

# ASSEMBLY BILL 617 (AB 617) SOUTH LOS ANGELES (SLA) ANNUAL HIGHLIGHTS JULY 2024 - JUNE 2025

## Community Emission Reductions Plan (CERP) Progress

### Five Air Quality Priorities

### CERP Implementation Highlights

#### Auto Body Shops<sup>1</sup>

- Rules 1151<sup>5</sup> and 1171<sup>6</sup> were amended to address phasing out of pCBtF<sup>7</sup> and t-BAC<sup>8</sup>, as well as addressing emission limits, permitting, and best management practices

#### Dry Cleaning Machine Replacement Project Plan<sup>2</sup>

- South Coast AQMD, in partnership with the community co-leads, began development of a Project Plan to address emissions from dry cleaners in SLA, funded by \$2.3 million in Community Air Protection (CAP) Incentives Program funds

### 53 Total CERP Objectives

#### Status of CERP Implementation

June 3, 2022 to June 30, 2025

### Projected Emission Reductions

A total of \$9.55 million in Community Air Protection (CAP) Incentive funds have been approved by the South Coast AQMD Board for mobile source projects, reducing up to 3 tons per year (tpy) of oxides of nitrogen (NOx), 0.1 tpy of diesel particulate matter (DPM), and 0.2 tpy of volatile organic compounds (VOC) emissions.

### Next Steps

#### Community-Identified Projects<sup>3</sup>

- Continue development of the following community-identified projects: Auto Body Shops, Dry Cleaning Machine Replacement, Green Spaces, and School and Residential Air Filtration Systems

#### Working Teams<sup>4</sup>

- Continued involvement of Working Teams in development of Project Plans
- Coordinating additional Community Steering Committee (CSC) activities to collect data on areas related to air quality priority objectives
