### EASTERN COACHELLA VALLEY (ECV) CSC MEETING #11 JANUARY 21<sup>ST</sup>, 2021

Pedro Piqueras, Ph.D. Air Quality Specialist

### GOVERNING BOARD MEETING RECAP

- CERP was unanimously adopted
- South Coast AQMD Governing Board directed staff to the following:
  - No later than June 30, 2021 Provide additional details on monitoring objectives, collaborations with other entities, and incentive strategies
  - January to February 2021 Hold two CSC meetings to receive feedback on these topics
  - March to April 2021 Hold two additional CSC meetings to review draft amendments to the CERP

#### Governing Board Meeting held on December 4<sup>th</sup>, 2020

### CERP HIGHLIGHTS

#### Salton Sea

- Identify opportunities to expand monitoring for H2S and PM10
- Pursue collaborations to support dust suppression projects
- Pursue funding opportunities to install air filtration systems in schools and homes near the Salton Sea

#### **Pesticides**

- Collaborate with CARB to develop a pesticides air monitoring strategy
- Consult with Department of Pesticide Regulation (DPR) and the Riverside Agricultural Commissioner to evaluate the feasibility of developing a notification system pilot project

#### Fugitive Road Dust and Off-Roading

- Expand PM10 monitoring network and provide real-time data to the community
- Pursue collaborations to pave unpaved roads and parks and address emissions from offroading
- Identify opportunities to implement home weatherization projects and install air filtration systems at schools, community centers, and homes

## CERP HIGHLIGHTS (CONTINUED)

#### **Open Burning and Illegal Dumping**

- Pursue opportunities to develop an online notification system to inform the community when permitted burning is expected to occur
- Pursue funding opportunities for alternatives to burning and illegal dumping (e.g., chippers, waste collection services, fencing around frequent dumping sites)

#### **Diesel Mobile Sources**

- Work with the CSC to identify air quality concerns for diesel mobile source emissions and create a low-cost sensor network for PM2.5 and NO2
- Collaborate with CARB to identify opportunities for focused enforcement and additional regulatory measures, if needed
- Identify incentive opportunities to replace on-road and off-road equipment and school buses with cleaner technology

#### **Greenleaf Desert View Power Plant**

- Gather air quality information about the facility
- Work with the CSC to identify air quality concerns relating to this facility to develop further actions, e.g., low-cost sensor deployments, strategies to reduce emissions
