

BOARD MEETING DATE: June 1, 2018

AGENDA NO. 2

PROPOSAL: Set Public Hearing July 6, 2018 to Consider Adoption of and/or Amendments to SCAQMD Rules and Regulations

Determine that Proposed Amendments to Rule 1111 – Reduction of NO_x Emissions from Natural-Gas-Fired, Fan-Type Central Furnaces Are Exempt from CEQA and Amend Rule 1111

At the Public Hearing to adopt amendments to Rule 1111 on March 2, 2018, the Board directed staff to propose additional labeling requirements to better inform consumers when a unit is subject to a mitigation fee. PAR 1111 will add labeling requirements for any furnace that is utilizing the mitigation fee alternate compliance option because the unit is not certified to meet the 14 ng/J certification limit. In addition to adding information to the existing labeling required for each furnace and its shipping container, PAR 1111 also requires that the consumer brochure and technical specification sheet for the furnace, as well as the manufacturer's website, include language to inform consumers about units that do not meet the 14 ng/J certification limit and are subject to a mitigation fee. This action is to adopt the Resolution:

1) Determining that the proposed amendments to Rule 1111 – Reduction of NO_x Emissions from Natural-Gas-Fired, Fan-Type Central Furnaces are exempt from the requirements of the California Environmental Quality Act; and 2) Amending Rule 1111 – Reduction of NO_x Emissions from Natural-Gas-Fired, Fan-Type Central Furnaces. (Reviewed: Stationary Source Committee, April 20 and May 18, 2018)

The complete text of the proposed amendments, staff report and other supporting documents will be available from the SCAQMD's Public Information Center, (909) 396-2001 and on the Internet (www.aqmd.gov) as of June 6, 2018.

RECOMMENDED ACTION:

Set Public Hearing July 6, 2018 to amend Rule 1111.

Wayne Nastri
Executive Officer
