Background

Since FY 1995-96, staff has provided semi-annual reports to the Board on contract activity. This report identifies five categories of contract awards: 1) New Awards – new contracts for professional services and research projects; 2) Other – air monitoring station leases, Board Assistant agreements, or other miscellaneous agreements; 3) Sponsorships – contracts funding public events and technical conferences which provide air quality related benefits; 4) Amendments – modifications to existing contracts usually reflecting changes in the project scope and/or schedule; 5) Terminated Contracts – Partial Work Performed – modifications to contracts to reflect termination of a portion or all of the work which result in de-obligation of contract funding. The report further specifies under New Awards, which contracts were awarded competitively and which were awarded on a sole-source basis. Within the first four categories, the level of approval (Board or Executive Officer) is indicated.

Summary

Of the 895 contracts and modifications (including terminations) issued during this period, New Awards accounted for 696, Other accounted for 22, Sponsorships accounted for 7, and Modifications accounted for 170. The total value for New Awards was \$103,716,515.00. Of this amount, \$100,589,615.00 or 97% was awarded through the

competitive process. The total value of all contracts and contract modifications for this period was \$107,381,331.40, with 697 contracts and contract modifications totaling \$105,664,000.00 approved by the Board, and 141 contracts and contract modifications totaling \$1,717,331.40 approved by the Executive Officer.
