

BOARD MEETING DATE: February 6, 2026

AGENDA NO. 2

PROPOSAL: Set Public Hearing March 6, 2026 to Consider Adoption of and/or Amendments to South Coast AQMD Rules and Regulations:

Determine That Proposed Amended Rule 1124 – Aerospace Assembly and Component Manufacturing Operations, Is Exempt from CEQA; Amend Rule 1124; and Submit for Inclusion Into State Implementation Plan

Rule 1124 establishes VOC limits and material-use requirements for aerospace assembly and component manufacturing operations. The California Office of Environmental Health Hazard Assessment has determined that para-Chlorobenzotrifluoride and tert-Butyl Acetate, which are used in certain aerospace materials, have carcinogenic health effects. Proposed Amended Rule 1124 (PAR 1124) includes several compliance pathways to minimize the health impact from aerospace operations. This action is to adopt the Resolution:

1) Determining that PAR 1124 – Aerospace Assembly and Component Manufacturing Operations is exempt from the requirements of the California Environmental Quality Act; 2) Amending Rule 1124 – Aerospace Assembly and Component Manufacturing Operations; and 3) Directing staff to submit Proposed Amended Rule 1124 – Aerospace Assembly and Component Manufacturing Operations to CARB and U.S. EPA for inclusion into the State Implementation Plan. (Reviewed: Stationary Source Committee, January 23, 2026)

The complete text of the proposed amended rule and other supporting documents will be made available from the South Coast AQMD's Public Information Center at (909) 396-2001, or Ms. Lisa Tanaka – Deputy Executive Officer/Public Advisor, South Coast AQMD, 21865 Copley Drive, Diamond Bar, CA 91765, (909) 396-3327, PublicAdvisor@aqmd.gov and on the Internet (www.aqmd.gov) as of February 3, 2026.

RECOMMENDED ACTIONS:

Set Public Hearing March 6, 2026 to: Determine that Proposed Amended Rule 1124 is exempt from CEQA, amend Rule 1124, and submit Rule 1124 into the SIP.

Wayne Nastri
Executive Officer
