

BOARD MEETING DATE: October 2, 2026

AGENDA NO. 18

REPORT: Intergovernmental Review of Environmental Documents and CEQA Lead Agency Projects

SYNOPSIS: This report provides a listing of environmental documents prepared by other public agencies seeking review by South Coast AQMD between August 1, 2026 and August 31, 2026, and proposed projects for which South Coast AQMD is acting as lead agency pursuant to CEQA.

COMMITTEE: Mobile Source, September 18, 2026, Reviewed

RECOMMENDED ACTION:
Receive and file.

Wayne Nastri
Executive Officer

SR:MK:BR:SW:AS

Background

The California Environmental Quality Act (CEQA) Statute and Guidelines require public agencies, when acting in their lead agency role, to provide an opportunity for other public agencies and members of the public to review and comment on the analysis in environmental documents prepared for proposed projects. A lead agency is when a public agency has the greatest responsibility for supervising or approving a proposed project and is responsible for the preparation of the appropriate CEQA document.

Each month, South Coast AQMD receives environmental documents, which include CEQA documents, for proposed projects that could adversely affect air quality. South Coast AQMD fulfills its intergovernmental review responsibilities, in a manner that is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4, by reviewing and commenting on the adequacy of the air quality analysis in the environmental documents prepared by other lead agencies.

The status of these intergovernmental review activities is provided in this report in two sections: 1) Attachment A lists all of the environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received during the reporting period; and 2) Attachment B lists the active projects for which South Coast AQMD has reviewed or is continuing to conduct a review of the environmental documents prepared by other public agencies. Further, as required by the Board's October 2002 Environmental Justice Program Enhancements for fiscal year (FY) 2002-03, each attachment includes notes for proposed projects which indicate when South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. The attachments also identify for each proposed project, as applicable: 1) the dates of the public comment period and the public hearing date; 2) whether staff provided written comments to a lead agency and the location where the comment letter may be accessed on South Coast AQMD's website; and 3) whether staff testified at a hearing.

In addition, the South Coast AQMD will act as lead agency for a proposed project and prepare a CEQA document when: 1) air permits are needed; 2) potentially significant adverse impacts have been identified; and 3) the South Coast AQMD has primary discretionary authority over the approvals. Attachment C lists the proposed air permit projects for which South Coast AQMD is lead agency under CEQA.

Attachment A – Log of Environmental Documents Prepared by Other Public Agencies and Status of Review, and Attachment B – Log of Active Projects with Continued Review of Environmental Documents Prepared by Other Public Agencies

Attachment A contains a list of all environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received pursuant to CEQA or other regulatory requirements. Attachment B provides a list of active projects, which were identified in previous months' reports, and which South Coast AQMD staff is continuing to evaluate or prepare comments relative to the environmental documents prepared by other public agencies. The following table provides statistics on the status of review¹ of environmental documents for the current reporting period for Attachments A and B combined²:

¹ The status of review reflects the date when this Board Letter was prepared. Therefore, Attachments A and B may not reflect the most recent updates.

² Copies of all comment letters sent to the lead agencies are available on South Coast AQMD's website at: <http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>.

Statistics for Reporting Period from August 1, 2026 to August 31, 2026	
Attachment A: Environmental Documents Prepared by Other Public Agencies and Status of Review	59
Attachment B: Active Projects with Continued Review of Environmental Documents Prepared by Other Public Agencies (which were previously identified in the July 2026 report)	11
Total Environmental Documents Listed in Attachments A & B	70
<i>Comment letters sent</i>	<i>15</i>
<i>Environmental documents reviewed, but no comments were made</i>	<i>51</i>
<i>Environmental documents currently undergoing review</i>	<i>4</i>

Staff focuses on reviewing and preparing comments on environmental documents prepared by other public agencies for proposed projects: 1) where South Coast AQMD is a responsible agency under CEQA (e.g., when air permits are required but another public agency is lead agency); 2) that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); 3) that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); 4) where environmental justice concerns have been raised; and 5) which a lead or responsible agency has specifically requested South Coast AQMD review.

If staff provided written comments to a lead agency, then a hyperlink to the “South Coast AQMD Letter” is included in the “Project Description” column which corresponds to a notation in the “Comment Status” column. In addition, if staff testified at a hearing for a proposed project, then a notation is included in the “Comment Status” column. Copies of all comment letters sent to lead agencies are available on South Coast AQMD’s website at: <http://www.aqmd.gov/home/regulations/ceqa/commenting-agency>. Interested parties seeking information regarding the comment periods and scheduled public hearings for projects listed in Attachments A and B should contact the lead agencies for further details as these dates are occasionally modified.

In January 2006, the Board approved the Clean Port Initiative Workplan (Workplan). One action item of the Workplan was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In accordance with this action item, Attachments A and B organize the environmental documents received according to the following categories: 1) goods movement projects; 2) schools; 3) landfills and wastewater projects; 4) airports; and 5) general land use projects. In response to the action item relative to mitigation, staff maintains a compilation of mitigation measures presented as a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases which are available on South Coast AQMD’s website at: <http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation->

[measures-and-control-efficiencies](#). Staff will continue compiling tables of mitigation measures for other emission sources such as ground support equipment.

Attachment C – Proposed Air Permit Projects for Which South Coast AQMD is CEQA Lead Agency

The CEQA lead agency is responsible for determining the type of environmental document to be prepared if a proposal requiring discretionary action is considered to be a “project” as defined by CEQA. South Coast AQMD periodically acts as lead agency for its air permit projects and the type of environmental document prepared may vary depending on the potential impacts. For example, an Environmental Impact Report (EIR) is prepared when there is substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if a proposed project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are types of CEQA documents which analyze the potential environmental impacts and describe the reasons why a significant adverse effect on the environment will not occur such that the preparation of an EIR is not required.

Attachment C of this report summarizes the proposed air permit projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation pursuant to CEQA. As noted in Attachment C, South Coast AQMD is lead agency for two air permit projects during August 2026.

PROJECT TITLE				
Transportation	The project consists of modifying interchange between Interstate 5 and El Toro Road Interchange to improve traffic flow, optimize traffic signalization, reduce freeway ramp queuing, and applying traffic demand management technology. The project is located along Interstate 5 at El Toro Road (Post Miles 17.8 and 19.7) within the cities of Lake Forest, Laguna Woods, and Laguna Hills.	Draft Environmental Impact Report/Draft Environmental Assessment	California Department of Transportation (Caltrans)	Document reviewed - No comments sent
ORC260805-08 Interstate 5/El Toro Road Interchange Project				
	Comment Period: 7/31/2026 - 8/28/2026 Public Hearing: N/A			
Transportation	The project consists of constructing a new interchange on Interstate 10 at Wildwood Canyon Road through three build alternative designs that include connecting roadways, overcrossing bridge structures, and utility improvements (e.g., Diamond, Skewed Diamond, or Diverging Diamond Interchange Overcrossing). The project is located on Interstate 10 between Live Oak Canyon Road and Oak Glen Road Interchange and the County Line Road Interchange (Post Mile R37.0 to R39.0) in Yucaipa.	Draft Environmental Impact Report/Draft Environmental Assessment	California Department of Transportation (Caltrans)	Document reviewed - No comments sent
RVC260820-07 Interstate 10 Wildwood Canyon Road Interchange Project				
	Comment Period: 8/14/2026 - 9/30/2026 Public Hearing: N/A			
Transportation	The project consists of repairing pavement and culverts along State Route 79 and Interstate 10 by: 1) installing cold planes and overlays; 2) upgrading guardrails and end treatments; 3) upgrading curb ramps to comply with the Americans with Disabilities Act; 4) repairing and replacing culverts; 5) replacing bridge railings; 6) installing rock slope protections, new sidewalks, and Class II bike lanes; and 6) enhancing existing crosswalk markings and stripes. The project is located along State Route 79 from Post Mile M31.7 to Post Mile 40.4 and Interstate 10 at Post Mile 7.6 in Riverside County.	Draft Negative Declaration	California Department of Transportation (Caltrans)	Document reviewed - No comments sent
RVC260825-01 SR-79 CAPM Drainage and Bridge Rail Project				
	Comment Period: 8/24/2026 - 9/24/2026 Public Hearing: N/A

ATTACHMENT C
PROPOSED AIR PERMIT PROJECTS FOR WHICH SOUTH COAST AQMD IS CEQA LEAD AGENCY
Through August 31, 2026

PROJECT PROPONENT/ PROJECT TITLE	PROJECT DESCRIPTION	TYPE OF DOCUMENT	STATUS	CONSULTANT
Ecobat Resources California Inc. (formerly Quemetco) <u>Quemetco Capacity Upgrade Project</u>	Ecobat Resources California Inc. (formerly Quemetco) is proposing to modify its South Coast AQMD permits (Facility ID: 8547) to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs. The project is located in Los Angeles County at 720 South 7th Avenue in the City of Industry. Reference: State Clearinghouse No. 2018081096	Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received. South Coast AQMD held two community meetings on November 10, 2021, and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Response to written comments submitted relative to the Draft EIR and oral comments made at the community meetings are currently being prepared by the consultant. After the Draft EIR public comment and review period closed, Quemetco submitted additional applications for other permit modifications. South Coast AQMD staff is evaluating the effect of these new applications on the EIR process.	Trinity Consultants
Tesoro Refining & Marketing Company, LLC (Tesoro) <u>Marathon Los Angeles Refinery Modernization Projects</u>	Tesoro is proposing modifications to its Carson Operations and Wilmington Operations at the Marathon Los Angeles Refinery in order to replace aging coke drums, produce asphalt binder, and make more high-octane, low vapor pressure clean-gasoline blendstock by modifying the fluid feed hydrodesulfurization unit, the fluidized catalytic cracking unit, and the alkylation units. The projects are located at two facilities in Los Angeles County: 1) Marathon Carson Operations, Facility ID 174655, 2350 East 223rd Street in Carson; and 2) Marathon Wilmington Operations, Facility ID 800436, 2101 East Pacific Coast Highway in Wilmington. Both of these facilities are located in the AB 617 Wilmington, Carson, and West Long Beach community. Reference: State Clearinghouse No. 2025110170	Notice of Preparation of a Draft Environmental Impact Report and Initial Study (NOP/IS)	The NOP/IS was released for a 34-day public review and comment period from November 5, 2025 to December 9, 2025 and six comment letters were received. A CEQA Scoping meeting was held on November 18, 2025. The consultant is preparing a preliminary Draft EIR, which will include responses to the comment letters received and comments made during the CEQA Scoping meeting.	Environmental Audit, Inc.
