Gideon Kracov, Member
South Coast AQMD Governing Board

ft

The California Air Resources Board (CARB or Board) held a meeting remotely on May 20, 2021 via a web-based videoconferencing service. The key items presented are summarized below.

DISCUSSION ITEMS

21-4-1: Public Hearing to Consider Proposed Clean Miles Standard

The Board adopted the proposed Clean Miles Standard Regulation (Regulation) which requires transportation network companies (TNC) to meet annual electrification and greenhouse gas reduction targets. Senate Bill 1014 (Skinner, Chapter 369, Statutes of 2018) established the California Clean Miles Standard and Incentive Program, requiring the Board to establish annual GHG reduction targets for TNCs that include miles traveled by zero-emission means. SB 1014 also requires that the California Public Utilities Commission (CPUC) implement the regulation beginning in 2023. The Regulation requires TNCs to achieve a goal by 2030 of 90 percent electric vehicle miles traveled and zero CO2 emissions per passenger-mile-traveled. The Regulation also provides GHG credits to TNCs for connecting passengers to mass transit.

21-4-2: Public Meeting to Consider Appointment of New Members to the Assembly Bill 32 Environmental Justice Advisory Committee

The Board appointed seven new members to the Environmental Justice Advisory Committee (EJAC). Pursuant to Assembly Bill 32, CARB originally convened the EJAC in 2007 to advise on the Initial Scoping Plan. EJAC members are comprised of representatives from California communities most heavily impacted by air pollution, including those communities with minority or low-income populations. Staff is reconvening the EJAC to advise the Board on the development of the 2022 Scoping Plan Update that staff plans to bring to the Board by December 2022. The new EJAC members were nominated by a panel of representatives from CalEPA, CARB and current EJAC members. The Board further stipulated that at least four more committee members be appointed from areas not currently represented on the EJAC.

21-4-3: Public Meeting to Consider Assembly Bill 617 Community Air Protection Program – Community Emissions Reduction Program for Southeast Los Angeles Community

The Board approved the Southeast Los Angeles Community Emissions Reduction Plan (Plan) and directed CARB staff to collaborate with the South Coast Air Quality Management District (South Coast AQMD) and the community steering committee to take additional actions to strengthen implementation of the Plan. The Plan was developed by the South Coast AQMD and the community steering committee comprised of residents, local community based groups, industry, and local government. On December 4, 2020, the South Coast AQMD Governing Board adopted the Plan for the Southeast Los Angeles community under the requirements of Assembly Bill (AB) 617. The Board heard staff's review of the Plan and conclusion that it meets the criteria established in AB 617 and the Community Air Protection Blueprint, and is likely to reduce emissions and exposure to air pollution in the community.

South Coast AQMD Staff Comments/Testimony: Staff presented an overview of the Community Emissions Reduction Plan (CERP) for the Year 2 AB 617 community of Southeast Los Angeles. The presentation highlighted the Southeast Los Angeles Community Steering Committee's air quality priorities, CERP actions to address the air quality priorities, and emissions and exposure reduction targets in the CERP. Staff emphasized the collaborative efforts with the Community Steering Committee to develop the CERP. Members of the Southeast Los Angeles Community Steering Committee testified in support of the CERP and recommended improvements to the AB 617 program.
