2. Does the proposed monitoring approach support other actions (e.g. enforcement, emission reductions)?
(This is your opportunity to provide input to staff for the draft air monitoring plan.)
3. What additional ideas do you have to address this air quality concern?
4. How would you prioritize schools (e.g. age group sensitive receptors, proximity to known emission sources, concentrations of pollutants/toxics, etc.)?
(To which group would you give the highest priority and why: schools, community centers, hospitals, parks, etc.?)

Neighborhood Truck Traffic	Previously discussed in CSC Meeting #4. See Meeting Summary for more details.
Railyard (On-Site Emissions)	Previously discussed in CSC Meeting #4. See Meeting Summary for more details.
Warehouses (On-Site Emissions)	Previously discussed in CSC Meeting #4. See Meeting Summary for more details.

General Air Quality Concern	Notes on Proposed Actions (for Community Members)
Metal Processing	
Household Hazardous Waste Facilities/Toxic Waste Facilities	
Rendering Facilities	
Auto body Shops	
Schools/Hospitals/ Parks and Community Centers	

Additional comments or concerns please email ab617@aqmd.gov.
