Meeting Minutes Approved

The MSRC unanimously approved the minutes of the February 16 and March 16, 2017 meetings. Those approved minutes are attached for your information (*Attachments 1 and 2*).

MSRC Chair Re-Appointed and MSRC Vice-Chair Re-Appointed

Annually the MSRC elects its chair and vice-chair. At its May 18, 2017 meeting, the MSRC unanimously re-appointed Greg Pettis as its chair for another one-year term. Mr. Pettis is Mayor Pro Tem for the City of Cathedral City and represents the Riverside County Transportation Commission on the MSRC. The MSRC also unanimously re-elected Larry McCallon as its MSRC vice-chair. Mr. McCallon is Mayor Pro Tem for the City of Highland and represents the San Bernardino Associated Governments (SANBAG) on the MSRC.

FYs 2016-18 Major Event Center Transportation Program (PA2017-05)

As part of its FYs 2016-18 Work Program, the MSRC allocated \$5,000,000 for event center transportation programs and released Program Announcement #PA2017-05. The Program Announcement solicits applications from qualifying major event centers and/or transportation providers to provide transportation service for venues not currently served by sufficient transportation service. To date, the MSRC has awarded \$503,272 to one project. The MSRC considered recommendations concerning an additional application submitted by Orange County Transportation Authority (OCTA). OCTA

requested the MSRC to consider an award of \$834,222 to provide special bus service to the Orange County Fair in 2017 and 2018. Service would be provided on Saturdays and Sundays for the five July and August weekends of each Fair season, beginning at 10:00 a.m. and continuing hourly until 1:00 a.m., and would travel between nine existing transit facilities and the fairgrounds in Costa Mesa to maximize the potential for riders to complete the greater portion of their trip via transit. The service will utilize model year 2008 CNG buses initially, but begin phasing in buses repowered with the Cummins ISL G near-zero engine during the 2017 Fair season. It is intended that the 2018 service would be implemented using exclusively near-zero engine equipped buses. OCTA would contribute \$1,061,598 in co-funding. The MSRC approved a contract award to OCTA in an amount not to exceed \$834,222 as part of the FYs 2016-18 Work Program. This contract award will be considered by the SCAQMD Board at its June 2, 2017 meeting.

FYs 2012-14 Signal Synchronization Partnership Program

In July 2014, the MSRC approved an award to Riverside County Transportation Commission (RCTC) in an amount not to exceed \$310,375 to implement signal coordination and related projects along the Highway 111 corridor within the Coachella Valley portion of Riverside County; this award was combined with earlier awards to RCTC under one contract. The Coachella Valley Association of Governments' evaluation committee subsequently made the recommendation that signal synchronization projects should be completed regionally, rather than "city to city" or even one major roadway at a time, to ensure that the project areas are interconnected. RCTC proposed to expand the scope to cover nine cities as well as unincorporated areas. The project would continue to include signal upgrades, communication systems, hardware and software improvements, and a Traffic Management Center. Total project cost is now estimated at \$10,800,000, and the MSRC contribution would remain constant at \$310,375. The MSRC considered and approved RCTC's requested contract modification. This contract modification will be considered by the SCAQMD Board at its June 2, 2017 meeting.

FYs 2016-18 Natural Gas Infrastructure Program

The MSRC approved release of Program Announcement #PA2017-07 under the FYs 2016-18 Work Program. The Program Announcement, with a targeted funding level of \$4.0 million, provides funds for new and expanded natural gas stations, as well as for the upgrade of existing vehicle maintenance facilities. Stations will be eligible for up to 50 percent of station capital equipment, site construction, signage, and reasonable project management costs, not to exceed the specified maximum award amounts. The maximum MSRC funding per project varies from \$100,000 to \$275,000 depending upon whether the applicant is a public or private entity, accessibility level of the proposed project, and the number of fuels offered. Additionally, projects may be eligible for a \$100,000 bonus if they commit to use at least 50% renewable natural gas for a minimum of five years. Lastly, the program offers funding for training technicians

in the maintenance of natural gas vehicles and equipment, with a maximum per-entity award of \$15,000 and an overall cap of \$150,000. Proposals meeting requirements will be funded on a first-come, first-served basis. The RFP includes an open application period commencing with its release on June 2, 2017, and closing June 29, 2018, and projects will be brought to the MSRC for consideration of awards throughout the application period. The SCAQMD Board will consider the release of Program Announcement #PA2017-07 at its June 2, 2017 meeting.

MSRC Technical Advisor Services

The MSRC retains a Technical Advisor for programmatic and technical assistance. At their May 18, 2017 meeting, the MSRC approved release of an RFP #P2017-15 to solicit Technical Advisor services for an initial 27-month period beginning October 1, 2017, including a 24-month option term to extend, as part of the FYs 2016-18 Work Program. The purpose of the Technical Advisor is to provide independent, objective assistance and advice to the MSRC and the MSRC's Technical Advisory Committee. The RFP establishes the following scoring criteria: Technical Qualifications/Experience; Technical Approach; Proposed Cost; Past Performance; and DVBE/Local Business/Small Business status. So long as expertise and qualifications meet the requirements, individually or collectively, proposals may be submitted by: 1) a single independent contractor, 2) two or more independent contractors submitting a joint proposal; or 3) a consulting firm designating a team of key personnel. Proposals are due by July 13, 2017. The SCAQMD Board will consider the release of RFP#P2017-15 at its June 2, 2017 meeting.

Update on Concepts for MSRC Infrastructure Program

In October 2016, the MSRC established initial categories for its FYs 2016-18 Work Program. One of the categories designated for consideration was Alternative Fuel Infrastructure. The MSRC-TAC Infrastructure Subcommittee developed a conceptual framework for how the MSRC can partner with other stakeholders in order to support the increased deployment of multiple alternative fuel types. The Infrastructure Partnership is a proposed concept between MSRC, SCAQMD, and CEC. The proposed Partnership level is \$25M, with the MSRC contribution to the Partnership being \$8M. Three infrastructure categories were proposed: 1) Natural Gas Refueling, with an added bonus to commitment to use Renewable Natural Gas, 2) Electric Vehicle Charging (EVSE); and 3) Hydrogen Refueling, to construct four new H₂ Refueling Facilities within the SCAQMD region. The MSRC gave the green light to initiate Partnership formation discussions and directed staff to bring back a final plan for MSRC review & approval.

Contract Modification Requests

The MSRC considered three contract modification requests and took the following actions:

1. The City of Baldwin Park, Contract #ML12045, which provides \$400,000 to install a new CNG Station, a 18-month extension;
2. For the City of Palm Desert, Contract #ML16072, which provides \$56,000 to install an EV Charging Station, a 2-year term extension till December 2021; and
3. For Riverside County Transportation Commission (RCTC), Contract #MS14059, which provides \$1,250,000 to monitor signals along the Highway 111 corridor, expand the scope to cover nine cities as well as unincorporated areas, with no increase in cost to the MSRC.

Received and Approved Final Reports

The MSRC received and unanimously approved two final report summaries this month as follows:

1. Ware Disposal, Contract #MS12034 which provided \$133,070 for the Purchase of 8 Medium-Heavy Duty Vehicles; and
2. Orange County Transportation Authority, Contract #MS14058 which provided \$1,250,000 to Implement Various Traffic Signal Synchronization Projects.

For Approval – As Recommended

Agenda Item #5 – Consider Reduced Scope and Value and One-Year Extension by City of Bellflower, Contract #ML12051 (\$170,000 – Install Eight Level II EV Charging Stations)

The City indicates a preference for installing two Level III/DC Fast Charger stations, rather than the eight Level II stations specified in the contract, based on the City's belief that the fast chargers will be more popular and experience a greater turnover. They are requesting approval to substitute the fast chargers, coupled with a corresponding contract value reduction from \$170,000 to \$100,000. The City further requests a one-year term extension in order to complete the work. The MSRC-TAC reviewed this request and unanimously recommended approval.

SECONDED BY MSRC CHAIR GREG PETTIS, UNDER APPROVAL OF
CONSENT CALENDAR ITEMS #1 THROUGH #5, THE MSRC
UNANIMOUSLY VOTED TO APPROVE THE CITY OF BELLFLOWER'S
SUBSTITUTION OF THE INSTALLATION OF TWO LEVEL III/DC FAST

ACTION CALENDAR (Items 7 through 9)

FYs 2014-16 WORK PROGRAM

Agenda Item #7 – Consider Application Received under the Near-Zero Heavy-Duty Natural Gas Engine Incentive Program

Ray Gorski, MSRC Technical Advisor, reported on this item. As an element of the FYs 2014-16 Work Program, the MSRC allocated \$10 million to incentivize the purchase of near zero natural gas engines for applications in both transit buses and refuse collection vehicles. This Program opened on June 3, 2016, and it closed on January 6, 2017. One additional application has been received from Long Beach Transit. They are requesting \$600,000 to purchase 40 new transit

buses which are equipped with the qualifying Cummins Westport ISL G Near Zero engine certified at 0.02 g/bhp-hr. This has gone through both the Heavy Duty Subcommittee as well as the MSRC-TAC and they recommend approval.

ON MOTION BY MSRC VICE CHAIR LARRY MCCALLON, AND
SECONDED BY MSRC ALTERNATE TIM SHAW, THE MSRC
UNANIMOUSLY VOTED TO APPROVE AN AWARD OF \$600,000 TO
LONG BEACH TRANSIT TOWARD THE PURCHASE OF 40 NEW
TRANSIT BUSES EQUIPPED WITH ISL G NEAR ZERO ENGINE.
AYES: CARTER, ROYBAL SALTARELLI, YAMARONE, SHAW,
MCCALLON, PETTIS.
NOES: NONE.

ACTION: This award will be considered by the SCAQMD Board at its March 3, 2017 meeting.

Agenda Item #8 – Receive Update on Implementation of Enhanced Fleet Modernization Program (EFMP) and Consider Potential Reduction of MSRC Allocation

MSRC-TAC Member Dean Saito reported on this item. This item is to update the MSRC on the EFMP Program. By means of background, this is a Program to target low income households and offer them a voucher to replace their older vehicle with an advanced technology vehicle, either a conventional hybrid, a plug-in hybrid, or a battery-electric. They get added revenues if they live in a disadvantaged community. To date, the current Program has approved over 1,300 vouchers. Ninety-four percent of the applications have been from consumers living in disadvantaged communities. A majority of the vehicles have either been hybrid, plug-in hybrid, or battery-electric. In November of 2014 the MSRC approved \$800,000 to assist in the EFMP Program, and in September 2015, the MSRC approved up to \$6.2 million additional. The vouchers expended to date have been \$1.867 million, for a total of 320 vouchers. We have received funding from the state under AB 118 for \$3.14 million and from the GHG Reduction Fund up to \$12.75 million. We are planning to continue the EFMP Implementation; we are enhancing the website to streamline the application procedures to handle more applications; we have received additional GHG Reduction Funds for this Program recently and we are reviewing a draft Interagency Agreement to reflect that. The total remaining MSRC funds that have not been committed to date is \$4.651 million. SCAQMD staff is proposing the continued implementation and expenditure of MSRC funds for a total of \$651,000 and to return to the MSRC General Fund, at the discretion of the MSRC, a total of \$4 million.

MSRC Vice Chair Larry McCallon asked about the return on investment. How much are we taking out in terms of pollution? Mr. Saito replied that for the most part, when we evaluated the emissions testing of all the vehicles, they are older vehicles and a majority of them would not have passed Smog Check, so we are getting a lot of criteria pollutant reductions, but a main target of this Program is GHG reductions. Therefore, for the expenditures we are achieving significant GHG reductions that are being reported to CARB. There is a chart in today's presentation that describes the percentage of battery-electric and plug-in hybrids. A majority of the vehicles, as replacement vehicles, are these advanced technology vehicles, they clearly are cleaner than the gasoline combustion vehicles. Mr. McCallon asked if we are spending a lot of money and getting a little bit in return. Mr. Saito said that compared to other programs, that may be true, but on the flip side of that, typically our programs have targeted criteria pollutants and this is a Program that combines a GHG component along with the criteria pollutants. It's kind of a blending of the two different programs that the AQMP is targeting. MSRC Alternate Michael Carter added that the Program also incentivizes the use of advanced technologies; that's the other part of it. Emissions aside, it helps advance hybrids and plug-ins. Mr. Saito confirmed that it is a Program targeting

low-income households. MSRC Chair Greg Pettis clarified that in this particular case the MSRC is just moving money from this Program back into the General Fund. MSRC Alternate Tim Shaw asked what the balance will be after the \$4 million is returned. John Kampa, Financial Analyst, indicated that the balance would then be about \$44 million unallocated fund balance for FYs 2016-18 Work Program. Mr. Carter indicated that there is enough funding available for the EFMP Program to continue with AB 118 funds, so it is not like we are cutting it short. Mr. Saito added that because of the recent legislature allocation of the Plus-Up Funds, staff felt comfortable returning the money back to the MSRC General Fund.

ON MOTION BY MSRC VICE CHAIR LARRY MCCALLON, AND
SECONDED BY MSRC ALTERNATE TIM SHAW, THE MSRC
UNANIMOUSLY VOTED TO APPROVE THE REPROGRAMMING OF
\$4 MILLION FROM EFMP TO THE MSRC'S 2016-18 WORK PROGRAM,
LEAVING A BALANCE OF \$651,000 ALLOCATED TO EFMP.
AYES: CARTER, ROYBAL SALTARELLI, YAMARONE, SHAW,
MCCALLON, PETTIS.
NOES: NONE.

ACTION: This item will be considered by the SCAQMD Board at its March 3, 2017 meeting.

FYs 2016-18 WORK PROGRAM

Agenda Item #9 – Consider Approval of Program Announcement for Major Event Center Transportation Program

Ray Gorski, MSRC Technical Advisor, reported on this item. The agenda package includes a draft solicitation document for the Major Event Center Transportation Program. A Subcommittee was formed that included members of the MSRC-TAC, as well as Greg Winterbottom, representing the MSRC, and they went through line-by-line through the prior Work Program's document looking for areas where improvements could be made. The emphasis was to improve the air quality benefits which result from the Program. In many cases, we were trying to tighten up the requirements as well as the evaluation criteria, incorporating lessons learned from prior years that the Program was implemented. There is a recommendation to increase the targeted funding level from \$4.5 million up to an even \$5 million, based upon lessons learned. It is impossible to accurately predict, but the MSRC-TAC believes that \$5 million should be adequate without needing to come back to the MSRC seeking additional moneys. To keep the program implementation within the basic years that the Work Program is funding, trying to avoid funding projects that occur well out in the future with this year's money, the MSRC-TAC is recommending that projects be implemented no later than December 31, 2019. That gives approximately two consecutive years of events that could be proposed. The MSRC-TAC is further recommending that the MSRC limit a proposal to a maximum of two consecutive years. The MSRC-TAC recommends holding the EPA 2010 and CARB 2010 standards for the vehicles, however, they do want to incentivize to the extent feasible the implementation of projects utilizing Near Zero and Zero technologies. Setting a standard 90 percent lower than the 2010 standard doesn't seem practical today, so instead the MSRC-TAC is recommending to sweeten the pot and give an additional incentive for those entities which do propose and obligate themselves to use Zero emission or Near Zero emission technologies. Relative to locomotives, it's understood that Metrolink is in a transition phase right now. They have Tier 4 locomotives which are coming online, but they are not here quite as soon as had hoped. The MSRC-TAC is recommending that Tier 4 locomotives be required for all events beginning no later than

January 1, 2018. That gives a few months of phase-in for those Tier 4 locomotives. If those locomotives become available prior to January 1, 2018, then the contract would require that they be utilized. Then, after January 1, 2018, all locomotive projects would need to utilize Tier 4 technologies.

As far as the co-funding, the basic co-funding requirement, in and of itself, has not changed. The Major Events Center projects would require a dollar-for-dollar match from the project proponents. However, it has been recommended that if projects do offer to use Zero or Near Zero emission technologies, that they get a break on their co-funding obligation and that the required amount be only 25 percent of the total project cost. This is an incentive to utilize the cleanest vehicles available. If a fleet has a mixed fleet, for example, they are just starting to receive deliveries of their new Near Zero vehicles, the required co-funding would be pro-rated.

As far as the definition of a Major Event Center, it has been recommended that it be tightened up. Past solicitations have said that the occupancy capacity had to be at least 5,000 people with an average attendance of 2,000 people. Looking at the past history, it was decided that the thresholds would probably need to be increased. The MSRC-TAC is recommending a 15,000 person capacity for the center itself, and then having approximately 50 percent patron utilization for the average event. The hope is that by attracting the large centers, the MSRC can get a meaningful fraction of those participants such that you can justify implementing a circulator service. What we have found in a couple of smaller projects is that we have a lot of vehicles driving around, but they are not at capacity. Because of that, there are a lot of emissions generated from those vehicles which are driving around. MSRC Vice Chair Larry McCallon interjected that by changing it to those limits you have completely eliminated anything from San Bernardino County, and he objected to that. Mr. Gorski indicated that the goal is to maximize the air quality benefits which we get, that's all. If there is a number that the MSRC has, the TAC or the MSRC staff will incorporate it. Mr. McCallon indicated that there is nothing in San Bernardino County, that he is aware of, that can meet those capacity numbers. Mr. Gorski commented that right now San Bernardino has the Auto Club Speedway as its major venue. Mr. McCallon added that they have the Orange Show and Citizens Business Bank Arena events. Mr. Gorski indicated that that is why we are presenting this. We are trying to understand what the preference of the MSRC is relative to setting the threshold. Mr. McCallon's recommendation would be to raise the minimum capacity to no more than 7,500 and the average event attendance to 5,000, assuming the rest of the MSRC agrees. Mr. McCallon stated that they have been reaching out to some of these other places to see if they can generate some interest. That's why he doesn't want to raise the limit that high because then we are limiting it totally to one event, the Auto Club Speedway, in San Bernardino.

As far as the actual Program schedule, the MSRC-TAC is suggesting a one-year application period which would commence on March 3, 2017 and close a year later on March 30, 2018. Relative to the evaluation criteria, the recommendation is to adopt a more strict evaluation protocol. The highest score criterion is the quantifiable air quality benefits. In the draft solicitation, there are a whole bunch of criteria under that item which are what will be utilized to judge whether or not a project has the potential to achieve substantial air quality benefits or improvement in emission reductions. This is worth 75 points.

The Additional Project Co-Funding is a scale to show some recognition of entities which are bringing greater co-funding than what is required by the actual Program requirements. It has always been the desire of the MSRC, in past programs, to have these projects become self-sustaining after the initial demonstration period. The Program Continuation Plan is to recognize that for projects that can show a continuation plan beyond the MSRC funding period, to give them additional consideration. The crux here, though, is that the way it is currently drafted, a

project would have to achieve a minimum of 60 points to be further considered. If something can't score at the 60 percentile, it would not be deemed worthy of MSRC consideration and it would be bounded out. That is the recommendation for the scoring criteria.

MSRC Alternate Michael Carter asked what the justification was for the 15,000 number. Mr. Gorski said that looking at Major Event Centers throughout the area, and what their average attendance was; what types of programs were held there, sporting events, concerts, etc.; and it appeared that around 15,000 was a break point for the "major," and that's how we came up with that number. There are a lot of "pop-up" events, and this was discussed at the TAC, that the MSRC can also entertain. For example, if there is going to be an event held in a geographic location, which is projected to have a very high occupancy, the MSRC would certainly want to at least look into that type of project. It was just doing a survey of what's out there, what did we deem to be a "major" event center, one that would generate a lot of traffic, a lot of congestion, was poorly transit served, and would benefit from having other transportation services applied to it.

MSRC Alternate Tim Shaw asked about the Great Park in Irvine. He knows they have big events; the Solar Decathlon being one of them. Would that be something the MSRC would consider? Mr. Gorski replied that that is an example of the MSRC looking at a project on, not so much a physical structure, but as a geographic area as being a venue, and the Great Park in Orange County did receive MSRC money to do the Solar Decathlon with the U.S. Department of Energy.

MSRC-TAC Member Dean Saito asked if the definition for Near Zero is 0.02 g/bhp-hr, or is it any of the optional NOx standards. Mr. Gorski replied that right now, the way it is delineated in the draft announcement, it is 0.02 g/bhp-hr.

ON MOTION BY MSRC VICE CHAIR LARRY MCCALLON, AND
SECONDED BY MSRC ALTERNATE TIM SHAW, THE MSRC
UNANIMOUSLY VOTED TO APPROVE THE PROGRAM
ANNOUNCEMENT FOR THE MAJOR EVENT CENTER
TRANSPORTATION PROGRAM, WITH A MODIFICATION TO THE
OCCUPANCY CAPACITY TO AT LEAST 7,500 PEOPLE; AND AVERAGE
EVENT ATTENDANCE TO AT LEAST 5,000 PEOPLE; IN ADDITION TO A
TARGETED FUNDING AMOUNT OF \$5 MILLION.
AYES: CARTER, ROYBAL SALTARELLI, YAMARONE, SHAW,
MCCALLON, PETTIS.
NOES: NONE.

ACTION: No further action is required.

For Approval – As Recommended**Agenda Item #5 – Consider Two-Year Term Extension and Alternative Remedy by City of Los Angeles, Bureau of Sanitation, Contract #MS12082 (Install CNG Station)**

The City indicates that unanticipated delays in the procurement and delivery of collection vehicles, coupled with a delay in the retrofit of the yard's maintenance facility, have combined to retard the deployment of vehicles using the subject station. They do not anticipate that the station

will dispense the required throughput in the third year of operation, and possibly not the fourth year. As an alternative remedy, the City requests a two-year contract term extension, with the throughput requirement being met in the fifth through seventh years of operation. The MSRC-TAC unanimously recommended approval.

ON MOTION BY MSRC MEMBER BEN BENOIT, AND SECONDED BY MSRC ALTERNATE ADAM RUSH, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY VOTED TO APPROVE FOR THE CITY OF LOS ANGELES, BUREAU OF SANITATION CONTRACT #MS12082, A TWO-YEAR CONTRACT TERM EXTENSION, WITH THE THROUGHPUT REQUIREMENT BEING MET IN THE FIFTH THROUGH SEVENTH YEARS OF OPERATION.

ACTION: MSRC Staff will amend the above contract accordingly.

Agenda Item #6 – Modify Award to Los Angeles Metropolitan Transportation Authority (Metro) under the Major Event Center Transportation Program to Include Two Concerts at Dodger Stadium

In June 2016, the MSRC awarded Metro \$807,945 to provide special transit service for the 2017 Dodgers baseball season. Metro has recently brought to attention that their proposal, and the \$807,945 funding request, included service to two concerts at Dodger Stadium. This aspect of the service was not described to the MSRC or SCAQMD Governing Board. Metro requests modification of the award to include the concert service, with no change to the award amount. The MSRC-TAC unanimously recommended approval.

ON MOTION BY MSRC MEMBER BEN BENOIT, AND SECONDED BY MSRC ALTERNATE ADAM RUSH, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY VOTED TO APPROVE AN AWARD MODIFICATION FOR THE LOS ANGELES METROPOLITAN TRANSPORTATION AUTHORITY TO INCLUDE SPECIAL TRANSIT SERVICE TO TWO CONCERTS AT DODGER STADIUM, IN ADDITION TO HOME BASEBALL GAMES, WITH NO CHANGE TO THE AWARD AMOUNT OF \$807,945.

ACTION: This contract modification will be considered by the SCAQMD Board at its meeting on April 7, 2017.

Agenda Item #7 – Consider Reallocation of Costs Between Tasks by Riverside County Transportation Commission (RCTC), Contract #MS14059 (Implement Signal Synchronization Projects)

RCTC requests to reallocate \$74,625 from the Hamner Avenue Project in Eastvale to the Magnolia Avenue Project in Riverside. There would be no change in the overall MSRC contribution or the work to be performed. The MSRC-TAC unanimously recommended approval, with one abstention.

ON MOTION BY MSRC MEMBER BEN BENOIT, AND SECONDED BY MSRC ALTERNATE ADAM RUSH, UNDER APPROVAL OF CONSENT CALENDAR ITEMS #1 THROUGH #7, THE MSRC UNANIMOUSLY VOTED TO APPROVE FOR THE RIVERSIDE COUNTY TRANSPORTATION COMMISSION CONTRACT #MS14059, REALLOCATION OF \$74,625 FROM THE HAMNER AVENUE PROJECT IN EASTVALE TO THE MAGNOLIA AVENUE PROJECT IN RIVERSIDE, WITH NO CHANGE IN THE OVERALL MSRC CONTRIBUTION OR THE WORK TO BE PERFORMED.

ACTION: MSRC Staff will amend the above contract accordingly.

ACTION CALENDAR (Item 8)

FYs 2016-18 WORK PROGRAM

Agenda Item #8 – Consider Application Received under the Major Event Center Transportation Program

MSRC-TAC Member Kelly Lynn, Chair/TCM Subcommittee reported that an application was received from OCTA under the Major Event Center Transportation Program. The TCM Subcommittee met earlier in the day to discuss the proposal, and it was unanimously supported. As the MSRC may recall, when the TCM Subcommittee was asked to review overall the Major Event Center category, one of the things that was newly put into place was a new proposal score sheet with categories. From now on, going forward, we look at items as far as whether they are approved or not by the Subcommittee looking at criteria that have the 1) Potential to Achieve Quantifiable Air Pollutant Reductions; 2) Additional Project Co-Funding; and 3) Program Continuation Plan. Today was the Subcommittee's first opportunity to use those criteria.

The OCTA proposal is for Metrolink service, their Angels Express Service, to the Angels Stadium. It is for the 2017-2018 seasons and it is for all the regular weekday home games which they estimate to be 54 games for each season. There is some urgency to this item. The MSRC-TAC did not review this item. It was reviewed by the TCM Subcommittee and brought to the MSRC today because their first game is March 30, 2017. They are proposing a special train service, one on the Orange line that goes from Laguna Niguel/Mission Viejo area up to the Angels Stadium in Anaheim and one coming down from Union Station, so there is a northbound and southbound, and then there is a reverse commute.

The other service OCTA is proposing is for the Inland Empire. That would be for 15 Friday night games, with one exception on a Thursday night, April 27.

The total project cost is \$1,007,272, but they are asking from the MSRC \$503,272. A minimum of 60 points are required to pass the TCM Subcommittee, and they had an overall score of 75 points. Therefore, the TCM Subcommittee is recommending approval.

MSRC Member Greg Winterbottom stated that this is a great program. They will be using Tier 4 locomotives, as soon as they become available, possibly by the end of March.

ON MOTION BY MSRC MEMBER BEN BENOIT, AND SECONDED BY MSRC ALTERNATE ADAM RUSH, THE MSRC UNANIMOUSLY VOTED TO APPROVE AN AWARD OF \$503,272 TO ORANGE COUNTY TRANSPORTATION AUTHORITY TO CO-FUND THE OCTA ANGELS EXPRESS METROLINK SERVICE TO ANGELS STADIUM.

AYES: BENOIT, CARTER, YAMARONE, WINTERBOTTOM, RUSH
NOES: NONE.

ACTION: This award will be considered by the SCAQMD Board at its April 7, 2017 meeting.

OTHER BUSINESS

Agenda Item #9 – Other Business

Ray Gorski, MSRC Technical Advisor, recognized Henry Hogo, the SCAQMD Liaison to the MSRC. He will be retiring at the end of March. Speaking on behalf of the MSRC staff, Mr. Gorski would like the MSRC membership to know that part of the reason that things go as smoothly as they do is because of Mr. Hogo. He has been the liaison; he has kept an eye on the day-to-day administration; and he has always had an open-door policy. Ray Gorski appreciates his wisdom, experience and knowledge. Mr. Hogo has always tried to make sure that the SCAQMD and the MSRC are working as smoothly as we can towards common objectives. Nothing is going to change when Mr. Hogo leaves because Mr. Fred Minassian, Assistant DEO/Science and Technology Advancement, is going to be taking over in that capacity.

Mr. Winterbottom added that he has been on the MSRC for over 22 years and they have not always been easy and smooth, and he appreciates the help that Mr. Hogo has given the MSRC. He thanked Mr. Hogo for his service.

Henry Hogo, Assistant DEO/Science and Technology Advancement, indicated that Matt Miyasato, DEO/Science & Technology Advancement, is present at today's meeting, and he thanked Dr. Miyasato for the guidance and support he has provided to Ray Gorski and him. He also announced that Connie Day, the MSRC-TAC Alternate representing SCAQMD, retired on March 10, and that Vicki White, Technology Implementation Manager, will be taking Ms. Day's place. Ultimately MSRC-TAC Member Dean Saito will be retiring later on this year. Mr. Hogo thanked the MSRC.

MSRC Alternate Michael Carter stated that, on behalf of the Air Resources Board, it has been a pleasure working with Mr. Hogo. He will be missed personally and professionally. He indicated that anything he has ever dealt with with Mr. Hogo, concerning ARB, has always been a real cooperative joint effort and he wished Mr. Hogo good luck.
